State of Georgia

Single Audit Report

For the Year Ended June 30, 2019

Georgia Department of Audits and Accounts

DEPARTMENT OF AUDITS AND ACCOUNTS

270 Washington Street, S.W., Suite 1-156 Atlanta, Georgia 30334-8400

GREG S. GRIFFIN STATE AUDITOR (404) 656-2174

February 28, 2020

The Honorable Brian P. Kemp Governor of Georgia and Members of the General Assembly Citizens of the State of Georgia

We are honored to present the State of Georgia Single Audit Report for the year ended June 30, 2019. The single audit satisfies the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). All of the information required for the single audit is included in this report except for the State's financial statements and our report thereon, which are included in the State of Georgia Comprehensive Annual Financial Report. The Single Audit Report contains our:

- Report on Internal Control Over Financial Reporting and Compliance;
- Report on Compliance for Each Major Federal Program;
- Report on Internal Control Over Compliance;
- Report on Schedule of Expenditures of Federal Awards (SEFA); and
- Schedule of Findings and Questioned Costs.

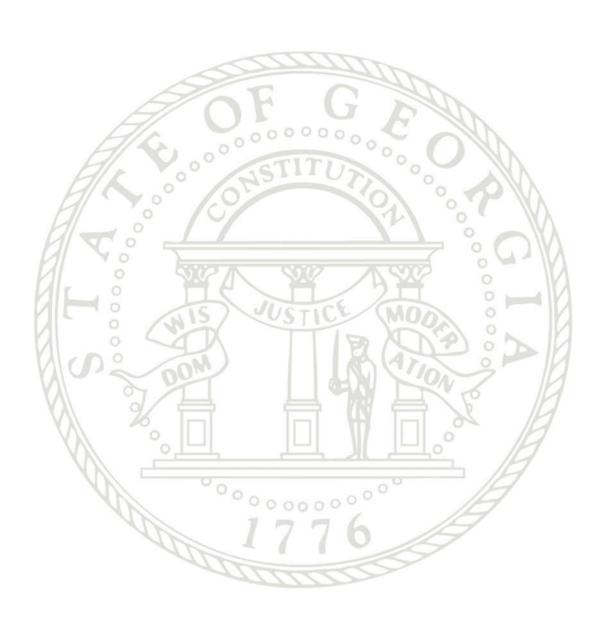

The report also contains the statewide SEFA, Summary Schedule of Prior Audit Findings, Corrective Action Plan for Current Year Findings, and Listing of Organizational Units Comprising the State of Georgia Reporting Entity.

We would like to express our appreciation to all those involved in the preparation and completion of this report. We believe the results of this statewide audit provide valuable information to the State's decision makers and others interested in the activities of the State of Georgia.

Respectfully submitted,

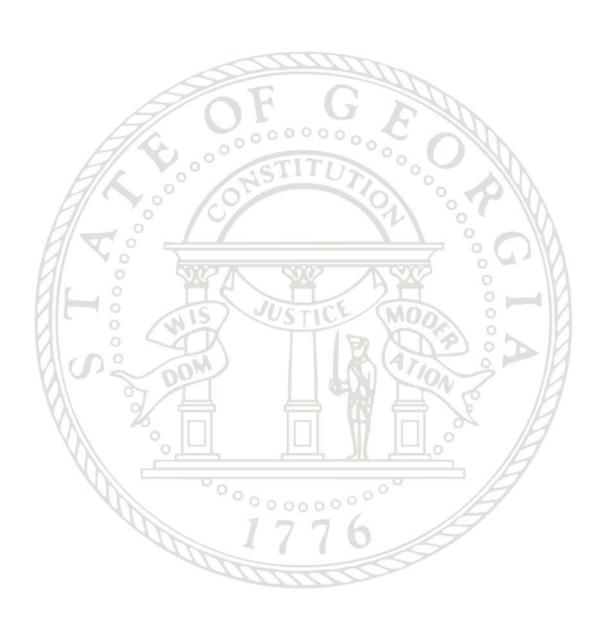

DregS Buje

Greg S. Griffin State Auditor

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Independent Auditor's Report

The Honorable Brian P. Kemp, Governor of Georgia and

Members of the General Assembly of the State of Georgia

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Georgia (State) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the State's basic financial statements, and have issued our report thereon dated December 30, 2019.

Our report includes a reference to other auditors who audited the financial statements of the State entities listed below, as described in our report on the State's basic financial statements.

This report includes our consideration of the results of other auditors' testing of internal control over financial reporting and compliance and other matters that are reported on separately by those other auditors. However, this report, insofar as it relates to the results of the other auditors, is based solely on the reports of the other auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the State's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State's internal control. Accordingly, we do not express an opinion on the effectiveness of the State's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we and the other auditors did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying *Schedule of Findings and Questioned Costs* in findings 2019-001, 2019-002, 2019-003, 2019-004, 2019-005, 2019-006, 2019-007, 2019-008, 2019-009, and 2019-010 that we consider to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the State's basic financial statements are free from material misstatement, we and other auditors performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying *Schedule of Findings and Questioned Costs* in findings 2019-002, 2019-003, 2019-004, 2019-005, 2019-006, 2019-007, 2019-008, 2019-009, and 2019-010.

State's Responses to Findings

The State's responses to the findings identified in our audit consist of views of responsible officials and corrective action plans. The views of responsible officials are described in the accompanying *Schedule of Findings and Questioned Costs*, and the corrective action plans are described in the accompanying *Corrective Action Plan for Current Year Findings*. The State's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

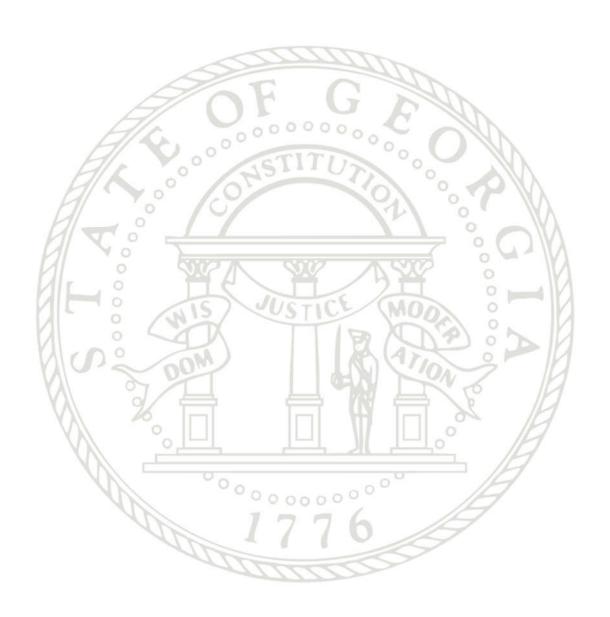

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

Sug Shiff

Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

Independent Auditor's Report

The Honorable Brian P. Kemp, Governor of Georgia and
Members of the General Assembly of the State of Georgia

Report on Compliance for Each Major Federal Program

We have audited the State of Georgia's (State's) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the State's major federal programs for the year ended June 30, 2019. The State's major federal programs are identified in the summary of auditor's results section of the accompanying *Schedule of Findings and Questioned Costs*.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the State's major federal programs based on our audit of the types of compliance requirements referred to above.

As stated in our report on the basic financial statements, we did not audit the financial statements of the State entities listed below nor did we audit compliance for the major federal programs or percentages of these federal programs at the State entities identified in the table on the following page.

The financial statements of the above mentioned State entities and the compliance for the federal programs/clusters identified in the table below were audited by other auditors whose reports, including reports on compliance and internal control over compliance, have been furnished to us. This report includes our consideration of the results of the other auditors' testing of compliance and internal control over compliance that are reported on separately by those other auditors. However, this report, insofar as it relates to the results of the other auditors, is based solely on the reports of the other auditors.

State Entity	CFDA Number(s)	Program or Cluster Title	% of Program or Cluster Audited by Other Auditors
University System of Georgia Foundation, Inc. and Affiliates	10.766, 10.780	Community Facilities Loans and Grants Cluster	100%
Department of Community Affairs	14.871, 14.879	Housing Voucher Cluster	100%
Georgia Ports Authority	20.934	Nationally Significant Freight and Highway Projects	100%
Georgia Environmental Finance	66.458, 66.482	Clean Water State Revolving Fund Cluster	100%
Authority	66.468, 66.483	Drinking Water State Revolving Fund Cluster	100%

The federal award expenditures audited by Other Auditors comprise one percent of the State's total expenditures of federal awards.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the State's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the State's compliance.

Opinion on Each Major Federal Program

In our opinion, based on our audit and the reports of other auditors, the State complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs identified in the summary of auditor's results section of the accompanying *Schedule of Findings and Questioned Costs* for the year ended June 30, 2019.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying *Schedule of Findings and Questioned Costs* in findings 2019-011, 2019-012, 2019-013, 2019-014, 2019-015, 2019-016, 2019-017, 2019-018, 2019-019, 2019-020, 2019-021, 2019-022, 2019-023, 2019-027, 2019-029, 2019-030, and 2019-031. Our opinion on each major federal program is not modified with respect to these matters.

The State's responses to the noncompliance findings identified in our audit consist of views of responsible officials and corrective action plans. The views of responsible officials are described in the accompanying *Schedule of Findings and Questioned Costs*, and the corrective action plans are described in the accompanying *Corrective Action Plan for Current Year Findings*. The State's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Report on Internal Control Over Compliance

Management of the State is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the State's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the State's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance with a type of compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We and the other auditors did not identify any deficiencies in internal control over compliance, that we consider to be material weaknesses. However, we did identify certain deficiencies in internal control over compliance, described

in the accompanying *Schedule of Findings and Questioned Costs* in findings 2019-021, 2019-022, 2019-023, 2019-024, 2019-025, 2019-026, 2019-027, and 2019-028 that we consider to be significant deficiencies.

The State's responses to the internal control over compliance findings identified in our audit consist of views of responsible officials and corrective action plans. The views of responsible officials are described in the accompanying *Schedule of Findings and Questioned Costs*, and the corrective action plans are described in the accompanying *Corrective Action Plan for Current Year Findings*. The State's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the State's basic financial statements. We have issued our report thereon dated December 30, 2019, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied by us and other auditors in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Respectfully submitted,

Gugs Biff.

Greg S. Griffin State Auditor

February 28, 2020

Schedule of Findings and Questioned Costs

The Schedule of Findings and Questioned Costs (Schedule) was prepared in accordance with Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). The Schedule contains the following sections:

Section I - Summary of Auditor's Results

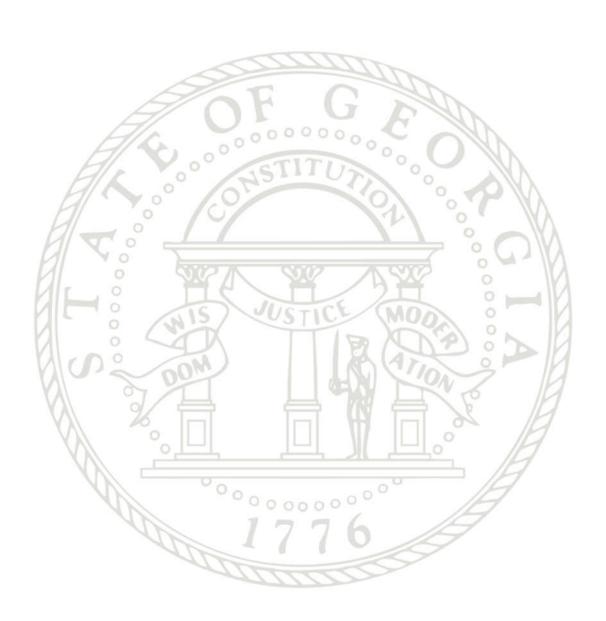

A summary of the results of our audit and a list of the State's major federal programs are presented in this section of the Schedule.

Section II - Financial Statement Findings

This section presents findings related to the financial statements, including any material weaknesses or significant deficiencies in internal control over financial reporting and noncompliance and other matters that are required to be reported in accordance with *Government Auditing Standards*. Financial statement findings are organized by State entity (entity number).

Section III - Federal Award Findings and Questioned Costs

This section presents federal award findings and questioned costs. Findings are reported for material weaknesses or significant deficiencies in internal control over compliance and material noncompliance with the compliance requirements that have a direct and material effect on each of the State's major federal programs and other findings and questioned costs that are required to be reported pursuant to Title 2 CFR 200.516(a). Federal award findings are organized by federal agency, State entity (entity number), federal program, and compliance requirement.

STATEWIDE FINDINGS

2019-001 Continue to Improve Financial Statement Preparation

Internal Control Impact: Significant Deficiency

Compliance Impact: None

Repeat of Prior Year Finding: 2018-001, 2017-001, 2016-001, 2015-041, 2014-054

The State Accounting Office (SAO) should continue to improve controls over financial statement preparation to ensure the accuracy of the State's basic financial statements, including the note disclosures and required supplementary information.

Background Information:

As part of our fiscal year 2019 audit, we followed up on SAO's efforts to implement its corrective action plans for the prior year findings. We noted ongoing efforts are being made by SAO to improve controls over financial reporting. The SAO continues to provide training on financial accounting and reporting to all internal staff and guidance to all State organizations through training and working group sessions, the issuance of accounting policies and procedures, and detailed instructions for financial reporting forms. The SAO also continues to update the disclosure checklist and reporting forms for new accounting standards.

However, the utilization of year-end financial reporting forms to gather information needed to prepare the State's financial statements, combined with other sources of information, and the extent of modification necessary to such information, results in a financial reporting process that continues to be highly complex and manual in nature, and therefore, susceptible to errors.

Criteria:

The SAO is responsible for maintaining a system of controls over the preparation of the State's financial statements in accordance with generally accepted accounting principles (GAAP). The design and operation of SAO's controls should allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements of the financial statements in a timely manner as well as facilitate the timely preparation of complete and accurate financial statements.

Condition:

Our audit of the State's basic financial statements, including the note disclosures, revealed errors that were not detected by SAO's review processes. The more significant items found were as follows:

- Benefits expense totaling \$68 million for the Higher Education opinion unit was misclassified and should have been classified as personnel services. An audit adjustment was proposed and accepted to correct the overstatement of benefit expenses and understatement of personnel services.
- Non-Current Assets Restricted Investments totaling \$154 million for the aggregate discretely presented component units was misclassified and should have been classified as Current Assets Restricted Investments. In addition, Non-Current Assets Restricted Cash/Cash Equivalents totaling \$74 million for the aggregate discretely presented component units was misclassified and should have been classified as Current Restricted Cash/Cash Equivalents. An audit adjustment was proposed and accepted to correct these misclassifications.
- Note 3 to the Financial Statements Government-wide Adjustments reported for Other Noncurrent Assets and Liabilities were understated by \$248 million. In addition, Government-wide Adjustments reported for Long-Term Liabilities Related to Debt were overstated by \$263 million.

• Note 7 to the Financial Statements – General Fund Other Receivables totaling \$1.9 billion was misclassified and should have been classified as Intergovernmental Receivable. An audit adjustment was proposed and accepted to correct this misclassification.

Cause:

For some of the conditions noted above, SAO did not ensure all the manual reclassifications were performed accurately and timely. For the Note 7 condition, noted above, SAO did not perform a control it had designed to catch the type of misclassification that had occurred. There continues to be a need for SAO to standardize its manual preparation process.

Effect:

Weaknesses in the review processes increase the likelihood of untimely detection and correction of errors in the financial statements.

Recommendation:

The SAO should strengthen its financial statement preparation processes by focusing on implementing detective controls for areas that are highly manual in nature and more susceptible to the risk of a material misstatement. In addition, SAO should continue its efforts to ensure all its designed controls are followed to timely detect and correct reporting errors.

Views of Responsible Officials:

We concur with the finding.

STATEWIDE FINDINGS (continued)

2019-002 Strengthen Logical Access Controls

Internal Control Impact: Significant Deficiency
Compliance Impact: Nonmaterial Noncompliance

Strengthen TeamWorks Financials Logical Access Controls.

Background Information:

The State Accounting Office (SAO) and the majority of state agencies rely extensively on the statewide TeamWorks Financials information system to process financial transactions and provide accurate financial reporting. Controls over the system are essential for the reliability and integrity of the State's financial data and to protect financial information from manipulation, corruption, or loss.

The SAO is responsible for the effective operation of TeamWorks Financials and related control activities, including segregation of duties.

Criteria:

The SAO is responsible for maintaining an effective information system, which includes information technology (IT) general controls that ensure logical access is assigned based on job roles and responsibilities along with enforcing segregation of incompatible duties. It also includes policies and procedures, which are important in establishing processes for managing and monitoring user access, changes made to user access roles, and defining segregation of duties rules that govern the assignment of access rights to specific roles.

Pursuant to the Official Code of Georgia Annotated (OCGA) §50-25-4(a)(20), the Georgia Technology Authority (GTA) is to establish technology security policies, standards, and services to be used by all agencies. The SAO is responsible for adhering to the technology security policies and standards which include:

- Access Control Policy (PS-08-009) Access to State information assets is to be controlled and monitored to protect from unauthorized access and disclosure.
- Authorization and Access Management Standard (SS-08-010) Requires periodic reviews of access
 control lists and logs to validate the appropriateness of user accounts and use of access privileges.
 Access control measures are critical to ensuring users only have access to the information for which
 they are authorized and need to perform their official duties.
- Separation of Production and Development Environments (SS-08-031) Production systems
 require a stable and controlled environment to operate properly. Separating development and test
 activities from and restricting developer access to operational environments reduces the risks of
 inadvertent or unauthorized modifications to the operational system that could compromise the
 system's integrity or availability.

Condition:

Our review of TeamWorks Financials IT general controls revealed the following deficiencies in logical access:

- We reviewed the 15 users who had access to promote system changes to the production environment. We found the access was inappropriate for five users based on their job roles and responsibilities. This inappropriate access is due to additional access provided to these users for a TeamWorks Financials upgrade not being removed after the upgrade was implemented.
- We found 111 users, within two agencies, had a misconfigured role that allowed them to have inappropriate access to the workflow administrator functionality within the system. This functionality gave the users the ability to change the workflow configurations for agencies other than their own, despite not having the business need. We also noted that SAO did not perform reviews of access privileges assigned to roles within the system to determine whether the roles were correctly configured to provide proper segregation of duties.
- We found three users who had inappropriate access to view and change all state agencies data, limited by the privileges associated to their roles, that were not commensurate with their job responsibilities.

In addition, our review disclosed certain general security settings for the databases supporting the system could be strengthened to reduce the risk of potential exploitation based on known security vulnerabilities.

The deficiencies in logical access represent noncompliance with the GTA technology security policies and standards. In addition, SAO did not follow its change management policies and procedures designed to restrict access to the operational environment.

When the logical access user deficiencies were brought to SAO's attention, they removed the inappropriate access from the users and role. Additionally, SAO provided evidence showing no inappropriate activity or changes to TeamWorks Financials had occurred during the audit period.

The details related to these deficiencies have been provided to SAO management and shall not be considered a public record in accordance with OCGA §50-6-9(b).

