

Clear the Internet Cache in IE 7

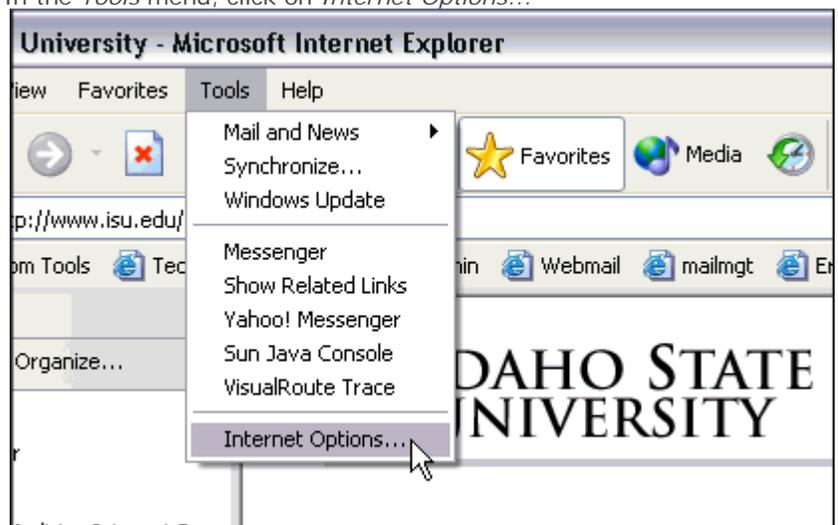

Problem:

I have been told that I need to clear the cache in Internet Explorer on my computer. How do I do this?

Solution:

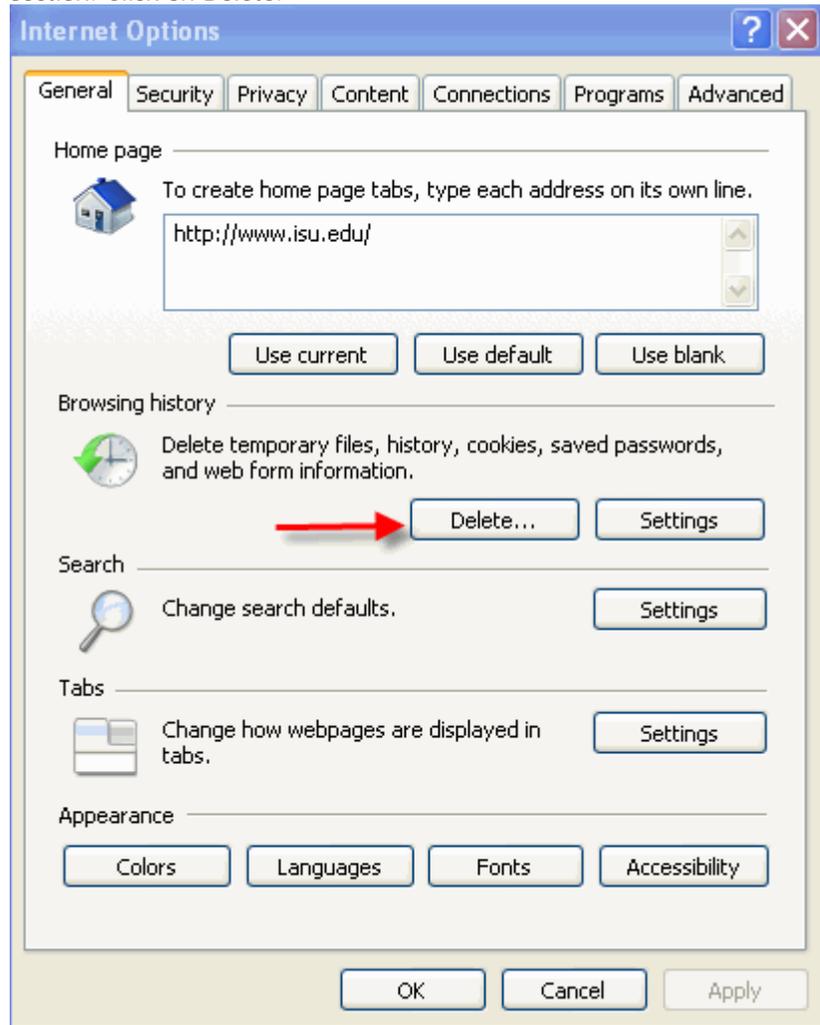

To clear your internet cache in Internet Explorer:

1. Open Internet Explorer
2. At the top of the screen, click on *Tools*.
3. In the *Tools* menu, click on *Internet Options...*

If you do not see the tools menu hold down the alt and t key on the keyboard.

4. In the *Internet Options* window, find the *Temporary Internet Files* section. Click on *Delete*.

5. A *Delete Browsing History* window will appear. Click on the *Delete Files...* button.

6. A verification screen will then come up. Click *Yes* to delete the

files.

7. When this is finished, you can click *Close*, then click *OK* on the *Internet Options* window, this will return you to your web page.
