

- The Assets Crosswalk is a tool to help Assets professionals navigate the change from the legacy system to GA@WORK.
- Refer to training materials for additional instructions and go to the [GA@WORK Resource Library](#) for additional resources.

Asset Transfer between Agencies	<p>Only the State Accounting Office (SAO) can process interagency asset transfers. SAO manages mass retires and mass additions, while the gaining agency must provide compatible chart fields. The process is semi-automated but mostly manual, requiring significant coordination and data entry by both SAO and agency staff. Business Asset Tracking Specialists and Asset Accountants have limited involvement and must rely on SAO.</p>	<p>Agencies will be able to initiate and complete intercompany asset transfers directly in GA@WORK.</p>	<p>---</p>