Cause:

The SAO's user access review process did not operate effectively to flag all inappropriate user access for removal. The user access review process also does not include any procedures for reviewing the access privileges assigned to roles within the system.

The SAO did not change certain default general security settings to address known security vulnerabilities for the databases supporting the system.

Effect:

There is an increased risk of unauthorized access to TeamWorks Financials data and possible manipulation or loss of data.

Recommendation:

The SAO should adhere to its established policies and procedures and strengthen its logical access controls by:

- Incorporating additional oversight and training of staff responsible for the user access review process to ensure timely detection and correction of inappropriate access;
- Ensuring proper segregation of duties is maintained in the change management production environment;
- Developing a matrix that establishes appropriate segregation of duties for roles assigned to TeamWorks Financials users and privileges within the roles;
- Establishing procedures for reviewing users access and privileges assigned to application roles to determine whether proper segregation of duties exist and are enforced within the TeamWorks Financials information system;
- Correcting the configuration of the role that allowed access to the workflow administrator functionality within the system; and
- Configuring the general security settings for the databases supporting the system to reduce the risk of unauthorized access and inappropriate activity.

Views of Responsible Officials:

We concur with the finding.

STATE ENTITY: DEPARTMENT OF PUBLIC HEALTH

2019-003 Improve Financial Reporting Controls

Internal Control Impact: Significant Deficiency
Compliance Impact: Nonmaterial Noncompliance

Repeat of Prior Year Finding: 2018-003

The Department of Public Health (DPH) needs to strengthen controls over its financial reporting processes.

Background Information:

As part of our fiscal year 2019 audit, we followed up on DPH's efforts to implement corrective action plans in response to the prior year finding in which we reported that DPH did not have adequate controls over its financial reporting processes. Due to high turnover of management and staff, DPH was not able to address the deficiency in controls during the year.

Criteria:

State organizations are required to provide information to the State Accounting Office (SAO) to permit the proper accounting and reporting of financial information in the State's *Comprehensive Annual Financial Report* (CAFR) and *Schedule of Expenditures of Federal Awards* (SEFA).

The DPH management is responsible for establishing and maintaining a system of internal controls designed to provide reasonable assurance of accurate financial reporting and compliance with applicable statutes and regulations. Effective internal controls over financial reporting should include policies and procedures to ensure the accuracy of statements, reports, and other information that are required to be submitted to SAO and compliance with statewide rules, regulations, policies and procedures as required by *Title 50, Chapter 5B, Article 1 of the Official Code of Georgia Annotated* (OCGA) §50-5B-4. An effective system of internal controls should also include adequately trained personnel with the knowledge, skills and experience to ensure the accuracy of financial reporting and compliance with applicable statutes and regulations.

Condition:

The DPH's controls over its financial reporting processes did not prevent or detect errors in its accounting records and year-end financial submissions to SAO. Our audit procedures disclosed the following significant errors that were corrected by agency post-closing adjustments:

- Clearing account balance of \$21.8 million, which should equal zero at year-end;
- Understatement of federal revenue and expenditures by \$81.8 million and \$44.3 million, respectively.

The DPH submitted 67 post-closing adjustments (PCAs), containing 4,671 lines of data, to adjust its account balances and to correct book errors. The number of PCAs is more than triple the number submitted in the prior year.

In addition, an adjustment was proposed and approved by management to correct DPH's SEFA submission for the omission of \$51.5 million from the *Amount Provided to Subrecipients* for a federal program.

We also noted DPH continues to carryforward an unreconciled difference from the prior year in the Operating Bank Account reconciliation of \$27.4 million.

Cause:

The DPH experienced high turnover of personnel during the end of the fiscal year, which directly impacted the operation of its controls over financial reporting and year-end close processes. In addition, DPH did not perform an adequate pre-closing review to analyze its accounting records and to make accounting corrections and other adjustments prior to the fiscal year close.

Effect:

Prior to DPH's adjustments, DPH's financial information submitted to SAO contained significant errors which resulted in numerous adjusting entries. Ineffective controls over financial reporting increases the risk of misstatements in the State's financial statements, including the disclosures to the financial statements as reflected in the CAFR and SEFA. The need for numerous adjusting entries after year-end close also affects the timeliness of statewide reporting by SAO.

Recommendation:

The DPH should improve controls over its financial reporting processes by incorporating additional oversight, conducting thorough reviews of financial information, including monthly reconciliations of federal revenue and expenditures, and providing training to staff that will aid in the prevention or timely detection and correction of errors in its accounting records.

In addition, DPH should improve its pre-closing review processes by incorporating procedures to address any balances in general clearing accounts. We also recommend that DPH commit resources to research and resolve the old outstanding unreconciled differences on the June 30th operating bank reconciliation and identify related adjusting entries.

Strong internal controls over financial reporting should diminish the need for numerous PCAs to correct accounting records at year-end and help ensure DPH's financial submissions are correct and accurately represent its operations to meet the State's financial reporting needs.

Views of Responsible Officials:

We concur with the finding.

STATE ENTITY: DEPARTMENT OF COMMUNITY HEALTH

2019-004 Continue to Improve Internal Controls Over Claim Processing

Internal Control Impact: Significant Deficiency
Compliance Impact: Nonmaterial Noncompliance

Repeat of Prior Year Finding: 2018-004

The Department of Community Health (DCH) should continue to improve internal controls over claims processing for the State Health Benefit Plan.

Background Information:

The State Health Benefit Plan (Plan) is made up of various health plans, most of which are self-funded. A self-funded health benefit plan is a plan in which the employer is taking on the risk and responsibility of paying all of its covered health claims, rather than paying an insurance company to accept the risk. The benefit of self-funded plans is that there could be lower costs. While processing large volumes of transactions, the risk of overpayment is significantly increased if there is a lack of monitoring of claims payments.

The Plan hires third-party administrators (TPAs) to process claims payments. Annually, the TPAs perform edit checks of their system to ensure the claims are being processed accurately; this information is passed along to the Plan for review. Additionally, the Plan is responsible for ensuring complementary user entity controls are placed in operation and working effectively to mitigate the risk of material misstatement.

While TPAs process payments and ensure accuracy of their software through the use of edits, it is the responsibility of the Plan, especially since they are self-funded, to ensure the claims are processed accurately for eligible members of the Plan during the time of service according to the agreed upon rates. The claims payments for fiscal year 2019 total approximately \$2.9 billion, of which \$795 million related to pharmacy claims.

As part of our fiscal year 2019 audit, we followed up on DCH's efforts to implement corrective action plans in response to the prior year finding in which we reported that DCH did not have adequate controls in place over claims processing. Although DCH has not fully implemented all of its corrective action plans, ongoing efforts are being made. We noted DCH has begun a three-year claims audit for medical claims payments including a review of eligibility.

Criteria:

The DCH management is responsible for establishing and maintaining a system of internal controls designed to reduce the risk of material misstatement related to benefit claims being processed accurately based on established rates for eligible members during the service period, and to ensure the rebates associated, if any, are in line with established rates. Furthermore, DCH is required to comply with the rules, regulations, policies, and procedures prescribed by the State Accounting Office, pursuant to Title 50, Chapter 5B of the *Official Code of Georgia Annotated* (OCGA) §50-5B-4, including the statewide Internal Control Guidance. The guidance identifies requirements for performing risk assessments and implementing controls designed to address risks which are critical to establishing and maintaining an effective system of internal controls.

Condition:

The DCH does not have adequate internal controls over pharmacy benefit claims that are processed by TPAs to ensure the claims payments are accurate based on established rates, for eligible employees during the service period, and where applicable, that the agreed upon rebates are provided.

State of Georgia

Cause:

The DCH management did not have adequate policies and procedures in place to monitor the accuracy and eligibility of pharmacy claims.

Effect:

Without effective controls over claims processing, the Plan is at risk for overpaying healthcare claims and cannot ensure compliance with OCGA §50-5B-4. The deficiencies in internal control could prevent the Plan from identifying and collecting a potentially significant amount of overpayments.

Recommendation:

The DCH should continue to improve controls over claims processing by establishing policies and procedures for monitoring pharmacy claims to ensure overpaid claims are identified, claims are for eligible employees during the service period and being processed timely, and that all rebates have been processed according to established contractual rates.

Views of Responsible Officials:

Although the Department of Community Health ("DCH") officially concurs with the finding, it would like to provide the following clarifications. First, the Department of Audits and Accounts ("DOAA") notes that this is a follow up of the previous year's finding (FS-419-18-01). The previous year's finding was based on an assessment that DCH lacked adequate controls over claims payments as processed by Third Party Administrators ("TPA"), and where applicable, the proper rebates were provided. However, pharmacy claims were referenced for the first time in the current finding. Additionally, although DOAA's auditors use the term TPA in both findings, and reference "pharmacy claims that are processed by TPAs" in this year's finding, the Plan's TPAs administer medical benefit claims, while the Pharmacy Benefits Manager ("PBM") administers pharmacy claims.

Second, it should be noted that each PBM undergoes a pre-implementation audit prior to their go-live date. This involves testing their claims processing system. Additionally, SHBP performs a sampling of test claims for any annual benefit change before it is implemented.

STATE ENTITY: DEPARTMENT OF COMMUNITY HEALTH (continued)

2019-005 Continue to Strengthen Financial Reporting Controls

Internal Control Impact: Significant Deficiency
Compliance Impact: Nonmaterial Noncompliance

Repeat of Prior Year Finding: 2018-005

The Department of Community Health (DCH) should continue to strengthen controls over financial reporting to ensure the accuracy of the information it prepares for the State's financial statements and note disclosures.

Background Information:

As part of our fiscal year 2019 audit, we followed up on DCH's efforts to implement corrective action plans in response to the prior year finding in which we reported that DCH did not have adequate controls over financial reporting. Although DCH has not fully implemented all of its corrective action plans, we noted that DCH has provided additional training and guidance to staff and hired additional staff to oversee the preparation of financial information.

Criteria:

According to Title 50, Chapter 5B, Article 1 of the *Official Code of Georgia Annotated* (OCGA) §50-5B-4 along with the State Accounting Office's (SAO) Statewide Accounting Policy and Procedure, section Management's Responsibilities, DCH management is responsible for providing information to SAO to permit the proper accounting and reporting for the State's financial statements in accordance with generally accepted accounting principles (GAAP).

The DCH is required to maintain a system of controls over financial reporting in accordance with GAAP. The DCH's internal controls over GAAP financial reporting should include adequately trained personnel with the knowledge, skills, and experience to prepare GAAP based financial statements and include all disclosures as required by the Governmental Accounting and Standards Board.

Condition:

Our review of the financial information prepared by DCH revealed several errors. Some of the more significant items found were as follows:

- A proposed audit adjustment was made to correct an overstatement of federal accounts receivable in the amount of \$266,958,801, an understatement of other accounts receivable in the amount of \$133,479,401, and an overstatement in benefits payable in the amount of \$133,479,401 on the General Fund balance sheet related to an error in recording the Medicaid drug rebate.
- A proposed audit adjustment was made to correct a misclassification in the amount of \$24,531,893 between benefits payable and accounts payable as reported on the General Fund balance sheet due to an error in recording the Upper Payment Limit transactions.
- A misclassification in the amount of \$16,646,310 between due from other funds and accounts receivable as reported on the State Health Benefit Plan Statement of Net Position due to an error in reconciling other agencies within the state reporting entity per SAO's guidance.

- A proposed audit adjustment was made to correct a misclassification in the amount of \$78,224,434
 between pooled investments with State Treasury and due to brokers for securities purchased as
 reported on the Combining Statement of Fiduciary Net Position of State Other Post-Employment
 Benefits (OPEB) Fund.
- A proposed audit adjustment was made to correct a misclassification in the amount of \$28,889,684 between pooled investments with State Treasury and due to brokers for securities purchased as reported on the Combining Statement of Fiduciary Net Position of School OPEB Fund.
- A proposed audit adjustment was made to correct an understatement of Covered payroll amount of the State OPEB Fund by \$176,915,049 which is a part of the Required Supplementary Information to the Financial Statements as reflected in the State's *Comprehensive Annual Financial Report* (CAFR).

Cause:

The DCH management did not have adequate internal controls to prevent or detect errors as they prepared information for SAO to include in the State's CAFR.

Effect:

Errors in the financial information prepared by DCH resulted in misstatements in the CAFR. Without effective controls over the reporting process, DCH cannot ensure the accuracy of the financial information reported and compliance with OCGA §50-5B-4. This increases the risk of misstatements in the State's Financial Statements, including the Notes and Required Supplementary Information to the Financial Statements as reflected in the CAFR.

Recommendation:

We recommend the DCH perform a detailed review of the current closing and reporting processes and continue to strengthen the processes by incorporating additional analyses and thorough reviews of information and continuing to provide training and guidance to staff that will aid in the prevention or timely detection and correction of errors in the year-end information used to prepare and issue the State's CAFR.

Views of Responsible Officials:

The Department (DCH) concurs with this finding and will continue to strengthen financial reporting controls.

State of Georgia

STATE ENTITY: DEPARTMENT OF COMMUNITY HEALTH (continued)

2019-006 Continue to Strengthen Application Risk Management Program

Internal Control Impact: Significant Deficiency
Compliance Impact: Nonmaterial Noncompliance

Repeat of Prior Year Finding: 2018-006

The Department of Community Health (DCH) should continue to strengthen controls over its application risk management program.

Background Information:

See Federal Award Finding 2019-024.

Criteria:

See Federal Award Finding 2019-024.

Condition:

See Federal Award Finding 2019-024.

Cause:

See Federal Award Finding 2019-024.

Effect:

See Federal Award Finding 2019-024.

Recommendation:

See Federal Award Finding 2019-024.

Views of Responsible Officials:

The Department (DCH) concurs with this finding.

STATE ENTITY: DEPARTMENT OF HUMAN SERVICES

2019-007 Strengthen Logical Access Controls

Internal Control Impact: Significant Deficiency
Compliance Impact: Nonmaterial Noncompliance

Strengthen logical access controls over the child support tracking and payment system.

Background Information:

The Department of Human Services (DHS) relies extensively on its child support tracking and payment system to collect and process child support payments for the State. Controls over this system are essential for the reliability and integrity of child support data and to protect data from manipulation, corruption, or loss.

The DHS is responsible for the effective operation of the child support tracking and payment system and related control activities, including segregation of duties.

Criteria:

The DHS is responsible for maintaining an effective information system, which includes information technology (IT) general controls that ensure logical access is assigned based on job roles and responsibilities along with enforcing segregation of incompatible duties. It also includes policies and procedures, which are important in establishing processes for managing and monitoring user access, changes made to user access roles, and defining segregation of duties rules that govern the assignment of access rights to specific roles.

Pursuant to the *Official Code of Georgia Annotated* (OCGA) §50-25-4(a)(20), the Georgia Technology Authority (GTA) is to establish technology security policies, standards, and services to be used by all agencies. The DHS is responsible for adhering to the technology security policies and standards which include:

- Access Control Policy (PS-08-009) Access to State information assets is to be controlled and monitored to protect from unauthorized access and disclosure.
- Authorization and Access Management Standard (SS-08-010) Requires periodic reviews of access control lists and logs to validate the appropriateness of user accounts and use of access privileges. Access control measures are critical to ensuring users only have access to the information for which they are authorized and need to perform their official duties.
- Separation of Production and Development Environments (SS-08-031) Production systems
 require a stable and controlled environment to operate properly. Separating development and test
 activities from and restricting developer access to operational environments reduces the risks of
 inadvertent or unauthorized modifications to the operational system that could compromise the
 system's integrity or availability.

Further, the Uniform Guidance (Title 2 *Code of Federal Regulations* (CFR) 200.303 Subpart D) prescribes requirements for recipients of federal awards to establish and maintain an effective system of internal control over federal awards that provides reasonable assurance that the federal awards are managed in compliance with federal statutes, regulations, and the terms and conditions of the federal awards.

Condition:

Our review of DHS' child support tracking and payment system IT general controls revealed deficiencies in logical access. Specifically, we found 17 out of 100 users with access to the database supporting the system had the ability to make changes to data within the database, which was inappropriate based on their job roles and responsibilities.

The details related to the deficiencies have been provided to DHS management and shall not be considered a public record in accordance with OCGA §50-6-9(b).

Cause:

The DHS has not established a formal user access review process for the database supporting the child support tracking and payment system to determine whether user access continues to be appropriate based on job responsibilities to provide proper segregation of duties.

Effect:

The deficiencies in logical access result in noncompliance with the GTA technology security policy and standards and Title 2 CFR 200.303 and increase the risk of unauthorized access to the child support information and possible manipulation or loss of data.

Recommendation:

The DHS should strengthen its logical access controls over the child support tracking and payment system by establishing and implementing procedures for reviewing user access to the database supporting the system to determine whether the access privileges assigned to users are appropriate based on their current job roles and responsibilities.

Views of Responsible Officials:

DHS concurs with this finding.

State of Georgia

STATE ENTITY: DEPARTMENT OF HUMAN SERVICES (continued)

2019-008 Strengthen Logical Access Controls

Internal Control Impact: Significant Deficiency
Compliance Impact: Nonmaterial Noncompliance

Strengthen logical access controls over the Georgia Gateway system.

Background Information:

The Department of Human Services (DHS) operates the Georgia Gateway system, which is the State's integrated system for determining eligibility across multiple benefits programs. Controls over this system are essential for the reliability and integrity of eligibility data and to protect eligibility information from manipulation, corruption, or loss.

The DHS is responsible for the effective operation of the Georgia Gateway system and related control activities, including segregation of duties.

Criteria:

The DHS is responsible for maintaining an effective information system, which includes information technology (IT) general controls that ensure logical access is assigned based on job roles and responsibilities along with enforcing segregation of incompatible duties. It also includes policies and procedures, which are important in establishing processes for managing and monitoring user access, changes made to user access roles, and defining segregation of duties rules that govern the assignment of access rights to specific roles.

Pursuant to the *Official Code of Georgia Annotated* (OCGA) §50-25-4(a)(20), the Georgia Technology Authority (GTA) is to establish technology security policies, standards, and services to be used by all agencies. The DHS is responsible for adhering to the technology security policies and standards which include:

- Access Control Policy (PS-08-009) Access to State information assets is to be controlled and monitored to protect from unauthorized access and disclosure.
- Authorization and Access Management Standard (SS-08-010) Requires periodic reviews of access
 control lists and logs to validate the appropriateness of user accounts and use of access privileges.
 Access control measures are critical to ensuring users only have access to the information for which
 they are authorized and need to perform their official duties.
- Separation of Production and Development Environments (SS-08-031) Production systems
 require a stable and controlled environment to operate properly. Separating development and test
 activities from and restricting developer access to operational environments reduces the risks of
 inadvertent or unauthorized modifications to the operational system that could compromise the
 system's integrity or availability.

Further, the Uniform Guidance (Title 2 Code of Federal Regulations (CFR) 200.303 Subpart D) prescribes requirements for recipients of federal awards to establish and maintain an effective system of internal control over federal awards that provides reasonable assurance that the federal awards are managed in compliance with federal statutes, regulations, and the terms and conditions of the federal awards.

