GEORGIA NEXTGEN ELEVATOR PITCH

Use the information below to start discussions about Georgia's NextGen Project with colleagues, direct reports, project stakeholders and other interested parties. The NextGen Project oversees the implementation of Georgia's new Enterprise Resource Planning (ERP) system, GA@WORK.

WHAT

GA@WORK will replace the current PeopleSoft Human Capital Management + Finance systems.

WHO

The project will benefit State of Georgia entities, employees, suppliers and contractors.

WHEN

The NextGen Project started in 2021 and will go live October 1, 2025.

WHY

The current PeopleSoft system is 20+ years old. The dated and highly customized system is difficult and costly to support.

HOW

Collaborative effort with SAO (project owner) and DOAS, with oversight provided by GTA and the General Assembly.

VISION

To transform state government processes by leveraging secure, flexible, and intuitive technology that promotes transparency, increases efficiency, and enables excellent customer service.

VALUES

Transparency

We build and maintain trust by ensuring that data will be universally accessible to a variety of stakeholders and easily consumable through simplified reporting and visual dashboards.

Integrity

We maintain data to ensure that it can be relied upon to make decisions and all legal and regulatory requirements are met.

Security

We design and configure systems to protect confidentiality, ensure availability, prevent fraud, enable business continuity and maintain security protocols.

Efficiency

Enabled by technology, we foster user self-sufficiency by continuously improving business processes to maximize productivity and reduce manual input.

Customer-focused

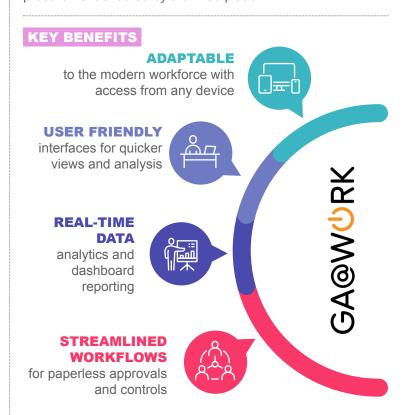

We provide our external customers and internal system users with an intuitive, user-friendly experience and maintain a customer service feedback loop.

Accountability

We earn credibility by fulfilling commitments, establishing standardized processes and ensuring a system of checks and balances.

MISSION

Continuously optimize user experience and business processes in human capital management, finance and procurement enabled by a unified platform.

DESIRED OUTCOMES

Optimized Workforce

- Improve employee and organizational efficiency, maximize use of resources and promote collaboration across the enterprise of state government.
- Reduce redundancy of tasks by automating processes to enable employees to increase focus on agency missions.

Enabled Decision-Making

- Ensure data quality, transparency, and integrity by instituting system-enabled checks and balances and standardizing data elements.
- Provide availability of data for predictive analytics using dashboards available through system-generated reporting as well as ad-hoc capabilities.

Modern Stakeholder Experience

- Enhance user experience through easy-to-use, intuitive technology, accessible training and adoption of standard business processes.
- Ensure stakeholder inclusion in process development and system configuration activities to achieve standardization.

Efficient Stewardship

 Leverage delivered capabilities to increase transparency of spend and ensure accountability of business operations.

PROJECT TIMELINE

[by calendar year*]

^{*} State fiscal years (FY) run from July 1 - June 30 (i.e. FY2024 began July 1, 2023)
