

## GEORGIA NEXTGEN ELEVATOR PITCH

Use the information below to start discussions about Georgia's NextGen project with colleagues, direct reports, project stakeholders and other interested parties.

### WHAT

NextGen will replace the current PeopleSoft Human Capital Management + Finance systems with a modern, cloud-based ERP system.

### WHO

The project will benefit State of Georgia entities, employees, suppliers and contractors.

### WHEN

The NextGen project started in 2021 and is expected to be completed within a few years.

### WHY

The current PeopleSoft system is 20+ years old. Such a dated system is becoming more difficult and costly to support.

### HOW

Collaborative effort with SAO (project owner) and DOAS, with oversight provided by GTA and the General Assembly.

### VISION

To transform state government processes by leveraging secure, flexible, and intuitive technology that promotes transparency, increases efficiency, and enables excellent customer service.

### VALUES

#### Transparency

We build and maintain trust by ensuring that data will be universally accessible to a variety of stakeholders and easily consumable through simplified reporting and visual dashboards.

#### Integrity

We maintain data to ensure that it can be relied upon to make decisions and all legal and regulatory requirements are met.

#### Security

We design and configure systems to protect confidentiality, ensure availability, prevent fraud, enable business continuity and maintain security protocols.

#### Efficiency

Enabled by technology, we foster user self-sufficiency by continuously improving business processes to maximize productivity and reduce manual input.

#### Customer-focused

We provide our external customers and internal system users with an intuitive, user-friendly experience and maintain a customer service feedback loop.

#### Accountability

We earn credibility by fulfilling commitments, establishing standardized processes and ensuring a system of checks and balances.

### MISSION

Continuously optimize user experience and business processes in human capital management, finance and procurement enabled by a unified platform.

### KEY BENEFITS

#### ADAPTABLE

to the modern workforce with access from any device

#### USER FRIENDLY

interfaces for quicker views and analysis

#### REAL-TIME DATA

analytics and dashboard reporting

#### STREAMLINED WORKFLOWS

for paperless approvals and controls

## DESIRED OUTCOMES

### Optimized Workforce

- Improve employee and organizational efficiency, maximize use of resources and promote collaboration across the enterprise of state government.
- Reduce redundancy of tasks by automating processes to enable employees to increase focus on agency missions.

### Enabled Decision-Making

- Ensure data quality, transparency, and integrity by instituting system-enabled checks and balances and standardizing data elements.
- Provide availability of data for predictive analytics using dashboards available through system-generated reporting as well as ad-hoc capabilities.

### Modern Stakeholder Experience

- Enhance user experience through easy-to-use, intuitive technology, accessible training and adoption of standard business processes.
- Ensure stakeholder inclusion in process development and system configuration activities to achieve standardization.

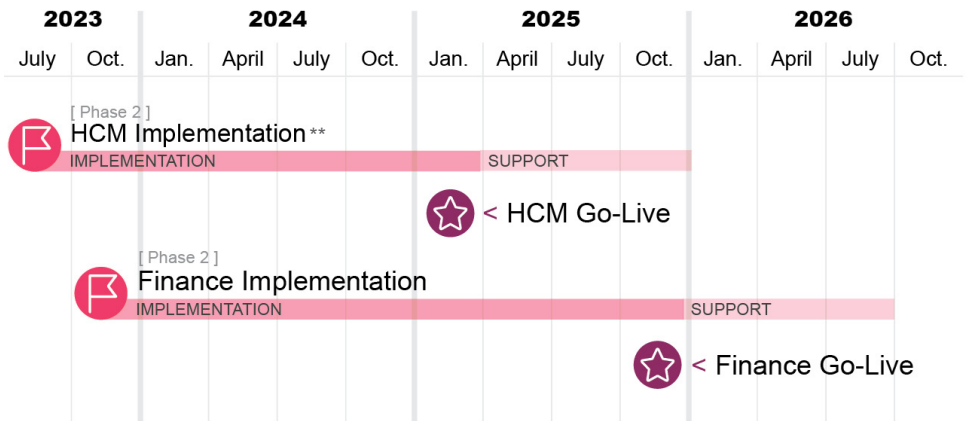

### Efficient Stewardship

- Leverage delivered capabilities to increase transparency of spend and ensure accountability of business operations.