Condition:

Our review of DHS' Georgia Gateway system IT general controls revealed deficiencies in logical access. Specifically, we found five out of 109 users with access to the databases supporting the system had the ability to make changes to data within the databases, which was inappropriate based on their job roles and responsibilities.

In addition, we found certain general security settings for the databases supporting the system are not configured to provide reasonable assurance that the databases are not susceptible to potential exploitation based on known security vulnerabilities.

The details related to these deficiencies have been provided to DHS management and shall not be considered a public record in accordance with OCGA §50-6-9(b).

Cause:

The DHS has not established a formal user access review process for the databases supporting the Georgia Gateway system to determine whether user access continues to be appropriate based on job responsibilities to provide proper segregation of duties. In addition, DHS did not change certain default general security settings to address known security vulnerabilities for the databases supporting the system.

Effect:

The deficiencies in logical access result in noncompliance with the GTA technology security policy and standards and Title 2 CFR 200.303 and increase the risk of unauthorized access to the eligibility information and possible manipulation or loss of data.

Recommendation:

The DHS should strengthen its logical access controls over the Georgia Gateway system by:

- Establishing and implementing procedures for reviewing user access to the databases supporting the system to determine whether the access privileges assigned to users are appropriate based on their current job roles and responsibilities; and
- Configuring the general security settings for the databases supporting the system to reduce the risk of unauthorized access and inappropriate activity.

Views of Responsible Officials:

DHS concurs with this finding.

STATE ENTITY: DEPARTMENT OF REVENUE

2019-009 Strengthen Logical Access Controls

Internal Control Impact: Significant Deficiency
Compliance Impact: Nonmaterial Noncompliance

Strengthen controls over logical access within the tax return collection and processing information system.

Background Information:

The Department of Revenue (DOR) relies extensively on its tax return collection and processing information system to perform complex calculations and collect and process large volumes of tax returns, payments, and refunds for the State. Controls over the system are essential for the reliability and integrity of DOR's financial data and to protect financial information from manipulation, corruption, or loss.

The DOR is responsible for the effective operation of the tax return collection and processing information system and related control activities, including segregation of duties.

Criteria:

The DOR is responsible for maintaining an effective information system, which includes information technology (IT) general controls that ensure logical access is assigned based on job roles and responsibilities along with enforcing segregation of incompatible duties. It also includes policies and procedures, which are important in establishing processes for managing and monitoring user access, changes made to user access roles, and defining segregation of duties rules that govern the assignment of access rights to specific roles.

Pursuant to the Official Code of Georgia Annotated (OCGA) §50-25-4(a)(20), the Georgia Technology Authority (GTA) is to establish technology security policies, standards, and services to be used by all agencies. The DOR is responsible for adhering to the technology security policies and standards which include:

- Access Control Policy (PS-08-009) Access to State information assets is to be controlled and monitored to protect from unauthorized access and disclosure.
- Authorization and Access Management Standard (SS-08-010) Requires periodic reviews of access control lists and logs to validate the appropriateness of user accounts and use of access privileges. Access control measures are critical to ensuring users only have access to the information for which they are authorized and need to perform their official duties.
- Separation of Production and Development Environments (SS-08-031) Production systems
 require a stable and controlled environment to operate properly. Separating development and test
 activities from and restricting developer access to operational environments reduces the risks of
 inadvertent or unauthorized modifications to the operational system that could compromise the
 system's integrity or availability.

Condition:

Our review of DOR's tax return collection and processing information system's IT general controls revealed the following deficiencies in logical access:

- We found 54 users had inappropriate access to the server production environment that was not
 commensurate with their job responsibilities. This access allowed users to promote system changes
 to the production environment or delete critical files needed for the operation of the information
 system.
- We reviewed the 1,071 users with access to the information system. We found the access was inappropriate for 49 users based on their job roles and responsibilities.
- We found one out of nine users had inappropriate access to the database supporting the information system.

In addition, our review disclosed certain general security settings for the databases supporting the system were not configured to provide reasonable assurance that the databases are not susceptible to potential exploitation based on known security vulnerabilities.

The details related to these deficiencies have been provided to DOR management and shall not be considered a public record in accordance with the OCGA §50-6-9(b).

Cause:

The DOR has not established a formal user access review process to determine whether user access continues to be appropriate based on job responsibilities to provide proper segregation of duties. In addition, DOR did not change certain default general security settings to address known security vulnerabilities for the databases supporting the system.

Effect:

The deficiencies in logical access result in noncompliance with the GTA technology security policies and standards and increase the risk of unauthorized access to the information system data and possible manipulation or loss of data.

Recommendation:

The DOR should strengthen its logical access controls by:

- Addressing the inappropriate access identified within the information system;
- Ensuring proper segregation of duties is maintained in the change management production environment;
- Establishing and implementing procedures for reviewing user access to determine whether the roles
 assigned to users of the system are appropriate based on their current job roles and responsibilities;
 and
- Configuring the general security settings for the databases supporting the financial application to reduce the risk of unauthorized access and inappropriate activity.

Views of Responsible Officials:

As officials of the Georgia Department of Revenue, we concur with your findings and have taken steps to remediate the issues found and mitigate any future risks to our data and/or systems.

STATE ENTITY: GEORGIA WORLD CONGRESS CENTER AUTHORITY

2019-010 Continue to Strengthen Logical Access Controls

Internal Control Impact: Significant Deficiency
Compliance Impact: Nonmaterial Noncompliance
Repeat of Prior Year Finding: 2018-012, 2017-018, 2016-024

Continue to strengthen controls over logical access within the payroll application.

Background Information:

The Georgia World Congress Center Authority (GWCCA) implemented a Human Resource Information System (HRIS) in May 2015 to process its human resource (HR) and payroll transactions. During our follow up to the prior year findings, we noted that certain improvements to logical access were made during fiscal year 2019. The GWCCA removed the inappropriate access to the system administration function within the payroll application for two users identified in the prior year finding. The GWCCA also designed formal client user and role permission review processes for the payroll application.

Although considerable progress has been made, GWCCA's user access review processes were not fully designed and implemented within the audit period under review.

Criteria:

The GWCCA is responsible for designing and operating an effective information system and related control activities. In addition, GWCCA is responsible for managing and monitoring an effective information system to ensure that HR and payroll transactions are authorized, complete, valid, and accurately recorded and reported.

An effective information system related to the HRIS includes information technology (IT) general controls that address logical access to ensure access is assigned based on job roles and responsibilities. Sound logical access controls also ensure segregation of incompatible duties is enforced. Such controls contribute to the design, implementation, and operating effectiveness of GWCCA's information systems and related control activities and are critical to reduce the risk of error, misuse, or fraud.

Furthermore, all organizations of the State government are required to conform to and comply with the technology security standards established by the Georgia Technology Authority (Official Code of Georgia Annotated (OCGA) §50-25-4(a)(20)), including the Authorization and Access Management standard (SS-08-010), which requires periodic reviews of access control lists and logs to validate the appropriateness of user accounts and use of access privileges. Access control measures are critical to ensuring users only have access to the information for which they are authorized and need to perform their official duties.

An effective information system also includes policies and procedures, which are important in establishing processes for managing and monitoring user access, changes made to user access roles, and defining segregation of duties rules.

Condition:

Our review of GWCCA's HRIS general controls revealed prior year issues that were not fully resolved related to logical access. Specifically, five employees continue to have inappropriate access to the system administration function within the payroll application. This is due to the ineffective design of advanced user permissions within the application.

The design of advanced user permissions allows the ability to provision new users or modify user access (add/modify/delete) to the application, in addition to the other permissions needed to perform certain job responsibilities where the user's other assigned application role does not allow the access. The HRIS system does not allow changing the configuration of the advanced user permissions unless modification to the application code is made by the vendor. The GWCCA designed user access and role permission review processes to mitigate this issue but was not able to fully implement them during the year.

In addition, GWCCA did not complete the design of its access reviews for base level users and the implementation of its client user access review processes for all departments during the year. These processes are necessary to determine whether user access continues to be appropriate based on job responsibilities and privileges assigned to application roles continue to provide proper segregation of duties.

Cause:

The GWCCA did not complete the design and implementation of its user access and role permission review processes during fiscal year 2019.

Effect:

The weaknesses in IT general controls related to logical access exposes GWCCA to unnecessary risk of fraud, noncompliance with OCGA §50-25-4(a)(20) and could impact the integrity and reliability of data. These weaknesses also increase the need for GWCCA to ensure mitigating controls are operating effectively to reduce the chance of errors that could significantly affect the financial statements.

Recommendation:

We recommend GWCCA continue to strengthen logical access controls by completing the design and implementation of its user access and role permission review processes within the HRIS application. Having a good system of internal controls is essential to ensure the reliability and integrity of HR and payroll data.

FEDERAL AGENCY: U.S. DEPARTMENT OF EDUCATION

STATE ENTITY: CLAYTON STATE UNIVERSITY

2019-011 Improve Controls over the Return of Title IV Funds Process

Compliance Requirement: Special Tests and Provisions
Internal Control Impact: Significant Deficiency
Compliance Impact: Nonmaterial Noncompliance
Federal Awarding Agency: U.S. Department of Education

Pass-Through Entity: None

CFDA Numbers and Titles: 84.007 – Federal Supplement Educational Opportunity Grants

84.033 – Federal Work-Study Program 84.063 – Federal Pell Grant Program

84.268 – Federal Direct Student Loans Program

Federal Award Number: P007A180982 (Year: 2019), P033A180982(Year: 2019),

P063P183136 (Year: 2019), P268K193136 (Year: 2019)

Questioned Costs: \$1,704.97

The Institution did not properly perform the refund process to ensure that unearned Title IV funds were returned in a timely manner.

Criteria:

Provisions included in 34 CFR 668.22 provide requirements over the treatment of Title IV funds when a student withdraws. The Institution is required to determine the amount of Title IV funds that the student earned as of the student's withdrawal date when a recipient of Title IV funds withdraws from an institution during a payment period or period of enrollment in which the recipient began attendance. A refund must be returned to Title IV programs when the total amount of the Title IV grant or loan assistance, or both, that the student earned is less than the amount of the Title IV grant or loan assistance that was disbursed to the student as of the withdrawal date.

Condition:

A sample of 25 students who received student financial assistance (SFA) for the Fall 2018 and Spring 2019 semesters and withdrew from the Institution was randomly selected for testing using a non-statistical sampling method. The students' Return of Title IV calculations were reviewed to ensure that the refunds were calculated and returned in the correct amount to the proper funding agency and/or student in a timely manner. The following deficiencies were noted:

- The refund calculation for ten students who withdrew during the Fall 2018 semester and one student who withdrew during the Spring 2019 semester was calculated incorrectly due to the use of improper scheduled break days and withdrawal dates. One student was requested to return \$1,704.97 less than the required amount to various SFA programs, and ten students were requested to return \$806.52 more than the required amount to various SFA programs.
- The proration between the school and student portion of the refund was incorrect for eight students who withdrew during the Fall 2018 semester and one student who withdrew during the Spring 2019 semester.
- Funds were not returned to the appropriate grantor programs within the required time frame for one of the withdrawn students tested.

Ouestioned Costs:

Questioned costs of \$1,704.97, with likely questioned costs of \$49,335.54, were identified for refunds calculated incorrectly. The following CFDA numbers are affected by the known and likely questioned costs: 84.063 and 84.268.

Cause:

In discussing these deficiencies with management, they stated that the variances associated with the Fall 2018 Return of Title IV calculations were related to an omission and lack of administrative oversight and the variance associated with the Spring 2019 Return of Title IV calculation was the result of a data entry error.

Effect:

This deficiency may expose the Institution to unnecessary financial strains and shortages. The school's portion of the refunds that were not calculated correctly must be returned to the U.S. Department of Education. Though the Institution may attempt to collect the funds from individual students affected by the error, these collection efforts could be unsuccessful as the students may no longer attend the Institution and/or fail to repay the funds. Additionally, the Institution was not in compliance with Federal regulations concerning performing Return of Title IV calculations for withdrawn students.

Recommendation:

The Institution should revise and implement procedures to ensure that student financial aid refunds are properly calculated and that unearned funds are correctly returned to the appropriate accounts in a timely manner in accordance with the Higher Education Amendments 1998, Public Law 105-244. The Institution should also contact the U.S. Department of Education regarding resolution of the finding.

84.379 – Teacher Education Assistance for College and Higher

Education (TEACH) Grant Program

Federal Award Number: P007A180999 (Year: 2019), P033A180999 (Year: 2019),

P063P180082 (Year: 2019), P268K190082 (Year: 2019),

P379T190082 (Year: 2019)

Questioned Costs: \$11,089.00

The Institution's Student Financial Assistance Office did not meet student verification requirements.

Criteria:

Provisions included in 34 CFR 668 provide the compliance requirements for the verification process that the Institution should follow for students who receive financial aid and identify what documentation is acceptable.

Condition:

A sample of 40 students who were selected for verification by the U.S. Department of Education was randomly selected for testing using a non-statistical sampling method. Verification records were reviewed to ensure that the Institution obtained acceptable verification documentation, matched documentation obtained to the student aid application, submitted appropriate corrections when necessary, and reported the correct verification status to the Common Origination and Disbursement (COD) system. Testing revealed that verification procedures were not completed for one student.

Questioned Cost:

Questioned costs of \$11,089.00, with likely questioned cost of \$270,508.67, were identified for the student for whom verification procedures were not completed appropriately but received student financial assistance. The following CFDA numbers were affected by the known and likely questioned costs: 84.007, 84.063, and 84.268.

Cause:

In discussing these deficiencies with management, they stated that the student's verification documentation was misplaced or lost.

State of Georgia

Effect:

This deficiency may expose the Institution to unnecessary financial strains and shortages. The funds disbursed to students for whom necessary verification procedures have not been completed must be returned to the U.S. Department of Education. Though the Institution may attempt to collect the funds from individual students affected by the error, these collection efforts could be unsuccessful as the students may no longer attend the Institution and/or fail to repay the funds. Additionally, the Institution was not in compliance with Federal regulations concerning performing verification procedures and awarding of SFA funds to students.

Recommendation:

The Institution should develop and implement procedures to ensure that verification requirements are met and appropriate documentation is maintained on file. The Institution should also contact the U.S. Department of Education regarding resolution of this finding.

FEDERAL AGENCY: U.S. DEPARTMENT OF EDUCATION (continued)

STATE ENTITY: GEORGIA SOUTHWESTERN STATE UNIVERSITY

2019-013 Improve Controls over Cost of Attendance Budgets

Compliance Requirement: Eligibility

Internal Control Impact: Significant Deficiency
Compliance Impact: Nonmaterial Noncompliance
Federal Awarding Agency: U.S. Department of Education

Pass-Through Entity: None

CFDA Numbers and Titles: 84.007 – Federal Supplemental Educational Opportunity Grants

84.033 – Federal Work-Study Program 84.063 – Federal Pell Grant Program

84.268 – Federal Direct Student Loans Program

Federal Award Number: P007A181005 (Year: 2019), P033A181005 (Year: 2019),

P063P181307 (Year: 2019), P268K191307 (Year: 2019)

Questioned Cost: None Identified

The Institution's Student Financial Aid Office did not appropriately document and award students based upon final amended Cost of Attendance (COA) budgets.

Criteria:

Provisions included in 34 CFR 668 provide general provisions for administering Student Financial Aid (SFA) programs. In addition, Section 472 of the Higher Education Act of 1965 specifies the components that can be included in COA budgets.

Condition:

A review of the Institution's COA budgets was performed to determine if the budgets were reasonable, included allowable components, and were calculated based upon appropriate supporting documentation. The following deficiencies were noted:

- Institution personnel could not provide supporting documentation or explanations for the Childcare component of one COA budget.
- The Tuition component reflected in one COA budget did not agree to the supporting documentation provided.
- Two COA budgets were increased after the Fall 2018 semester had begun. Students who submitted a Free Application for Federal Student Aid (FAFSA) after the date of the adjustment were awarded based upon the new COA budget amount. However, students who submitted a FAFSA before the date of the adjustment were awarded based upon the original, lower COA budget, and a reevaluation of their award was not performed to ensure that the students received the appropriate amount of aid and types of aid.

Cause:

In discussing these deficiencies with management, they stated that a change in administrative leadership prompted a review of the Institution's COA budgets and the new administration requested that the COA budgets be adjusted after the award year had begun.

State of Georgia

Effect:

The Institution was not in compliance with Federal regulations concerning the COA budgets used as the basis for determining SFA eligibility. The COA is the cornerstone of establishing a student's financial need and sets a limit on the total aid a student may receive. If the estimated costs used for components in the COA budget are unreasonable and do not represent average costs for students at the Institution, a majority of the student population could have been over or under awarded.

Recommendation:

The Institution should reevaluate the components used in the COA budgets and document that these costs represent average costs for students enrolled at the Institution. The Institution should modify its procedures to ensure that any future changes to the COA budgets are reasonable and based on documented average costs for students. In addition, the Institution should ensure that COA budgets are finalized and appropriately supported prior to awarding any students. The Institution should also contact the U.S. Department of Education regarding resolution of this finding.

2019-014 Improve Controls over Unofficial Withdrawals

Compliance Requirement:
Internal Control Impact:
Compliance Impact:
Federal Awarding Agency:
Special Tests and Provisions
Significant Deficiency
Nonmaterial Noncompliance
U.S. Department of Education

Pass-Through Entity: None

CFDA Numbers and Titles: 84.007 – Federal Supplemental Educational Opportunity Grants

84.033 – Federal Work-Study Program 84.063 – Federal Pell Grant Program

84.268 – Federal Direct Student Loans Program

Federal Award Number: P007A181005 (Year: 2019), P033A181005 (Year: 2019),

P063P181307 (Year: 2019), P268K191307 (Year: 2019)

Questioned Costs: \$7,125.20

Unearned Title IV funds were not identified and returned for students who unofficially withdrew from the Institution.

Criteria:

The provisions in 34 CFR 668.22 provides requirements over the treatment of Title IV funds when a student withdraws. The Institution is required to determine the amount of Title IV grant that the student earned as of the student's withdrawal date when a recipient of a Title IV grant withdraws from an institution during a payment period or period of enrollment in which the recipient began attendance. A refund must be returned to Title IV programs when the total amount of Title IV grant or loan assistance, or both, that the student earned is less than the amount of the Title IV grant or loan assistance that was disbursed to the student as of the withdrawal date.

Condition:

Eight students who received Federal financial assistance for the Fall 2018 and Spring 2019 semesters and withdrew from the Institution but for whom no Return of Title IV calculation was performed were selected to determine if a refund should have been calculated. Our examination revealed that refund calculations were not performed appropriately for one of these students who unofficially withdrew during the Spring 2019 semester.

Ouestioned Costs:

Questioned costs of \$7,125.20, with likely questioned costs of \$43,851.26, were identified for omitted Return of Title IV calculations. The following CFDA numbers are affected by the known and likely questioned costs: 84.063 and 84.268.

Cause:

In discussing these deficiencies with management, they stated that the unofficial withdrawal was identified, and it was determined that a Return of Title IV calculation was necessary for the student. However, the documentation was misfiled, and the calculation was never entered into the student information system.

State of Georgia

Effect:

Unearned Title IV funds were not returned to the U.S Department of Education appropriately. Improperly identifying withdrawn students, not performing Return of Title IV calculations, and/or not returning unearned Title IV funds to the U.S Department of Education in a timely manner may result in adverse actions and impact the Institution's participation in Title IV programs.

Recommendation:

The Institution should implement policies and procedures to ensure that students who unofficially withdrew and received Title IV funds are identified and the required refund calculation is performed. The Institution should also contact the U.S. Department of Education regarding resolution of this finding.

Significant Deficiency
Nonmaterial Noncompliance
U.S. Department of Education

Pass-Through Entity: None

CFDA Numbers and Titles: 84.007 – Federal Supplemental Educational Opportunity Grants

84.033 – Federal Work-Study Program 84.063 – Federal Pell Grant Program 84.268 – Federal Direct Student Loans

Federal Award Number: P007A180951 (Year: 2019), P033A180951 (Year: 2019),

P063P182748 (Year: 2019), P268K192748 (Year: 2019)

Questioned Costs: None Identified

Changes in student enrollment statuses were not reported to required organizations in a timely and accurate manner.

Criteria:

Regarding the enrollment reporting process, provisions included in 34 CFR 685.309(b) state in part "(1) Upon receipt of an enrollment report from the Secretary, a school must update all information included in the report and return the report to the Secretary – (i) In the manner and format prescribed by the Secretary; and (ii) Within the timeframe prescribed by the Secretary. (2) Unless it expects to submit its next updated enrollment report to the Secretary within the next 60 days, a school must notify the Secretary within 30 days after the date the school discovers that – (i) ... the student has ceased to be enrolled on at least a half-time basis for the period."

Condition:

A sample of 40 students who withdrew from the Institution during the Fall 2018 and Spring 2019 semesters and for whom a Return of Title IV funds calculation was completed was randomly selected for testing using a non-statistical sampling method. The National Student Loan Data System (NSLDS) Enrollment Detail was reviewed for each student to ensure that the correct enrollment status was reflected, and the enrollment status was updated within the appropriate timeframe. In six instances, the student's withdrawn enrollment status was never reported to NSLDS. Additionally, in 14 instances, the student's withdrawn enrollment status was reported to NSLDS in an untimely manner.

Cause:

In discussing these deficiencies with management, they stated that for students who had failing or incomplete grades reported but had ceased attendance, the overall enrollment status was being updated; however, the enrollment status for each course was not being updated. This error caused the omissions and untimely updates in NSLDS enrollment reporting performed.

State of Georgia

Effect:

If enrollment statuses are not submitted appropriately to NSLDS by the Institution, loan interest subsidies may be negatively affected, deferments of Federal Direct Loans may be continued in error, loan repayment dates could be recorded incorrectly, and the compilation of data associated with other Title IV aid programs can be adversely affected. Additionally, the Institution was not in compliance with Federal regulations concerning enrollment reporting requirements.

Recommendation:

The Institution should implement policies and procedures to ensure that all changes in student enrollment statuses are reported in a timely manner. Additionally, management should develop and implement a monitoring process to ensure that controls are operating properly.

Views of Responsible Officials:

STATE ENTITY: GEORGIA PIEDMONT TECHNICAL COLLEGE

2019-016 Strengthen Controls over the Awarding Process

Compliance Requirement: Eligibility

Internal Control Impact: Significant Deficiency
Compliance Impact: Nonmaterial Noncompliance
Federal Awarding Agency: U.S. Department of Education

Pass-Through Entity: None

CFDA Numbers and Titles: 84.007 – Federal Supplemental Educational Opportunity Grants

84.033 – Federal Work-Study Program 84.063 – Federal Pell Grant Program

Federal Award Number: P007A180991 (Year: 2019), P033A180991 (Year: 2019),

P063P182762 (Year: 2019)

Questioned Costs: \$2,286.00 **Repeat of Prior Year Finding:** 2017-032

The Institution's Student Financial Assistance Office improperly determined the Student Financial Assistance award amounts for eligible students.

Criteria:

Provisions included in 34 CFR 668 provide general provisions for administering Student Financial Assistance (SFA) programs and 34 CFR 675, 676, and 685 provide eligibility and other related program requirements that are specific to the Federal Work-Study Program, Federal Supplemental Educational Opportunity Grant (FSEOG) Program, and Federal Pell Grant Program, respectively.

Specifically, 34 CFR 668.32 states in part that "a student is eligible to receive Title IV, HEA program assistance if the student... (f) maintains satisfactory academic progress in his or her course of study according to the institution's published standards of satisfactory academic progress."

Condition:

A sample of 60 students who received student financial assistance funds was randomly selected for testing using a non-statistical sampling method. Student financial assistance files were reviewed to ensure that financial assistance was properly calculated and disbursed to eligible students. The following deficiency was noted:

One student in the sample was not in compliance with the Institution's published satisfactory
academic progress (SAP) policies. This student should have been placed on financial aid
suspension as they did not meet the qualitative requirement of SAP, which resulted in SFA over
disbursements totaling \$2,286.00.

Questioned Cost:

Questioned costs of \$2,286.00, with likely questioned costs of \$88,428.80, were identified for the student who received student financial assistance in excess of their eligibility. The following CFDA number was affected by the known and questioned costs: 84.063.

State of Georgia

Cause:

In discussing this deficiency with management, they stated the SAP error occurred as a result of the significant amount of turnover within the Financial Aid Office. SAP is calculated over the course of each student's academic career, and errors in the SAP calculation from previous award years may carry forward to the current award year.

Effect:

This deficiency may expose the Institution to unnecessary financial strains and shortages. The funds disbursed to students who were not meeting SAP standards and should have been on financial aid suspension must be returned to the U.S. Department of Education. Though the Institution may attempt to collect the funds from individual students affected by the error, these collection efforts could be unsuccessful as they students may no longer attend the Institution and/or fail to repay the funds. Additionally, the Institution was not in compliance with Federal regulations concerning the awarding of SFA to students.

Recommendation:

The Institution should review its processes and procedures for determining each student's financial aid eligibility, including the current configurations within the student information system. Where vulnerable the Institution should develop and/or modify its policies and procedures to ensure that correct amounts will be awarded to students in conformity with financial need requirements. Additionally, the Institution should develop and implement a monitoring process to ensure that controls are properly implemented. The Institution should also contact the U.S. Department of Education regarding resolution of this finding.

2019-017 Improve Controls over Federal Work-Study Earmarking Requirements

Compliance Requirement: Matching, Level of Effort, Earmarking

Internal Control Impact: Significant Deficiency
Compliance Impact: Nonmaterial Noncompliance
Federal Awarding Agency: U.S. Department of Education

Pass-Through Entity: None

CFDA Numbers and Titles: 84.033 – Federal Work-Study Program

Federal Award Number: P033A180991 (Year: 2019)

Questioned Costs: \$11,710.71

The Institution did not meet earmarking requirements associated with the Federal Work-Study (FWS) Program.

Criteria:

Provisions included in 34 CFR 675.18 provide requirements for the use of the FWS Program funds. Specifically, 34 CFR 675.18(g) states in part that "for the 2000-2001 award year and subsequent award years, an institution must use at least seven percent of the sum of its initial and supplemental FWS allocations for an award year to compensate students employed in community service activities."

Condition:

Our review of expenditures related to the FWS Program revealed that the proper amount was not expended for community service activities. The FWS amount authorized for the Institution was \$183,978.00. Seven percent of the authorization is \$12,878.46. The Institution expended \$1,167.75 for community service activities. Therefore, the Institution should have expended an additional \$11,710.71 for community services activities.

Ouestioned Cost:

Questioned costs of \$11,710.71 were identified for the additional amounts that should have been expended for community service activities.

Cause:

In discussing this deficiency with management, they stated that there was a lack of monitoring over the community service expenditures as a result of the significant amount of turnover within the Financial Aid Office.

Effect:

This deficiency may expose the Institution to unnecessary financial strains and shortages. Funds that were to be spent on community service activities and were paid to students working in activities not associated with community service must be returned to the U.S. Department of Education. Additionally, the Institution was not in compliance with Federal regulations concerning the use of FWS funds.

Recommendation:

The Institution should strengthen procedures to ensure that the proper amount of FWS Program funds is expended for community service activities. Additionally, the Institution should develop and implement a monitoring process to ensure that controls are operating properly. The Institution should also contact the U.S. Department of Education regarding resolution of this finding.

2019-018 Improve Controls over Special Reporting

Compliance Requirement: Reporting

Internal Control Impact: Significant Deficiency
Compliance Impact: Nonmaterial Noncompliance
Federal Awarding Agency: U.S. Department of Education

Pass-Through Entity: None

CFDA Numbers and Titles: 84.007 – Federal Supplemental Educational Opportunity Grants

84.033 – Federal Work-Study Program 84.063 – Federal Pell Grant Program

Federal Award Number: P007A180991 (Year: 2019), P033A180991 (Year: 2019),

P063P182762 (Year: 2019)

Questioned Costs: None Identified

Amounts reported on the Fiscal Operations and Application to Participate (FISAP) report were not properly supported by or reconciled to appropriate documentation.

Criteria:

Provisions included in 34 CFR 675.19(b)(3) state, "Each year an institution shall submit a Fiscal Operations Report plus other information the Secretary requires. The institution shall insure that the information reported is accurate and shall submit it on the form and at the time specified by the Secretary." Additionally, provisions included in 34 CFR 668.24(e)(1) state in part that "an institution shall keep – (i) The Fiscal Operations Report and Application to Participate in the Federal Perkins Loan, FSEOG, and FWS Programs (FISAP), and any records necessary to support the data contained in the FISAP, including "income grid information," for three years after the end of the award year in which the FISAP is submitted."

Condition:

All amounts reflected on the Award Year July 1, 2017 through June 30, 2018 FISAP report were not accurately completed and supported by the accounting records or other appropriate documentation. Amounts reported by the Institution within the following categories did not agree to or could not be supported by institutional records and reports: Information on Enrollment, Tuition and Fees for Undergraduate Students, Federal Pell Grants, State Grants and Scholarships, Federal Supplemental Educational Opportunity Grant (FSEOG) Program, Federal Work-Study (FWS) Program, and Distribution of Program Recipients and Expenditures by Type of Student.

Cause:

In discussing this deficiency with management, they stated that the errors occurred as a result of the significant amount of turnover within the Financial Aid Office and the numerous FISAP revisions required.

Effect:

If incorrect amounts are reported on the FISAP report for the FSEOG and FWS programs, authorizations in subsequent award years may be reduced and result in less funding received by the Institution. Furthermore, students may not have access to an adequate level of student financial assistance. Additionally, the Institution was not in compliance with Federal regulations concerning special reporting requirements.

State of Georgia

Recommendation:

The Institution should implement policies and procedures to ensure that all reports submitted to the U.S. Department of Education are accurately completed and supported by the accounting records. Additionally, management should develop and implement a monitoring process to ensure that controls are operating properly. The Institution should also contact the U.S. Department of Education regarding the resolution of this finding.

P063P182762 (Year: 2019)

Questioned Costs: None Identified

Changes in student enrollment statuses were not reported to required organizations in a timely and accurate manner.

Criteria:

Regarding the enrollment reporting process, provisions included in 34 CFR 685.309(b) state in part "(1) Upon receipt of an enrollment report from the Secretary, a school must update all information included in the report and return the report to the Secretary – (i) In the manner and format prescribed by the Secretary; and (ii) Within the timeframe prescribed by the Secretary. (2) Unless it expects to submit its next updated enrollment report to the Secretary within the next 60 days, a school must notify the Secretary within 30 days after the date the school discovers that – (i) … the student has ceased to be enrolled on at least a half-time basis for the period." Per the National Student Loan Data System (NSLDS) Enrollment Reporting Guide issued by the U.S. Department of Education, students who have received Federal Pell Grant funds will be included on the NSLDS roster file received by each institution and are subject to the same enrollment reporting requirements as those students who have received a loan under the William D. Ford Federal Direct Loan Program.

Condition:

A sample of 60 students who withdrew from the Institution during the Fall 2018 and Spring 2019 semesters and for whom a Return of Title IV funds calculation was completed was randomly selected for testing using a non-statistical sampling method. The NSLDS Enrollment Detail was reviewed for each student to ensure that the correct enrollment status was reflected, and the enrollment status was updated within the appropriate timeframe. In 37 instances, the student's withdrawn enrollment status was never reported to NSLDS.

Cause:

In discussing this deficiency with management, they stated that the errors occurred as a result of miscommunication between the Financial Aid Office and the Registrar's Office.

State of Georgia

Effect:

If enrollment statuses are not submitted appropriately to NSLDS by the Institution, loan interest subsidies may be negatively affected, deferments of Federal Direct Loans may be continued in error, loan repayment dates could be recorded incorrectly, and the compilation of data associated with other Title IV aid programs can be adversely affected. Additionally, the Institution was not in compliance with Federal regulations concerning enrollment reporting requirements.

Recommendation:

The Institution should implement policies and procedures to ensure that all changes in student enrollment statuses are reported in a timely manner. Additionally, management should develop and implement a monitoring process to ensure that controls are operating properly.

Unearned Title IV funds were not identified and returned for students who unofficially withdrew from the Institution.

Criteria:

The provisions in 34 CFR 668.22 provides requirements over the treatment of Title IV funds when a student withdraws. The Institution is required to determine the amount of Title IV grant that the student earned as of the student's withdrawal date when a recipient of a Title IV grant withdraws from an institution during a payment period or period of enrollment in which the recipient began attendance. A refund must be returned to Title IV programs when the total amount of Title IV grant or loan assistance, or both, that the student earned is less than the amount of the Title IV grant or loan assistance that was disbursed to the student as of the withdrawal date.

Condition:

Thirty students who received Federal financial assistance for the Fall 2018 and Spring 2019 semesters and withdrew from the Institution but for whom no Return of Title IV calculation was performed were selected to determine if a refund should have been calculated. Our examination revealed that refund calculations were not performed appropriately for five of these students who unofficially withdrew during the Fall 2018 and Spring 2019 semesters.

Questioned Costs:

Questioned costs of \$4,808.10, with likely questioned costs of \$30,358.62, were identified for omitted Return of Title IV calculations. The following CFDA number is affected by the known and likely questioned costs: 84.063.

Cause:

In discussing these deficiencies with management, they stated that when faculty members did not respond in a timely manner to the failing grade report transmitted by the Financial Aid Office at the end of each semester, the Financial Aid Office considered these students to have earned their final failing grade(s). However, many of these students did not have earn the failing grade(s) and had unofficially withdrawn from the Institution.

State of Georgia

Effect:

Unearned Title IV funds were not returned to the U.S Department of Education appropriately. Improperly identifying withdrawn students, not performing Return of Title IV calculations, and/or not returning unearned Title IV funds to the U.S Department of Education in a timely manner may result in adverse actions and impact the Institution's participation in Title IV programs.

Recommendation:

The Institution should implement policies and procedures to ensure that students who unofficially withdrew and received Title IV funds are identified and the required refund calculation is performed. The Institution should also contact the U.S. Department of Education regarding resolution of this finding.

2019-021 <u>Improve Controls over Medicaid Capitation Payments</u>

Compliance Requirement: Activities Allowed or Unallowed

Allowable Costs/Cost Principles

Internal Control Impact: Significant Deficiency
Compliance Impact: Nonmaterial Noncompliance

Federal Awarding Agency: U.S. Department of Health and Human Services

Pass-Through Entity: None

CFDA Number and Title: 93.778 - Medical Assistance Program (Medicaid: Title XIX) **Federal Award Number:** 1805GA5MAP (Year: 2018), 1905GA5MAP (Year: 2019)

Questioned Costs: \$18,485

The Department of Community Health (DCH) made improper duplicate payments for Medicaid managed-care recipients.

Background Information:

The DCH administers the State's Medicaid program that provides payments for medical assistance to low-income individuals. Medicaid is Georgia's largest public assistance program with expenditures totaling \$10.8 billion for fiscal year 2019. The program accounts for more than one-third of the State's total federal award expenditures.

The DCH, the State's Medicaid agency, administers Georgia's managed-care program. The program is a partnership between DCH and private care management organizations (CMOs). The State pays a monthly fixed rate per person (capitation rate) without regard to the actual medical services utilized to cover the costs of Medicaid claims. Managed care is a prepaid, comprehensive system of medical and health care delivery, including preventive, primary, specialty and ancillary health care services. The program is designed to reduce the cost of providing health benefits, improve the quality of care and deliver health care to clients. Capitation payments for the year totaled \$4.5 billion (federal and state).

Criteria:

As a recipient of federal awards, the DCH is required to establish and maintain effective internal controls over federal awards that provides reasonable assurance of managing the federal awards in compliance with federal statutes, regulations, and the terms and conditions of the federal awards pursuant to Title 2 CFR 200.303, Subpart D of the Uniform Guidance.

Title 2 CFR 200.53, Subpart A of the Uniform Guidance, defines *improper payment* as any payment that should not have been made or that was made in an incorrect amount (including overpayments and underpayments) under statutory, contractual, administrative, or other legally applicable requirements. An *improper payment* includes any payment to an ineligible party, any payment for an ineligible good or service, any duplicate payment, any payment for a good or service not received (except for such payments where authorized by law), any payment that does not account for credit for applicable discounts, and any payment where insufficient or lack of documentation prevents a reviewer from discerning whether a payment was proper.

Condition:

Our audit of the Medicaid program revealed deficiencies in the capitation payments paid to CMOs for Manage-Care members. Using computer assisted auditing techniques we identified a population of 903 potential duplicate payments for Manage-Care members that appear to have more than one Medicaid identification (ID) number. From this population, we tested a random sample of 60 payments. We found that DCH made duplicate payments to CMOs for 25 of 60 Manage-Care members.

Questioned Costs:

Known questioned costs of \$18,485 was identified for benefit payments to the 25 Manage-Care members whose capitation payments to CMOs were duplicate payments. The Federal and State share of known questioned cost is approximately \$12,565 and \$5,921, respectively.

Using the total population amount of \$680,169, we project the likely questioned cost to be approximately \$66,001. The Federal and State share of likely questioned cost is approximately \$44,850 and \$21,151, respectively. The projected likely questioned cost is based on the testing of the sample of 60 Manage-Care members.

Cause:

The duplicate payments are made when a member has more than one Medicaid ID number. A member can end up with more than one Medicaid ID number for various reasons, such as a variation in the information entered for the member. The DCH has procedures in place for identifying and reviewing members with more than one Medicaid ID number; however, the operation of those procedures did not ensure that the duplicate capitation payments were recovered from CMOs.

Effect:

The duplicate capitation payments resulted in noncompliance with federal regulations and questioned costs. In addition, grant provisions allow the grantor to penalize DCH for noncompliance by suspending or terminating the award or withholding future awards. This may prevent eligible individuals from receiving benefits.

Recommendation:

The DCH management should strengthen internal controls over capitation payments to CMOs for Manage-Care members to ensure duplicate capitation payments are not made to CMOs for Managed-Care members. Specifically, the DCH should consider improving procedures for identifying members with multiple Medicaid ID numbers and training staff to research further when exceptions occur. Additionally, we recommend the DCH consult with the grantor to discuss whether the questioned costs identified in the audit should be repaid.

Views of Responsible Officials:

The Department (DCH) concurs with this finding.

FEDERAL AGENCY: U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES (continued)

STATE ENTITY: DEPARTMENT OF COMMUNITY HEALTH (continued)

2019-022 Improve Controls over Medicaid Payments

Compliance Requirement: Activities Allowed or Unallowed

Allowable Costs/Cost Principles

Internal Control Impact: Significant Deficiency
Compliance Impact: Nonmaterial Noncompliance

Federal Awarding Agency: U.S. Department of Health and Human Services

Pass-Through Entity: None

CFDA Number and Title: 93.778 - Medical Assistance Program (Medicaid: Title XIX) **Federal Award Number:** 1805GA5MAP (Year: 2018), 1905GA5MAP (Year: 2019)

Questioned Costs: \$74,966

The Department of Community Health (DCH) made improper payments to Medicaid providers after beneficiaries' deaths.

Background Information:

The DCH administers the State's Medicaid program that provides payments for medical assistance to low-income individuals. Medicaid is Georgia's largest public assistance program with expenditures of federal and state funds totaling \$10.8 billion for fiscal year 2019. The program accounts for more than one-third of the State's total federal award expenditures.

The Social Security Administration (SSA) maintains the national record of death information called the Death Master File (DMF). The DMF is provided to States via a data exchange agreement. The DMF interfaces with the Georgia Medicaid Management Information System (GAMMIS) to update the beneficiary profiles. Additionally, the State Office of Vital Records submits an electronic file updated with the date of death that also interfaces with GAMMIS. The DCH has a process in place to identify when a beneficiary's profile is updated with the date of death and to reverse payments to managed-care organizations for claims made after the beneficiary's death.

Criteria:

As a recipient of federal awards, DCH is required to establish and maintain effective internal control over federal awards that provides reasonable assurance of managing the federal awards in compliance with federal statutes, regulations, and the terms and conditions of the federal awards pursuant to Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), Section 200.303 – Internal Controls.

Additionally, the Uniform Guidance, Section 200.53 - Improper payments states: *Improper payment* means any payment that should not have been made or that was made in an incorrect amount (including overpayments and underpayments) under statutory, contractual, administrative, or other legally applicable requirements. An *improper payment* includes any payment to an ineligible party, any payment for an ineligible good or service, any duplicate payment, any payment for a good or service not received (except for such payments where authorized by law), any payment that does not account for credit for applicable discounts, and any payment where insufficient or lack of documentation prevents a reviewer from discerning whether a payment was proper.

Pursuant to Title 42 CFR Part 433, *State Fiscal Administration, Subpart F – Refunding of Federal Share of Medicaid Overpayments to Providers* Section 433.304, an overpayment means the amount paid by a Medicaid agency to a provider which is in excess of the amount that is allowable for services furnished. Because medically necessary services cannot be provided after a beneficiaries' death, no medical services are allowable after a beneficiaries' death and any payment to a provider would result in an overpayment.

Condition:

Our audit of the Medicaid program revealed improper payments to Medicaid providers after beneficiaries' deaths. Using computer-assisted auditing techniques we compared the DMF to claims made after the date of death during the fiscal year. We identified a total of 1,295 claims that were paid to providers for 426 members after the date of death. We used a nonstatistical sampling method to select a random sample of 60 claims from this population and tested the sample along with 5 individually significant items to determine if the claims were for services provided before the date of death. We found that DCH made payments to providers for 50 Medicaid claims with service dates after the date of death resulting in overpayments.

Questioned Costs:

Known questioned costs of \$74,966 was identified for benefit payments to providers for the 50 Medicaid claims with service dates after beneficiaries' deaths. The Federal and State share of known questioned costs is approximately \$50,837 and \$24,129, respectively. Using the total population amount of \$121,313, we project the likely questioned costs to be approximately \$112,835. The Federal and State share of likely questioned costs is approximately \$76,462 and \$36,373, respectively. The projected likely questioned cost is based on the testing of the sample of 60 Medicaid benefit claims.

Cause:

Although DCH has a process in place for identifying when GAMMIS is updated for a beneficiary's date of death and adjusting or voiding payments to managed-care organizations, the process does not address fee-for-service payments to providers for all claims made after the date of death to ensure that all overpayments were recovered.

Effect:

The improper Medicaid payments resulted in noncompliance with federal regulations and questioned costs. Weaknesses in controls over Medicaid payments also increase the risk of improper payments due to error or fraud that may need further investigation. In addition, grant provisions allow the grantor to penalize DCH for noncompliance by suspending or terminating the award or withholding future awards.

Recommendation:

The DCH management should strengthen internal controls over Medicaid benefit payments to providers to ensure improper Medicaid benefit payments are not made after beneficiaries' deaths. The DCH should incorporate procedures in its current process that address fee-for-service payments to providers for claims made after the date of death. Additionally, DCH should investigate and recover funds for all overpayments and if necessary, refer to the Georgia Medicaid Fraud Control Unit for further investigation into any potential provider fraud or abuse.

The DCH should also consult with the grantor to discuss whether questioned costs identified in the audit should be repaid.

Views of Responsible Officials:

The Department (DCH) concurs with this finding.

FEDERAL AGENCY: U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES (continued)

STATE ENTITY: DEPARTMENT OF COMMUNITY HEALTH (continued)

2019-023 Improve Controls over Medicaid Capitation Payments

Compliance Requirement: Activities Allowed or Unallowed

Allowable Costs/Cost Principles

Internal Control Impact: Significant Deficiency
Compliance Impact: Nonmaterial Noncompliance

Federal Awarding Agency: U.S. Department of Health and Human Services

Pass-Through Entity: None

CFDA Number and Title: 93.778 - Medical Assistance Program (Medicaid: Title XIX)
Federal Award Number: 1805GA5MAP (Year: 2018), 1905GA5MAP (Year: 2019)

Questioned Costs: \$27,439

The Department of Community Health (DCH) made improper capitation payments for Medicaid Managed Care members with Medicare insurance coverage.

Background Information:

The DCH administers the State's Medicaid program that provides payments for medical assistance to low-income individuals. Medicaid is Georgia's largest public assistance program with expenditures of federal and state funds totaling \$10.8 billion for fiscal year 2019. The program accounts for more than one-third of the State's total federal award expenditures.

The DCH, the State's Medicaid agency, administers Georgia's managed-care program. The program is a partnership between DCH and private care management organizations (CMOs). The State pays a monthly fixed rate per person (capitation rate) without regard to the actual medical services utilized to cover the costs of Medicaid claims. Managed care is a prepaid, comprehensive system of medical and health care delivery, including preventive, primary, specialty and ancillary health care services. The program is designed to reduce the cost of providing health benefits, improve the quality of care and deliver health care to clients. Capitation payments for the year totaled \$4.5 billion (federal and state).

According to DCH's state plan, Medicare recipients should not be enrolled in managed care, and any monthly premium payments made for Medicare recipients are unallowable.

Criteria:

As a recipient of federal awards, DCH is required to establish and maintain effective internal control over federal awards that provides reasonable assurance of managing the federal awards in compliance with federal statutes, regulations, and the terms and conditions of the federal awards pursuant to Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) Section 200.303 – Internal Controls.

Additionally, the Uniform Guidance, Section 200.53 - Improper payments states: *Improper payment* means any payment that should not have been made or that was made in an incorrect amount (including overpayments and underpayments) under statutory, contractual, administrative, or other legally applicable requirements; and *improper payments* includes any payment to an ineligible party, any payment for an ineligible good or service, any duplicate payment, any payment for a good or service not received (except for such payments where authorized by law), any payment that does not account for credit for applicable discounts, and any payment where insufficient or lack of documentation prevents a reviewer from discerning whether a payment was proper.

Title 42 CFR Chapter 7, Social Security, Subchapter XIX – Grants to States for Medical Assistance Program, 1396u-2 – Provisions relating to managed care, states in part: a state may not require under paragraph (1) the enrollment in a managed care entity of an individual who is a qualified Medicare beneficiary (as defined in section 1396d(p)(1) of this title) or an individual otherwise eligible for benefits under subchapter XVIII.

Condition:

Our audit of the Medicaid program revealed deficiencies in the capitation payments paid to CMOs for Managed Care members with Medicare insurance coverage. We obtained Medicare coverage information from the DCH for all Medicaid-eligible members.

Using computer-assisted auditing techniques, we identified at total of 4,730 potential capitation payments made on behalf of 1,065 members who had Medicare coverage during the same month as their monthly managed care capitation payment. From this population, we tested a random sample of 60 capitation payments to determine if the DCH made monthly managed-care premium payments for the members during the same time period the member's Medicare coverage was effective.

We found that DCH made improper payments to CMOs for 6 of 60 capitation payments tested. Additionally, for the remaining 54 payments, a retroactive Medicare effective date was issued, which was during the time period that managed care payments were made; however, none of these were paid after the date in which Medicare notified the DCH of the retroactive effective date.

Questioned Costs:

Known questioned costs of \$27,439 was identified for the 6 capitation payments to CMOs that were during the same time the Managed Care member was enrolled in Medicare. The Federal and State share of known questioned cost is approximately \$18,624 and \$8,815, respectively. Using the total population amount of \$2,259,112, we project the likely questioned cost to be approximately \$368,903. The Federal and State share of likely questioned cost is approximately \$251,905 and \$116,998, respectively. The projected likely questioned cost is based on the testing of the sample of 60 capitation payments that were selected using a nonstatistical sampling method.

Cause:

While the DCH has automated processes in place in the Georgia Medicaid Management Information System to prevent payments to managed-care organizations for members with Medicare coverage, the processes did not detect all members who are retroactively enrolled in Medicare and thus no recoupment of payments was performed.

The DCH management was also unaware of the eligibility requirements regarding one of the State's CMO's and did not set system exceptions to run for further investigation.

Effect:

The improper capitation payments resulted in noncompliance with federal regulations and questioned costs. Duplicate payments could occur for an ineligible recipient that are unallowable and cannot be claimed for federal reimbursement. In addition, grant provisions allow the grantor to penalize DCH for noncompliance by suspending or terminating the award or withholding future awards.

Recommendation:

The DCH management should strengthen internal controls over capitation payments to CMOs for Managed Care members to ensure improper capitation payments are not made to CMOs for members with Medicare insurance coverage. In addition, DCH management should review the eligibility criteria for each CMO to ensure the guidelines are understood and used in setting system exception reports.

The DCH should also consult with the U.S. Department of Health and Human Services regarding whether recoupment of overpayments made to managed-care organizations for members who are retroactively enrolled in Medicare is required and whether the questioned costs identified in the audit should be repaid.

Views of Responsible Officials:

We concur with the finding

This corrective action plan addresses the findings regarding the six (6) capitation payments reviewed. As it relates to the remaining findings regarding retroactive eligibility for Medicare beneficiaries, the Department ("DCH") has not received a response from CMS addressing the potential recovery of CMO capitation payments for individuals deemed eligible for Medicare retroactively. Accordingly, the issue regarding retroactive eligibility for Medicare beneficiaries will not be addressed in this corrective action plan.

FEDERAL AGENCY: U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES (continued)

STATE ENTITY: DEPARTMENT OF COMMUNITY HEALTH (continued)

2019-024 Continue to Strengthen Application Risk Management Program

Compliance Requirement: Special Tests and Provisions Internal Control Impact: Significant Deficiency Nonmaterial Noncompliance

Federal Awarding Agency: U.S. Department of Health and Human Services

Pass-Through Entity: None

CFDA Number and Title: 93.778 - Medical Assistance Program (Medicaid: Title XIX)
Federal Award Number: 1905GA5MAP (Year: 2019), 1905GA5ADM (Year:

1805GA5MAP (Year: 2018), 1805GA5ADM (Year: 2018)

Questioned Costs: None Identified

Repeat of Prior Year Finding: 2018-026, 2017-037, 2016-044

The Department of Community Health (DCH) should continue to strengthen controls over its application risk management program.

Background Information:

The DCH relies extensively on automated data processing controls contained within computer systems and business processes of various third-party vendors to process payment claims for the Medicaid program. Internal controls over services provided by vendors and their related computer systems and business processes are essential for ensuring the security, confidentiality, availability, reliability and integrity of Medicaid payment data.

As part of our fiscal year 2019 audit, we followed up on DCH's efforts to implement corrective action plans in response to the prior year findings in which we reported that DCH did not have adequate controls in place over its application risk management program related to the claims and payment processing of Medicaid benefits. Although DCH has not fully implemented all its corrective action plans, we noted that ongoing efforts are being made.

Criteria:

Pursuant to the Official Code of Georgia Annotated (OCGA) §50-25-4(a)(20), the Georgia Technology Authority (GTA) is to establish technology security policies, standards, and services to be used by all agencies. The DCH is responsible for establishing and maintaining an IT risk management program as required by the following GTA policies and standards related to assessing and managing IT risks:

- Information Security Risk Management Policy (PS-08-031) Each agency shall institute an organization-wide risk management approach to information security that assesses the risks (including the magnitude of harm that could result from the unauthorized access, use, disclosure, disruption, modification, or destruction) to information and systems.
- Risk Management Framework Standard (SS-08-041) To adopt and implement a risk based approach to information security and shall use the National Institute of Standards and Technology (NIST) risk management framework.
- Security Controls Reviews and Assessments Policy (PS-08.029.01) To establish requirements for agencies to assess security controls for IT systems.

- Outsourced IT Services and Third-Party Interconnections Standard (SS-08-044.01) To establish
 requirements for agencies to ensure adherence to established security requirements by third-party
 IT service providers and/or interconnections.
- Information Security Control Policy (PS-17-001) To improve how security controls are managed within the State's shared-service environment and third-party service providers.
- Information Security Control Standard (SS-17-001) Agencies, Third-Party Service Providers, and Service Integrators operating in a shared-service environment are responsible for ensuring that applicable NIST 800-53 (rev. 4) security controls are implemented and operated effectively.

Further, DCH is required to conduct periodic risk analyses to ensure that appropriate, cost effective safeguards are incorporated into new and existing systems when significant system changes occur. The DCH is also responsible for establishing and maintaining a system security plan and performing biennial system reviews involved in the administration of U.S. Department of Health and Human Services programs (Title 45 *Code of Federal Regulations* (CFR) section 95.621).

An effective risk management program should also include elements listed below in order to reduce the risk of error, misuse, or fraud:

- 1. Policies and procedures designed to address security of the physical location of resources, equipment, software and data, telecommunications, and personnel;
- 2. Disaster recovery and business contingency plans;
- 3. Emergency preparedness; and
- 4. Review and monitor complimentary user entity controls as defined by service organizations.

Additionally, the Uniform Guidance (Title 2 CFR 200.303 Subpart D) prescribes requirements for recipients of federal awards to establish and maintain an effective system of internal control over federal awards that provides reasonable assurance that the federal awards are managed in compliance with federal statutes, regulations, and the terms and conditions of the federal awards.

Condition:

Our review of DCH's risk management program related to automated data processing systems revealed the deficiencies described below.

Risk Analysis:

We noted risk was assessed for the Medicaid Management Information System (MMIS); however, a formal risk analysis process has not been established and does not include all data processing systems for the Medicaid program.

System Security Reviews:

On an annual basis, DCH obtains System and Organizational Controls Type II reports to review the operating effectiveness of the controls in place at various service organizations. Based on work performed, we noted DCH has not completed an assessment of controls in place at the service organization and the complimentary user entity controls expected to be established at DCH. This assessment is designed to determine whether controls are in place, operating effectively, and successfully mitigating DCH's risks.

In addition, DCH has completed an annual independent security controls assessment of MMIS and has also performed direct audits of its vendors and business associates to ensure their compliance with contractual obligations. However, these initiatives are centered only on MMIS and should be expanded to include all relevant data processing applications for the Medicaid program.

State of Georgia

Systems Security Plans:

The DCH does not have a formal documented system security plan for the automated data processing systems used to process claims and payments of Medicaid benefits.

Policies and Procedures:

Formal information security policies and standard operating procedures have not been developed to protect the entity's information assets and computing infrastructure.

Cause:

The DCH has previously identified the need to develop and implement comprehensive organization-wide policies and procedures, formally document its risk analysis program, and develop and document formal Information System Security Plans for all major information systems in accordance with the Federal Information Security Management Act and based on guidelines and standards published by NIST. The DCH did not have sufficient security budget funding and resources needed in order to address these deficiencies in a timely manner.

Effect:

The lack of a formal IT risk management program results in noncompliance with the applicable State and federal requirements and exposes DCH to unnecessary risk of error, misuse, fraud, or loss of data from both internal and external forces which could impact the integrity and reliability of data used for the claims and payment processing of Medicaid benefits.

Recommendation:

The DCH should continue to allocate necessary resources and processes to implement a formal risk management program to allow management to gain reasonable assurance DCH will achieve its objectives in complying with operational, financial reporting, and compliance requirements. An effective risk management program should, at a minimum, address Risk Analysis, System Security Reviews, System Security Plans, and Information Security Policies and Procedures.

Views of Responsible Officials:

The Department (DCH) concurs with this finding.

FEDERAL AGENCY: U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES (continued)

STATE ENTITY: DEPARTMENT OF COMMUNITY HEALTH (continued)

2019-025 Improve Controls over Inpatient Medicaid Payments

Compliance Requirement: Special Tests and Provisions
Internal Control Impact: Significant Deficiencies
Compliance Impact: Nonmaterial Noncompliance

Federal Awarding Agency: U.S. Department of Health and Human Services

Pass-Through Entity: None

CFDA Number and Title: 93.778 - Medical Assistance Program (Medicaid: Title XIX) **Federal Award Number:** 1805GA5MAP (Year: 2018), 1905GA5MAP (Year: 2019)

Questioned Costs: None Identified

The Department of Community Health (DCH) does not have adequate controls in place to ensure the required inpatient hospital field audits and desk reviews are performed in accordance with the State Plan.

Background Information:

The DCH is responsible for administering the Medicaid program under the State Plan approved by the federal Centers for Medicare & Medicaid Services (CMS). The State Plan is a comprehensive written statement describing the nature, scope, and basic requirements for the Medicaid program. At any time, DCH can propose changes to the State Plan by submitting a State Plan Amendment to CMS.

As part of the State Plan, DCH is responsible for establishing standards and methodologies for reimbursing inpatient hospital providers based on payment rates that represent the cost to efficiently and economically operate such facilities and provide services to Medicaid beneficiaries. The DCH requires all inpatient hospital providers to submit an annual cost report summarizing cost and patient day information for the reporting year. These cost reports may be used to establish payment rates. A total of 154 cost reports were submitted by the inpatient hospital providers during the year.

For fiscal year 2019, inpatient Medicaid payments totaled approximately \$1.2 billion of the \$10.8 billion total Medicaid expenditures.

Criteria:

As a recipient of Federal awards, DCH is required to establish and maintain effective internal control over federal awards that provides responsible assurance that it is managing federal awards in compliance with federal statues, regulations, and the terms and conditions of the federal awards pursuant to Title 2 CFR 200.303, Subpart D of the Uniform Guidance.

Pursuant to 42 CFR section 447.253(g), DCH is required to perform periodic audits of financial and statistical records of participating inpatient hospitals in accordance with the audit requirements specified in the State Plan. These audits are crucial to ensuring the established payment rates are proper.

The Georgia Medicaid State Plan, Section 1C, Attachment 4.19A-Methods and Standards for Establishing Payment Rates Inpatient Services requires DCH to contract annually for the performance of desk reviews and field audits.

Condition:

Field audits of participating inpatient hospital providers were not performed as required by the State Plan. While the DCH does have a multi-year contract with a third-party vendor to perform desk reviews on the cost reports submitted, the contract states that a field audit is only completed if determined necessary by the desk review and approved by DCH. This does not comply with the State Plan requirement for the annual performance of field audits in accordance with generally accepted auditing standards.

Additionally, the annual desk reviews required by the State Plan were not performed timely. The reviews of eight of the 154 cost reports that were submitted by inpatient hospital providers were not completed by the end of fiscal year 2019.

Cause:

The DCH had turnover in management personnel and does not have procedures in place to ensure that field audits are performed in accordance with the State Plan and desk reviews are conducted timely.

Effect:

Since unaudited cost reports may be used as the basis to establish reimbursement rates, the rates used may contain errors which could result in improper payments. In addition, grant provisions allow the grantor to penalize the DCH for noncompliance by suspending or terminating the award or withholding future awards. This may prevent inpatient hospital providers from receiving benefit payments.

Recommendation:

The DCH management should improve controls over inpatient Medicaid payments by establishing procedures to ensure the required fields audits are performed in accordance with the current State Plan and the desk reviews are performed timely.

Views of Responsible Officials:

Although the Department of Community Health ("DCH") officially concurs with the finding, it would like to provide the following clarification. The state plan requires DCH to perform desk reviews and field audits in accordance with generally accepted auditing standards of the AICPA. DCH contracts with a third-party vendor to perform desk reviews and field audits of hospital cost reports. Based upon the results of the desk reviews, the third-party vendor will conduct additional audit work to include focus reviews and/or field audits. Although the Department concurs with this finding, the results of this year's desk reviews did not warrant any field audits for the state fiscal year reviewed.

In reference to timeliness, DCH Leadership granted an extension for completion of desk reviews by the third-party vendor. While the state plan does not address a deadline for a completion of the desk reviews, DCH Leadership does have leeway to grant extensions if needed.

CFDA Number and Title: 93.778 - Medical Assistance Program (Medicaid: Title XIX) **Federal Award Number:** 1805GA5MAP (Year: 2018), 1905GA5MAP (Year: 2019)

Questioned Costs: \$4,524,068 **Repeat of Prior Year Finding:** 2018-029

The Medicaid eligibility process for Supplemental Security Income (SSI) Ex Parte members does not have adequate controls in place to ensure the required continuing eligibility determinations are performed.

Background Information:

The Department of Community Health (DCH) administers the State's Medicaid program that provides payments for medical assistance to low-income individuals. Medicaid is Georgia's largest public assistance program with federal expenditures totaling \$7.8 billion for fiscal year 2019. The program accounts for more than one-third of the State's total federal award expenditures.

Eligibility for the Medicaid program is determined by the Division of Family and Children Services (DFCS), a division within the Department of Human Services (DHS), which has offices in each of the 159 counties in the State of Georgia. During fiscal year 2019, DCH paid Medicaid benefits totaling \$66,446,724 for approximately 21,000 SSI Ex Parte members. Individuals who are eligible for SSI are also eligible for the Medicaid benefits, and those whose SSI benefits are terminated or denied by the Social Security Administration are SSI Ex Parte members for the Medicaid program. For those members, DCH makes temporary determinations of continued eligibility under a new Ex Parte Medicaid Class of Assistance in the Georgia Medicaid Management Information System (GAMMIS).

The DFCS is responsible for performing a Continuing Medicaid Determination (CMD) for each new SSI Ex Parte member. The DFCS uses the daily Ex Parte Determination Reports generated by GAMMIS to identify the new SSI Ex Parte members that require a CMD. GAMMIS also generates monthly Ex Parte Non-Confirmation Reports, which identify all entries from the Ex Parte Determination Reports that are over 30-days old and have not yet been acted upon.

When a CMD is complete, DFCS enters the individual in the Georgia Gateway eligibility system and an approval or denial notice is generated. GAMMIS is updated through the Georgia Gateway interface when eligibility for a member is approved. When eligibility is denied, DFCS sends the denial notice to DCH which triggers the removal of the denied member from GAMMIS.

Criteria:

As recipients of federal awards, both DCH and DHS are required to establish and maintain effective internal control over federal awards that provides reasonable assurance of managing the federal awards in compliance with federal statutes, regulations, and the terms and conditions of the federal awards pursuant

to Title 2 CFR 200.303, Subpart D of the Uniform Guidance. The eligibility determination requirements for SSI Ex Parte members are addressed in Chapter 2700, Section 50 - DCH Reports - Ex Parte Lists of the DHS Medicaid Manual. In accordance with Section 50 of the Medicaid Manual, DFCS is required to perform eligibility determinations of those members whose SSI benefits are terminated or denied.

Condition:

Our audit of the Medicaid program revealed deficiencies in the performance of eligibility determinations for SSI Ex Parte members. We found that DFCS did not perform eligibility determinations for 42 of 60 SSI Ex Parte members tested.

In addition, we noted that DCH did not monitor the status of the eligibility determinations for SSI Ex Parte members in GAMMIS.

Ouestioned Costs:

Known questioned costs of \$4,524,068 was identified for benefit payments to the 42 SSI Ex Parte members whose eligibility was not adequately redetermined. The Federal and State share of known questioned costs is approximately \$3,068,991 and \$1,455,077, respectively.

Using the total SSI Ex Parte population amount of \$66,446,724, we project the likely questioned cost to be approximately \$52,377,717. The projected likely questioned cost is based on the testing of the sample of 60 SSI Ex Parte members. The Federal and State share of likely questioned costs is approximately \$35,560,414 and \$16,817,303, respectively.

Cause:

The DFCS offices have procedures in place for reviewing eligibility documentation; however, the operation of those procedures did not ensure the required eligibility determinations were made on all SSI Ex Parte members. Additionally, the DCH did not have a process in place to monitor and follow-up on the status of eligibility determinations for the SSI Ex Parte members.

Effect:

The deficiencies in eligibility resulted in noncompliance with federal regulations and questioned costs. In addition, grant provisions allow the grantor to penalize DCH for noncompliance by suspending or terminating the award or withholding future awards. This may prevent eligible individuals from receiving benefits.

Recommendation:

The DHS management should strengthen internal controls over eligibility determinations for SSI Ex Parte members to ensure its policies and procedures are consistently enforced and operating effectively. Specifically, management should incorporate additional oversight and perform thorough reviews of the DFCS eligibility determinations for SSI Ex Parte members to ensure they are being performed as required.

In addition, DCH management should develop and implement policies and procedures to monitor and follow-up on the status of eligibility determinations for SSI Ex Parte members in GAMMIS. Management should also formally document these policies and procedures.

Improved controls will help ensure DCH and DHS achieve their objectives in complying with the Eligibility requirements for the Medicaid program.

Schedule of Findings and Questioned Costs Section III – Federal Award Findings and Questioned Costs For the Fiscal Year Ended June 30, 2019

State of Georgia

Views of Responsible Officials:

We concur with the finding.

The Department ("DCH") presented its Corrective Action Plan addressing this matter in 2018. Since this time DCH has made progress towards addressing this deficiency. In accordance with the previously submitted corrective action plan, DCH's employees have consistently participated in regularly scheduled monthly meetings with the DFCS Medicaid Unit in order to monitor the status of the Ex-Parte eligibility determinations. Policies and procedures were developed for training purposes and provided to staff.

The Division of Family and Children Services (DFCS) has successfully trained over 1000 employees on the Ex-Parte process and is diligently working to complete the training of its remaining staff. Training of all identified staff is scheduled to be completed on or before April 30, 2020.

Additionally, DCH, through its fiscal agent, has begun making modifications to the Georgia Medicaid Management Information System (GAMMIS) in order to automate the Ex-Parte Continuing Medicaid Eligibility Determination process.

Questioned Costs: None Identified

The Department of Natural Resources (DNR) should follow established controls over Real Property and Equipment.

Background Information:

The DNR administers the Sport Fish Restoration, Wildlife Restoration and Basic Hunter Education, and Enhanced Hunter Education and Safety programs which comprise the Fish and Wildlife Cluster. The federal award expenditures for these programs totaled \$28.3 million for fiscal year 2019.

Criteria:

As a recipient of federal awards, DNR is required to establish and maintain effective internal control over federal awards that provides reasonable assurance that it is managing the federal awards in compliance with federal statutes, regulations, and the terms and conditions of the federal awards pursuant to Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), Section 200.303 – Internal Controls. In addition, the Uniform Guidance, Section 200.313, requires states to manage and dispose of equipment acquired under a Federal award in accordance with state laws and procedures.

Pursuant to Title 50, Chapter 5B, Article 1 of the *Official Code of Georgia Annotated* (OCGA) § 50-5B-4, State organizations are required to comply with statewide policies, procedures, rules and regulations and to provide information to the state accounting office (SAO) necessary to properly account for and report real property and personal property. Furthermore, the *Capital Asset - General* policy in the Statewide Accounting Policy manual requires State organizations to establish controls to ensure capital assets are properly identified, valued and recorded in asset management records in compliance with State of Georgia policies and laws.

The DNR has established controls over Real Property and Equipment that require the performance of monthly reconciliations between its asset management records and general ledger with a review and approval by the asset manager. For fiscal year 2019, DNR reported a net book value of Real Property and Equipment of \$980.9 million.

Condition:

Our audit of the Fish and Wildlife Cluster revealed deficiencies in the operation of controls over Real Property and Equipment. For the months of March through June 2019, DNR's control for performing capital asset reconciliations as well as having them reviewed and approved monthly did not occur. After a request by the auditor, the reconciliations were prepared and provided in January 2020.

Cause:

The DNR incurred an unexpected turnover in the position that performs the reconciliations which impacted the operation of the monthly capital asset reconciliation and review and approval process.

Effect:

The deficiency in the performance of controls resulted in noncompliance with federal regulations and State statutes and policies. It also increased the risk of errors in the asset management records and the information DNR provides to the grantor and SAO.

Recommendation:

The DNR management should ensure that its established controls for Real Property and Equipment are performed to ensure assets are safeguarded and accurately recorded and reported in accordance with State statutes and policies. In addition, DNR should develop a plan to address the performance of controls when an unexpected turnover occurs.

Views of Responsible Officials:

We concur that as a result of inadequate staffing, operational controls over Real Property and Equipment for the months of March through June 2019 regarding asset reconciliations as well as having them reviewed and approved did not occur.

VARIOUS FEDERAL AGENCIES

84.268 – Federal Direct Student Loans Program

93.264 – Nurse Faculty Loan Program

Federal Award Number: P007A181059 (Year: 2019), P033A181059 (Year: 2019),

P063P180095 (Year: 2019), P268K190095 (Year: 2019),

E01HP28790-05-00 (Year: 2019)

Questioned Costs: \$1,524.00

The Institution's Student Financial Assistance Office improperly determined the Student Financial Assistance award amounts for eligible students.

Criteria:

Provisions included in 34 CFR 668 provide general provisions for administering Student Financial Assistance (SFA) programs and 34 CFR 675, 676, 685, and 690 provide eligibility and other related program requirements that are specific to the Federal Work-Study Program, Federal Supplemental Educational Opportunity Grant (FSEOG) Program, Federal Direct Student Loans Program, and Federal Pell Grant Program, respectively. In addition, provisions included in 42 CFR 57 provide eligibility and other related program requirements that are specific to the Nursing Student Loans Program.

Condition:

A sample of 40 students who received student financial assistance funds was randomly selected for testing using a non-statistical sampling method. Student financial assistance files were reviewed to ensure that financial assistance was properly calculated and disbursed to eligible students. Testing revealed that one student received \$1,524.00 more in Federal Pell Grant funds than they were eligible to receive based upon their enrollment status and Expected Family Contribution (EFC).

Questioned Costs:

Questioned costs of \$1,524.00, with likely questioned costs of \$518,915.92, were identified for the student who received student financial assistance in excess of their eligibility. The following CFDA number is affected by the known and likely questioned costs: 84.063.

Cause:

In discussing this deficiency with management, they stated that the student was awarded aid for the 1819 award year prior to the change of status during the Spring 2019 semester. The student dropped classes at the beginning of the Spring 2019 semester and their Federal Pell Grant award for the 1819 award year was not revised to reflect the effect of the change.

Schedule of Findings and Questioned Costs Section III – Federal Award Findings and Questioned Costs For the Fiscal Year Ended June 30, 2019

State of Georgia

Effect:

This deficiency may expose the Institution to unnecessary financial strains and shortages. The funds disbursed to students in excess of their eligibility must be returned to the U.S. Department of Education. Though the Institution may attempt to collect the funds from individual students affected by the error, these collection efforts could be unsuccessful as the students may no longer attend the Institution and/or fail to repay the funds. Additionally, the Institution was not in compliance with Federal regulations concerning awarding of SFA funds to students.

Recommendation:

The Institution should review its processes and procedures for determining each student's financial aid eligibility. Where vulnerable, the Institution should develop and/or modify its policies and procedures to ensure that correct amounts will be awarded to students in conformity with Federal requirements. Additionally, the Institution should develop and implement a monitoring process to ensure that controls are functioning properly. The Institution should also contact the U.S. Department of Education regarding resolution of this finding.

Views of Responsible Officials:

We concur with this finding.

84.268 – Federal Direct Student Loans Program

93.264 – Nurse Faculty Loan Program

Federal Award Number: P007A181059 (Year: 2019), P033A181059 (Year: 2019),

P063P180095 (Year: 2019), P268K190095 (Year: 2019),

E01HP28790-05-00 (Year: 2019)

Questioned Cost: None Identified

The Institution's Student Financial Aid Office did not document the procedures used to establish Cost of Attendance (COA) budgets.

Criteria:

Provisions included in 34 CFR 668 provide general provisions for administering Student Financial Aid (SFA) programs. In addition, Section 472 of the Higher Education Act of 1965 specifies the components that can be included in COA budgets.

Condition:

Upon review of the Institution's COA budgets, it was noted that Institution personnel could not provide supporting documentation or explanations for the calculation of the components of the COA budgets, including Books and Supplies, Personal Expenses, Room and Board, Tuition and Fees, Transportation, and Loan Fees.

Cause:

In discussing these deficiencies with management, they stated that supporting documentation for the COA budgets could not be located for review due to turnover within the SFA Office.

Effect:

The Institution was not in compliance with Federal regulations concerning the COA budgets used as the basis for determining SFA eligibility. The COA is the cornerstone of establishing a student's financial need and sets a limit on the total aid a student may receive. If the estimated costs used for components in the COA budget are unreasonable and do not represent average costs for students at the Institution, a majority of the student population may have been over or under awarded.

Schedule of Findings and Questioned Costs Section III – Federal Award Findings and Questioned Costs For the Fiscal Year Ended June 30, 2019

State of Georgia

Recommendation:

The Institution should reevaluate the components used in the COA budgets and document that these costs represent average costs for students enrolled at the Institution. The Institution should modify its procedures to ensure that any future changes to the COA budgets are reasonable and based on documented average costs for students. The Institution should also contact the U.S. Department of Education regarding resolution of this finding.

Views of Responsible Officials:

We concur with this finding.

84.268 – Federal Direct Student Loans Program

93.264 – Nurse Faculty Loan Program

Federal Award Number: P007A181059 (Year: 2019), P033A181059 (Year: 2019),

P063P180095 (Year: 2019), P268K190095 (Year: 2019),

E01HP28790-05-00 (Year: 2019)

Questioned Costs: \$879.83

The Institution did not properly perform the refund process to ensure that unearned Title IV funds were returned in a timely manner.

Criteria:

Provisions included in 34 CFR 668.22 provide requirements over the treatment of Title IV funds when a student withdraws. The Institution is required to determine the amount of Title IV funds that the student earned as of the student's withdrawal date when a recipient of Title IV funds withdraws from an institution during a payment period or period of enrollment in which the recipient began attendance. A refund must be returned to Title IV programs when the total amount of the Title IV grant or loan assistance, or both, that the student earned is less than the amount of the Title IV grant or loan assistance that was disbursed to the student as of the withdrawal date.

Condition:

A sample of 40 students who received student financial assistance (SFA) for the Fall 2018 and Spring 2019 semesters and withdrew from the Institution was randomly selected for testing using a non-statistical sampling method. The students' Return of Title IV calculations were reviewed to ensure that the refunds were calculated and returned in the correct amount to the proper funding agency and/or student in a timely manner. The following deficiencies were noted:

- The refund calculation for one student who withdrew during the Fall 2018 semester and four students who withdrew during the Spring 2019 semester was calculated incorrectly due to the use of improper scheduled break days, withdrawal dates, and/or institutional charges. Three students were requested to return \$879.83 less than the required amount to various SFA programs, and two students were requested to return \$5,174.49 more than the required amount to various SFA programs.
- The proration between the school and student portion of the refund was incorrect for two students who withdrew during the Fall 2018 semester and eight students who withdrew during the Spring 2019 semester.

Ouestioned Costs:

Questioned costs of \$879.83, with likely questioned costs of \$6,433.70, were identified for refunds calculated incorrectly. The following CFDA numbers are affected by the known and likely questioned costs: 84.063 and 84.268.

Cause:

In discussing these deficiencies with management, they stated that they misunderstood the process of prorating the institutional charges when students withdraw. In addition, human errors occurred when entering data into the manual calculations.

Effect:

This deficiency may expose the Institution to unnecessary financial strains and shortages. The school's portion of the refunds that were not calculated correctly must be returned to the U.S. Department of Education. Though the Institution may attempt to collect the funds from individual students affected by the error, these collection efforts could be unsuccessful as the students may no longer attend the Institution and/or fail to repay the funds. Additionally, the Institution was not in compliance with Federal regulations concerning performing Return of Title IV calculations for withdrawn students.

Recommendation:

The Institution should revise and implement procedures to ensure that student financial aid refunds are properly calculated and that unearned funds are correctly returned to the appropriate accounts in a timely manner in accordance with the Higher Education Amendments 1998, Public Law 105-244. The Institution should also contact the U.S. Department of Education regarding resolution of the finding.

Views of Responsible Officials:

We concur with this finding.

Schedule of Expenditures of Federal Awards

The Schedule of Expenditures of Federal Awards (Schedule) is presented for purposes of additional analysis as required by the Uniform Guidance. The Schedule provides a summary of the State's federal program expenditures for the fiscal year ended June 30, 2019.

The Schedule presents total federal awards expended for each individual federal program, cluster, and federal awarding agency. The Notes to the Schedule, which are presented on pages C-98 through C-100, describe the significant accounting policies used in preparing the Schedule and other related information.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Expenditures of Federal Awards (Schedule) is a supplementary schedule to the State's basic financial statements presented in the State of Georgia *Comprehensive Annual Financial Report (CAFR)* for the fiscal year ended June 30, 2019.

A. Basis of Presentation

The information in the Schedule is presented in accordance with Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the State, it is not intended to and does not present the financial position, changes in net position, or cash flows of the State.

- 1. Federal Financial Assistance The Uniform Guidance defines federal financial assistance as assistance that non-federal entities receive or administer in the form of grants, loans, loan guarantees, non-cash contributions or donations of property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other financial assistance.
- 2. Catalog of Federal Domestic Assistance (CFDA) Number The Schedule presents total expenditures for each federal financial assistance program and the CFDA number assigned to the program. For programs that have not been assigned a CFDA number, the number shown in the Schedule is the federal agency's 2-digit prefix followed by "U" and a two digit number or by "RD" if the program is part of the Research and Development (R&D) cluster.
- 3. Cluster of Programs A grouping of closely related programs with different CFDA numbers that share common compliance requirements is considered a cluster of programs. The Schedule presents the total federal awards expended for the R&D cluster, Student Financial Assistance cluster, and other clusters that are mandated by OMB in the most recent Compliance Supplement.
- **4. Direct and Pass-through Federal Financial Assistance** The State receives federal financial assistance directly from federal awarding agencies or indirectly from pass-through entities. A pass-through entity (PTE) is a non-federal entity that provides a subaward to a subrecipient to carry out part of a federal program. For federal assistance that the State received as a subrecipient, the name of the PTE and the identifying number assigned by the PTE are identified in the Schedule.
- 5. Amount Provided to Subrecipients The amount of federal assistance that the State provided to subrecipients under each federal program is presented in a separate column in the Schedule. A subrecipient is an entity that receives a subaward from a PTE to carry out part of a federal program.
- **6.** Transactions Between State Organizations When federal financial assistance is received by one State organization and passed through to another State organization, the federal financial assistance is reflected as expenditures in the Schedule by only the primary recipient (i.e., the State organization that received the federal assistance directly from the federal government). This method avoids the overstatement of federal financial assistance at the aggregate level.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Reporting Entity

The Schedule includes all federal financial assistance programs administered by the State for the fiscal year ended June 30, 2019. Refer to Appendix "A" for a comprehensive listing of organizations that comprise the State of Georgia Reporting Entity.

C. Basis of Accounting

The State's CAFR and this supplemental schedule are presented in accordance with generally accepted accounting principles, following the accrual or modified accrual basis of accounting, as appropriate for the fund structure. The basis of accounting used for each fund is described in Note 1 to the State's financial statements. Negative amounts shown in the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

NOTE 2. <u>INDIRECT COST RATE</u>

In addition to other procedures detailed in the Uniform Guidance, State organizations may elect to charge a de minimis cost rate of 10% of modified total direct costs which may be used indefinitely. There are seven State organizations within the State of Georgia Reporting Entity, as identified in Appendix "A," that have elected to use the 10% de minimis cost rate.

NOTE 3. LOAN PROGRAMS

The State participates in various federal loan programs. The Schedule includes the value of new loans made or received during the fiscal year, the balance of loans from previous years for which the federal government imposes continuing compliance requirements, and any administrative cost allowances. For loans made to students of an Institution of Higher Education (IHE), where the IHE does not make the loans, the amounts in the Schedule only include the value of loans made during the fiscal year and are not included in the following table.

Outstanding balance of federal loans and loan guarantees:

CFDA No.	Program Name	Ending Balance at June 30, 2019	
10.766	Community Facilities Loans and Grants Cluster	\$ 40,500,000	
20.223	Transportation Infrastructure Finance and Innovation Act (TIFIA) Program	248,165,625	
84.038	Federal Perkins Loan Program - Federal Capital Contributions	24,375,564	
93.264	Nurse Faculty Loan Program (NFLP)	1,999,778	
93.342	Health Professions Student Loans, Including Primary Care Loans/Loans for Disadvantaged Students	66,180	
93.364	Nursing Student Loans	 604,069	
Tota	al Outstanding Balance	\$ 315,711,216	

NOTE 4. NON-CASH ASSISTANCE

Although most federal financial assistance is in the form of cash assistance, the State participates in several programs that provide non-cash assistance through the State to eligible participants. The total value of federal financial non-cash assistance that the State reported for the fiscal year ended June 30, 2019 is presented in the table below.

Non-Cash Assistance:

CFDA No.	Program Name	Non-Cash Value	
10.178	Trade Mitigation Program Eligible Recipient Agency Operational Funds ¹	\$	18,430,669
10.551	Supplemental Nutrition Assistance Program ¹		2,175,440,585
10.555	National School Lunch Program ¹		48,338,368
10.565	Commodity Supplemental Food Program ¹		1,159,672
10.569	Emergency Food Assistance Program (Food Commodities) ¹		22,490,285
39.003	Donation of Federal Surplus Personal Property		7,388,169
93.268	Immunization Cooperative Agreements ¹		143,575,615
Total Non-Cash Assistance		\$	2,416,823,363

¹ The amount reported in the Schedule for this program includes both cash and non-cash assistance expenditures.

NOTE 5. UNEMPLOYMENT INSURANCE (UI) (CFDA No. 17.225)

The UI program serves workers who are unemployed through no fault of their own and are seeking reemployment. To receive benefits, claimants must be able to work, available for work, and actively seeking work. State unemployment insurance funds (State UI funds) must be deposited to the Unemployment Trust Fund (UTF) in the U.S. Treasury, primarily to be used to pay UI program benefits under the federally approved State unemployment law. Accordingly, expenditures of both State and federal unemployment insurance funds are included in the total expenditures for the UI program as reported in the Schedule, and for the fiscal year ended June 30, 2019 are \$297,170,288 and \$47,848,181, respectively.

Summary Schedule of Prior Audit Findings

February 17, 2020

Mr. Greg S. Griffin, State Auditor Georgia Department of Audits and Accounts 270 Washington Street, S.W., Room 1-156 Atlanta, Georgia 30334-8400

Dear Mr. Griffin,

Enclosed with this letter is the State of Georgia's "Summary Schedule of Prior Audit Findings" (Schedule) for reporting in the Single Audit for fiscal year ending June 30, 2019. This Schedule is compiled by the State Accounting Office (SAO) based on answers provided by the respective State Organization. The State's Schedule reports the current status of all audit findings reported in the 2018 fiscal year Single Audit's "Schedule of Findings and Questioned Costs" and "Summary Schedule of Prior Audit Findings" that were not corrected. The findings are organized by finding type (financial statement and federal award), Federal Agency (if applicable), State Organization, and finding number (the finding number corresponds to the reference number that was reported in the prior fiscal year).

The State's Schedule satisfies the requirements as detailed in Title 2 U.S. Code of Federal Regulations, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), Subpart F, Section 511 – Audit findings follow-up.

If you have any questions regarding this Schedule, please contact our Office.

Sincerely,

Thomas Alan Skelton, CPA State Accounting Officer

PRIOR FINANCIAL STATEMENT FINDINGS REPORTED UNDER GOVERNMENT AUDITING STANDARDS

2018-001 Continue to Improve Financial Statement Preparation

State Entity: Statewide Finding

Repeat of Prior Year Finding: 2017-001, 2016-001, 2015-041, 2014-054

Finding Status: Partially Resolved

State Accounting Office (SAO) continues to provide education and communication to all State Organizations, through the release of Accounting Policies, meeting and training events, working groups for more complex new standards, and detailed instructions on each year-end annual form. In particular during FY2019, SAO again offered two open house sessions where organizations could come ask questions about their year-end forms. SAO continues to provide routine training to all internal staff relating to various financial accounting and reporting topics. Additionally, SAO will work with high risk data to ensure the integrity of information submitted by the organizations. We will continue to leverage automation where possible, and will also add in additional analytical procedures where applicable. We will continue to leverage automation where possible, and will also add in additional analytical review procedures where applicable.

2017-001 Continue to Improve Financial Statement Preparation

State Entity: Statewide Finding

Repeat of Prior Year Finding: 2016-001, 2015-041, 2014-054

Finding Status: Partially Resolved

See response to finding number 2018-001.

2016-001 Improve Financial Reporting and Communication with Agencies

State Entity: Statewide Finding **Repeat of Prior Year Finding:** 2015-041, 2014-054

Finding Status: Partially Resolved

See response to finding number 2018-001.

2015-041 Financial Statement Preparation

State Entity: Statewide Finding

Repeat of Prior Year Finding: 2014-054

Finding Status: Partially Resolved

See response to finding number 2018-001.

2014-054 Controls over Financial Statement Preparation

State Entity: Statewide Finding

Finding Status: Partially Resolved

See response to finding number 2018-001.

2018-002 Improve the Accounting and Reporting of Refunded General Obligation Bonds'

Outstanding Premiums

State Entity: Statewide Finding

Finding Status: Previously Reported Corrective Action Implemented

2017-002 Strengthen Federal Award Expenditure Reporting Controls

State Entity: Statewide Finding

Repeat of Prior Year Finding: 2016-002

Finding Status: Previously Reported Corrective Action Implemented

2016-002 Strengthen Federal Award Expenditure Reporting Controls

State Entity: Statewide Finding

Finding Status: Previously Reported Corrective Action Implemented

2018-003 Improve Financial Reporting Controls

State Entity: Department of Public Health

Finding Status: Unresolved

This finding is unresolved mainly due to high turnover of both management and staff in the finance section. New management is beginning to implement revised procedures, more frequent data reviews, and better communication to improve accounting operations and internal controls.

In addition, enhanced training and job tools will be provided to staff to ensure accuracy and result in timelier and more streamlined processing and reporting. These improvements should largely be in place by fiscal year-end financial close.

2017-003 Strengthen Bank Reconciliation Procedures

State Entity: Department of Public Health

Finding Status: Partially Resolved

The finding is only partially corrected. The planned corrective action that was implemented only partially corrected the deficiency. The Department has obtained additional resources to assist with resolving the prior year reconciling items. We have entered and prepared correcting entries to resolve reconciling items from fiscal year 2016. Correcting entries to resolve reconciling items from fiscal year 2017 will correct the deficiency.

2017-004 Develop and Implement Budgetary Controls

State Entity: Department of Insurance

Finding Status: Previously Reported Corrective Action Implemented

2018-004 Improve Internal Controls over Claims Processing

State Entity: Department of Community Health

Finding Status: Partially Resolved

SHBP has completed the first of a three-year claim audit of the current Third-party Administrators (TPA). SHBP has historically conducted audits to review TPAs' payment of claims. SHBP previously contracted with a third party vendor to conduct pre-implementation audits of the current TPAs to ensure their systems were programmed to pay medical claims correctly. SHBP currently has controls in place that examines the accuracy of claim payments. The Plan conducts an annual internal Readiness Review, whereby the TPAs must provide documentation of claims testing scenarios that demonstrate claims are processing correctly. During the Readiness Review, claims data is provided by the TPAs with the supporting documentation. SHBP and Aon executed a contract to conduct a three-year claims audit of the current TPAs. A third party vendor will use a stratified, random sampling methodology based on an error-rate driven formula to examine claims paid during Plan Years 2017, 2018, and 2019. Each year, we perform user acceptance testing prior to Open Enrollment on selected areas to ensure the system is processing transactions accurately. Additionally, the TPA has in place Dependent Verification to ensure the dependents added to the plan are eligible.

This finding is partially resolved as the three-year claims audit review is ongoing and SHBP will continue to review the eligibility process and determine any necessary changes appropriate to ensure our process mitigates the risk of mis-payments.

2018-005 Strengthen Financial Reporting Controls

State Entity: Department of Community Health

Finding Status: Partially Resolved

The corrective actions for this finding that were previously reported were implemented as designed. DCH conducted an annual engagement meeting with its contracted actuary to prepare a timeline of key dates for data sharing, to discuss methodologies and assumptions and reporting requirements to ensure schedules and calculations were accurate and complete. DCH documented accounting policies and procedures for year-end accrual journal entries and provided training to DCH staff. DCH ensured Financial Reporting staff received additional hours of training in GASB, GAAP and governmental financial reporting. DCH hired additional staff in the area of Financial Reporting with higher technical accounting skills to help oversee the preparation of financial statements.

This finding is partially resolved, although DCH implemented several controls to improve financial reporting, additional analyses will need to be implemented in the year-end process to aid in the prevention or timely detection and correction of errors. DCH will also continue training on the new state-wide reporting system to ensure transactions are posted according to State requirements and will continue to provide training on GASB, GAAP and governmental financial reporting for the Financial Reporting staff.

2018-006 Continue to Strengthen Application Risk Management Program

State Entity: Department of Community Health

Finding Status: Partially Resolved

DCH OIT is continuing to make progress toward the completion of identified organizational goals, objectives and tasks required to fully remediate this finding by March 31, 2020. Updates include the following:

- Facilitated the successful completion of three Independent Security and Privacy Assessment Engagement Projects to strengthen the organizations controls over its Application Risk Management Program. Those are:
 - Independent NIST 800-53 Federal Computer Security Standards Based Assessment of the State's Technology Hosting Platform and Data Center along with State Service Organization Controls.
 - o Independent NIST 800-53 Federal Computer Security Standards Based Assessment of the organizations Third-Party Hosted Medicaid Management Information System.
 - Independent HHS/OCR Audit Protocol Criteria Assessment of the organization's compliance status pertaining to privacy, security, and breach notification laws, regulations, and standards.

2018-006 Continue to Strengthen Application Risk Management Program (continued)

- Working with State Auditors to provide artifacts and supporting documentation that demonstrates the organization's commitment to tighten application risk management controls by addressing organizational oversight procedures known as Complimentary User Entity Controls (CUEC's) necessary to continuously monitor service delivery management and service organization transaction processing systems and services.
- Requiring healthcare service providers to provide System Security Plans and periodic security metrics reports that demonstrate the service organizations compliance status with Federal computer security standards.
- Reviewing and approving service organization contingency plans and disaster recovery exercise reports to ensure that Medicaid transaction processing systems meet the organizations data confidentiality, integrity, and availability standards and requirements.
- Continuing to work with organizational leadership to address budgetary and security resource requirements to grow the security program staff to an appropriate level.
- Working closely with CMS and Social Security Administration Federal business partners to certify planned Medicaid Transaction Processing Systems and Services to ensure that they meet applicable Federal and State Security and Privacy Laws, Regulations, and Standards.

2018-007 Continue to Strengthen Logical Access Controls

State of Georgia

2018-008 Continue to Strengthen Logical Access Controls

State Entity: Department of Human Services

Repeat of Prior Year Finding: 2017-008

Finding Status: Previously Reported Corrective Action Implemented

2017-008 Strengthen Logical Access Controls

State Entity: Department of Human Services

Finding Status: Previously Reported Corrective Action Implemented

2018-009 Implement Controls over SNAP Benefits Reporting

State Entity: Department of Human Services

Finding Status: Unresolved

As previously reported, the monthly reconciliation of the SNAP Benefits paid per the federal reports and the summary report produced by the DHS Electronic Benefits Transfer (EBT) function was instituted in January of 2019. The final review of the non-monetary amount to be reported in the SFY 2019 SEFA missed a \$1,000.00 discrepancy which occurred in the month prior to the control being implemented, December 2018. Consequently, an additional year-end verification control will be added to the monthly reconciliation process to ensure the amount reported in the SEFA is accurate. The DHS Grants Management team will recreate the monthly report SNAP Benefit paid balance tracking summary provided by the DHS Electronic Benefits Transfer (EBT) function to ensure there are no incorrect calculations included in the full year amount reported.

2018-010 Improve Capital Asset Management and Reporting

State Entity: Department of Juvenile Justice

Finding Status: Previously Reported Corrective Action Implemented

2018-011 Processing of Tax Refund Requests and Estimating a Tax Refund Obligation for Refunds

Pending Approval at Year-End

State Entity: Department of Revenue

2017-016 Controls over Financial Reporting

State Entity: Atlanta Metropolitan State College

Repeat of Prior Year Finding: 2016-019

Finding Status: Previously Reported Corrective Action Implemented

2016-019 Deficiencies in Controls over Financial Reporting

State Entity: Atlanta Metropolitan State College

Finding Status: Previously Reported Corrective Action Implemented

2018-012 Continue to Strengthen Logical Access Controls

State Entity: Georgia World Congress Center Authority

Repeat of Prior Year Finding: 2017-018 (partial repeat), 2016-024 (partial repeat)

Finding Status: Partially Resolved

Due to the timing of the FY18 audit report, GWCCA was unable to implement the required procedures for the full fiscal year ending 6/30/19.

In FY20, GWCCA management and staff will implement the following procedures:

- In January of each year, a report will be generated of all Paycom non-client side, base level user's access. This report will be sent directly to the Directors/Managers of each department to verify the following:
 - o Confirm users are currently in their department
 - o Confirm user's level of access is valid and accurate

Estimated Completion Date: January 31, 2020.

- An end of month User Change Report will be reviewed by the HR Director & HRIS Analyst. Applicable Directors will receive a User Change Report if users from their department are listed on the report and there's a need for further clarification of a change.
- An annual review of all system privileges and security rights will be conducted for all Supervisor level and above (Managers, Directors, Executives) client-side users. Estimated Completion Date: April 30, 2020.
- A quarterly review of the Super User activity report will be conducted by the Director of Internal Audit.
- Permission Profiles will be created for each department, detailing all supervisors, managers and admin roles and their rights within the department. An annual review of the Permission Profiles will be conducted by the Human Resources Department and the Director of each department to ensure all users are accurate and maintain the appropriate level of access.

2017-018 Continue to Strengthen Logical Access Controls

State Entity: Georgia World Congress Center Authority

Repeat of Prior Year Finding: 2016-024

Finding Status: Partially Resolved

See response to finding number 2018-012.

2016-024 Strengthen Logical Access Controls

State Entity: Georgia World Congress Center Authority

Finding Status: Previously Reported Corrective Action Implemented

2018-014 Improve Controls over Financial Reporting

State Entity: State Road and Tollway Authority

Repeat of Prior Year Finding: 2017-019, 2016-025

Finding Status: Partially Resolved

SRTA transitioned to the State's Enterprise Financial System (TeamWorks) on July 1, 2019. The transition to TeamWorks proved to be more challenging than anticipated, due to the learning curve. This resulted in time constraints that prevented us from formally implementing monthly and quarterly financial balance reviews. As we move further into FY 2020, SRTA will continue to focus our efforts on improving monthly and quarterly review processes and controls. SRTA did not fully implement a new financial reporting system as planned; however, we did start the project and expect to complete it for the FY 2020 reporting period.

2017-019 Improve Controls over Financial Reporting

State Entity: State Road and Tollway Authority

Repeat of Prior Year Finding: 2016-025

Finding Status: Partially Resolved

See response to finding number 2018-014.

2016-025 Improve Controls over Financial Reporting

2016-034 Return of Title IV Funds

Federal Agency: U.S. Department of Education State Entity: Savannah State University 2015-016, 2014-033

Finding Status: Partially Resolved

The Institution has corrected issues associated with identifying potential unofficial withdrawals and performing Return of Title IV calculations for these students. In an effort to correct issues associated with the accuracy of Return of Title IV calculations performed and timeliness of those returns, SSU has made personnel changes and is working to identify the underlying causes of this deficiency. SSU plans to enhance processes and procedures to ensure that student financial aid refunds are properly calculated and that unearned funds are correctly returned to the appropriate accounts. SSU plans to have the enhancements fully implemented by June 30, 2020.

2015-016 Return of Title IV Funds

Federal Agency: U.S. Department of Education **State Entity:** Savannah State University

Repeat of Prior Year Finding: 2014-033

Finding Status: Partially Resolved

See response to finding number 2016-034.

2014-033 Return of Title IV Funds

Federal Agency: U.S. Department of Education **State Entity:** Savannah State University

Finding Status: Partially Resolved

See response to finding number 2016-034.

2018-018 Improve Controls over Cash Management

Federal Agency: U.S. Department of Education **State Entity:** University of West Georgia

Finding Status: Previously Reported Corrective Action Implemented

2017-024 Excessive Cash Balances

Federal Agency: U.S. Department of Education **State Entity:** Atlanta Metropolitan State College

Finding Status: Previously Reported Corrective Action Implemented

2017-026 Reports Not Reconciled

Federal Agency: U.S. Department of Education **State Entity:** Atlanta Metropolitan State College

Finding Status: Unresolved

This issue was resolved for award year 2018-2019 when the FISAP was submitted on 09/30/2019 in fiscal year 2020. The College's Fiscal Affairs Office and Financial Aid Office will both sign off on the reconciliations/numbers of the FISAP each year before submittal. This process also requires the two departments to agree on the amounts being reported for each program.

2017-027 Return of Title IV Funds

Federal Agency: U.S. Department of Education **State Entity:** Atlanta Metropolitan State College

Finding Status: Unresolved

The Financial Aid Office has completed a system review and has corrected the Return of Title IV refund percentages to match back to the number of days for the semester, which is required by Title IV regulations. This is a review that will occur each semester before the semester begins. This corrective action was partially implemented in Spring 2019 but will be fully implemented in Fall 2019.

In addition, the College has implemented some new reports that provide withdrawal information more quickly to the Financial Aid Office, allowing the withdrawals to be processed sooner. The College is also partnering with Dalton State College's Registrar and Financial Aid Director to ensure that the proper expertise is in the Office to maintain compliance with all Title IV regulations. This corrective action was partially implemented in Spring 2019 but will be fully implemented in Fall 2019.

The College plans to have all new processes and procedures implemented by December 31, 2019.

2017-028 Federal Direct Loan Program Reconciliations

Federal Agency: U.S. Department of Education **State Entity:** Atlanta Metropolitan State College

Finding Status: Partially Resolved

This issue is currently being addressed. The Interim Director of Financial aid just recently took over the department and is in the process of implementing the monthly reconciliation process. She plans to implement the same process that Dalton State College uses to perform it's monthly reconciliation of the Direct Lending program. This will not be an issue going forward and the college will be in 100% compliance for award year 2019-2020.

The College plans to have a full year of monthly reconciliations completed by June 30, 2020.

2018-019 Strengthen Controls over the Awarding Process

Federal Agency: U.S. Department of Education **State Entity:** Atlanta Technical College

Finding Status: Partially Resolved

With assistance from the TCSG System Office, the Technical College has made several revisions to the awarding and disbursement rules within the student information system. This should result in the awarding of the appropriate amount of Subsidized and Unsubsidized loans. In addition, the Technical College has made several revisions to the student information system processing of Satisfactory Academic Progress (SAP) that should result in correct SAP calculations.

The Institution plans to have all new processes and procedures implemented by January 7, 2020.

2018-020 Strengthen Controls over Matching Requirements

Federal Agency: U.S. Department of Education State Entity: Atlanta Technical College

Finding Status: Previously Reported Corrective Action Implemented

2018-021 Improve Controls over the Verification Process

Federal Agency: U.S. Department of Education **State Entity:** Atlanta Technical College

Finding Status: Previously Reported Corrective Action Implemented

2018-022 Improve Controls over the Return of Title IV Funds Process

Federal Agency: U.S. Department of Education **State Entity:** Atlanta Technical College

Finding Status: Unresolved

Regarding the issue of calculating institutional charges correctly, the Technical College has updated the original charge cutoff date within the student information system to be the last date of the term. The Technical College's step-by-step Semester Set Up Guide will be updated to include the step that requires the original charge date to be changed to the last day of the semester, as well. Furthermore, Academic Affairs will be conducting training with the faculty on how to enter grades each semester to ensure that the last date of attendance entered is correct. A document and video will also be created and shared with faculty as a training and reference tool.

The Institution plans to have all new processes and procedures implemented by January 31, 2020.

2018-023 Strengthen Controls over the Student Financial Aid Awarding Process

Federal Agency: U.S. Department of Education **State Entity:** Augusta Technical College

2017-032 Overpayment of Student Financial Assistance

Federal Agency: U.S. Department of Education

State Entity: Georgia Piedmont Technical College

Finding Status: Partially Resolved

Georgia Piedmont Technical College (GPTC) has partially resolved the overpayment challenges identified during the 2017 fiscal year. The Technical College underwent a change in leadership for the Financial Aid and Registrar's Office during the Spring 2019 term. A new Satisfactory Academic Progress policy was also adopted by GPTC in the Spring. Oversight of these new procedures is monitored by the Financial Aid Director, Registrar and Vice President of Student Affairs. Furthermore, GPTC has withdrawn from the Federal Student Loan Program (FSLP) effective for the 2018-2019 Award Year. Lastly, the Technical College System of Georgia (TCSG) has developed a quality assurance program providing an additional layer of compliance and conducts an annual review of the Technical College's financial aid policies, procedures and student testing. TCSG is confident that new policies and procedures, change in leadership and additional support will reflect vast improvement in this area.

GPTC plans to have all new processes and procedures implemented by April 2020.

2017-033 Return of IV Funds

Federal Agency: U.S. Department of Education

State Entity: Georgia Piedmont Technical College

Finding Status: Previously Reported Corrective Action Implemented

2017-034 <u>Unofficial Withdrawals</u>

Federal Agency: U.S. Department of Education

State Entity: Georgia Piedmont Technical College

Finding Status: Previously Reported Corrective Action Implemented

2018-024 Strengthen Controls over Matching Requirements

Federal Agency: U.S. Department of Education
State Entity: Southern Crescent Technical College

Finding Status: Previously Reported Corrective Action Implemented

2018-025 Improve Controls over Unofficial Withdrawals

Federal Agency: U.S. Department of Education

State Entity: Southern Crescent Technical College

2018-026 Continue to Strengthen Application Risk Management Program

Federal Agency: U.S. Department of Health and Human Services

State Entity: Department of Community Health

Repeat of Prior Year Finding: 2017-037, 2016-044

Finding Status: Partially Resolved

DCH OIT is continuing to make progress toward the completion of identified organizational goals, objectives and tasks required to fully remediate this finding by March 31, 2020.

Updates include the following:

- Facilitated the successful completion of three Independent Security and Privacy Assessment Engagement Projects to strengthen the organizations controls over its Application Risk Management Program. Those are:
 - Independent NIST 800-53 Federal Computer Security Standards Based Assessment of the State's Technology Hosting Platform and Data Center along with State Service Organization Controls.
 - o Independent NIST 800-53 Federal Computer Security Standards Based Assessment of the organizations Third-Party Hosted Medicaid Management Information System.
 - Independent HHS/OCR Audit Protocol Criteria Assessment of the organization's compliance status pertaining to privacy, security, and breach notification laws, regulations, and standards.
- Working with State Auditors to provide artifacts and supporting documentation that demonstrates the organization's commitment to tighten application risk management controls by addressing organizational oversight procedures known as Complimentary User Entity Controls (CUECs) necessary to continuously monitor service delivery management and service organization transaction processing systems and services.
- Requiring healthcare service providers to provide System Security Plans and periodic security metrics reports that demonstrate the service organizations compliance status with Federal computer security standards.
- Reviewing and approving service organization contingency plans and disaster recovery exercise reports to ensure that Medicaid transaction processing systems meet the organizations data confidentiality, integrity, and availability standards and requirements.
- Continuing to work with organizational leadership to address budgetary and security resource requirements to grow the security program staff to an appropriate level.
- Working closely with CMS and Social Security Administration Federal business partners to certify planned Medicaid Transaction Processing Systems and Services to ensure that they meet applicable Federal and State Security and Privacy Laws, Regulations, and Standards.

2017-037 Strengthen Application Risk Management Program

Federal Agency: U.S. Department of Health and Human Services

State Entity: Department of Community Health

Repeat of Prior Year Finding: 2016-044

Finding Status: Partially Resolved

See response to finding number 2018-026.

2016-044 Strengthen Application Risk Management Program

Federal Agency: U.S. Department of Health and Human Services

State Entity: Department of Community Health

Finding Status: Partially Resolved

See response to finding number 2018-026.

2018-027 Continue to Monitor Controls over Eligibility Documentation

Federal Agency: U.S. Department of Health and Human Services

State Entity: Department of Human Services

Repeat of Prior Year Finding: 2017-038

Finding Status: Partially Resolved

After training was completed for staff in October 2018, a few errors were still noted during subsequent quality reviews. The Division of Family and Children Services will continue a comprehensive three-layer internal controls monitoring process, specifically targeting Temporary Assistance for Needy Families (TANF). The following Corrective Action Plan (CAP) will be implemented:

- Monthly, District TANF Field Program Specialists (FPS) will perform first-level case Accuracy Review on sample TANF cases prior to client notification of eligibility status.
- Second-level reviews will also be completed by FPS staff.
- District supervisors and/or administrators will perform first and second level reviews.

2017-038 Strengthen Controls over Eligibility Documentation

Federal Agency: U.S. Department of Health and Human Services

State Entity: Department of Human Services

Finding Status: Partially Resolved

See response to finding number 2018-027.

2018-028 Monitor Controls over Child Support Noncooperation Sanctions

Federal Agency: U.S. Department of Health and Human Services

State Entity: Department of Human Services

Repeat of Prior Year Finding: 2017-039

Finding Status: Partially Resolved

The monitoring of the Sanction Request reports were not previously being monitored by applicable staff. However, the Division of Family and Children Services will implement additional steps to the current multi-layer internal controls. The following Corrective Action Plan (CAP) will be implemented:

- Training for veteran District TANF staff has been completed.
- Field Program Specialists (FPS) will track all sanction requests to ensure timely action.
- Monthly logs of TANF related sanction requests will be received directly from the Office of Child Support Services (OCSS) and the logs will be reviewed by State Office staff to ensure sanctions have been implemented.
- Further, Field Program Specialists (FPS) will be copied on all sanction requests and are tracking to ensure timely action. This will add an additional layer of control to detect instances of noncompliance.
- TANF policy has been updated to include district procedures for OCSS sanctions.

2017-039 Improve Controls over Child Support Noncooperation Sanctions

Federal Agency: U.S. Department of Health and Human Services

State Entity: Department of Human Services

Finding Status: Partially Resolved

See response to finding number 2018-028.

2017-040 Strengthen Logical Access Controls

Federal Agency: U.S. Department of Health and Human Services

State Entity: Department of Human Services

2018-029 Improve Controls over Medicaid Eligibility Determinations

Federal Agency: U.S. Department of Health and Human Services

State Entity: Various State Agencies:

Department of Community Health and Department of Human Services

Finding Status: Unresolved

The Department of Community Health ("DCH") has begun the implementation of the following corrective action plan, however, not all actions were completed by June 30, 2019. As a result, the corrective action was not fully resolved as of the end of the fiscal year.

Below is the Department of Community Health's ("DCH") update to the corrective action plan for SSI Ex-Parte cases for continuing Medicaid determination issued in SFY2018.

- Training materials will be developed and submitted to DCH Member Policy Unit for review and approval. Once approved, the DFCS State Office Medicaid Unit will re-train appropriate ABD and Family Medicaid Administrators, Field Program Specialists, Medicaid eligibility supervisors and Medicaid eligibility workers on the correct procedures for Ex-Parte. Ongoing training will be provided for new staff. Status: Training materials have been developed and approved by DCH. Training of ABD, Family Medicaid Administrators, Field Program Specialists, Medicaid eligibility supervisors, and Medicaid eligibility workers will be completed by April 30, 2020.
- The DFCS State Office Medicaid Unit will designate an individual to obtain the daily reports ELG-5003-D SSI MAO-Q Track Ex-Parte Determination List and ELG-5004-D SSI RSM Ex-Parte Determination List, and the monthly reports ELG-5103-M SSI Q-Track Non-Confirmation List and ELG-5104-M SSI RSM Non-Confirmation List from GAMMIS. Status: We will designate an individual by December 31, 2019.
- The assigned designee will format and filter the daily and monthly lists by District and distribute to the assigned field ABD administrator with a copy to the District's Medicaid Field Program Specialist (FPS). Status: This process will be finalized and in place by April 30, 2020.
- The DFCS FPS staff will monitor progress of the lists and reach out to Districts that have not submitted responses in a timely manner. Assigned staff are to review the lists and take action daily, including filling out the DCH notification forms. Field staff are to report up to the DFCS State office Medicaid unit manager on a weekly basis. In addition, they will report any issues encountered for review and resolution. District Leadership will be notified of any issues related to untimely completion of this work. Status: This process will be finalized and in place by April 30, 2020.
- A summary report will be sent to DCH from the DFCS Medicaid Unit to advise of the number of outstanding cases by the 15th of each month to include the following: the number of cases assigned, cases completed, and cases that remain pending for the previous month. The report will specify district, the number of Ex-Parte from the end of the previous reporting period, the number of any additional Ex-Parte, the number completed, and the remaining at the end of the reporting period. Status: The new reporting process will be implemented by April 30, 2020.

2018-029 Improve Controls over Medicaid Eligibility Determinations (continued)

- DCH MEQC will monitor the monthly submission of reports, track progress, and review efforts as part of quarterly Program Improvement Plan (PIP) meetings with DFCS. The Member Policy unit will address progress on a monthly basis as part of regular meetings with DFCS Medicaid Unit and provide guidance on any additional steps required. Status: This process will be finalized and in place by April 30, 2020.
- DCH Member Policy unit will receive a report from DXC of Ex-Parte cases closed on a monthly basis to track actions taken on the cases and ensure there is no overlap in eligibility. Status: This process will be finalized and in place by April 30, 2020.
- DCH will develop a plan to automate the Ex-Parte CMD process between GAMMIS and Gateway. Status: DCH has moved forward with requesting a CSR (CSR #1492) which will result in modifications to GAMMIS. The business requirements have been drafted. We will be meeting with our fiscal agent, DXC, to prioritize and finalize all requested changes. The next step will be to submit a Change Request (CR) for Gateway.
- DCH will refund the requested amount of \$192,298 in accordance with federal regulations. Status: DCH has taken the necessary steps to refund the \$192,298.

Also, the above corrective actions are a collaboration between both DCH and DHS and require continuous procedure process review. These corrective actions were implemented in SFY2019 and expect to be fully finalized by April 2020.

Corrective Action Plan for Current Year Findings

February 28, 2020

Mr. Greg S. Griffin, State Auditor Georgia Department of Audits and Accounts 270 Washington Street, S.W., Room 1-156 Atlanta, Georgia 30334-8400

Dear Mr. Griffin,

Enclosed with this letter is the State of Georgia's "Corrective Action Plan" (CAP) for reporting in the Single Audit for fiscal year ending June 30, 2019. This CAP is compiled by the State Accounting Office (SAO) based on corrective action plans provided by the respective State Organization, and is organized by finding type (financial statement and federal award), Federal Agency (if applicable), State Organization, and finding number.

The State's CAP satisfies the requirements as detailed in Title 2 U.S. Code of Federal Regulations, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), Subpart F, Section 511 – Audit findings follow-up.

If you have any questions regarding this CAP, please contact our Office.

Sincerely,

Han 52

Thomas Alan Skelton, CPA State Accounting Officer

FINANCIAL STATEMENT FINDINGS REPORTED UNDER GOVERNMENT AUDITING STANDARDS

2019-001 Continue to Improve Financial Statement Preparation

State Entity: Statewide Finding

Corrective Action Plans:

Preparing the CAFR continues to be a very complex and manual process. The items noted in this finding generally relate to misclassifications of data within the CAFR. SAO will continue to train staff on CAFR preparation which will include focusing on how data is presented. SAO will also continue to work towards automation and will add in additional analytical procedures, where applicable, to ensure consistent and accurate presentation of financial amounts within the CAFR.

Estimated Completion Date: June 30, 2020

Contact Person: Kris Martins, Deputy State Accounting Officer - Financial Reporting

Telephone: (404) 463-1528; **E-mail:** kris.martins@sao.ga.gov

2019-002 Strengthen Logical Access Controls

State Entity: Statewide Finding

Corrective Action Plans:

As noted in the finding, the user access issues have already been resolved. The recommendations will be reviewed and evaluated in conjunction with other logical access and change controls in place and will be implemented based on risk.

Estimated Completion Date: June 30, 2020

Contact Person: Barbara Rosenke-Sweeney, Chief Information Officer

Telephone: (404) 656-2133; E-mail: barbara@sao.ga.gov

2019-003 Improve Financial Reporting Controls

State Entity: Department of Public Health

Corrective Action Plans:

DPH will strengthen its financial controls, reconciliations, reporting, and year-end close processes by:

- Improving, streamlining, and automating routine accounting processes and procedures
- Performing regular, timely, and thorough general ledger account reconciliations and analysis
- Researching and resolving outstanding differences on bank reconciliations
- Increasing training and regularly scheduled review sessions with financial staff
- Establishing task lists, timelines, and deadlines for timely transactional processing and reporting to ensure a smooth and efficient year-end financial close process
- Analyzing more carefully accounting data records and transactions for accuracy and integrity before submission for entry and reporting

2019-003 Improve Financial Reporting Controls (continued)

Estimated Completion Date: December 31, 2020

Contact Person: Lee Wright, Chief Financial Officer

Telephone: (404) 463-2725; E-mail: lee.wright@dph.ga.gov

2019-004 Continue to Improve Internal Controls over Claims Processing

State Entity: Department of Community Health

Corrective Action Plans:

In addition to the third-party, financial audits of the PBM that include rebates, financial accuracy and financial guarantee components that occur on an ongoing basis, DCH plans to take the following steps:

- 1. Implement monthly claims testing in addition to testing when implementing benefit changes and the annual readiness review conducted; and
- 2. Include eligibility as part of the ongoing PBM audits.

Estimated Completion Date: May 31, 2020

Contact Person: Jeff Rickman, Executive Director

Telephone: (404) 463-0826; E-mail: jrickman@dch.ga.gov

2019-005 Continue to Strengthen Financial Reporting Controls

State Entity: Department of Community Health

Corrective Action Plans:

The Department of Community Health will implement the following corrective actions to continue to strengthen financial reporting controls.

- DCH will continue its annual engagement meeting with its contracted actuary to prepare a timeline of key dates for data sharing, to discuss methodologies and assumptions and reporting requirements to ensure schedules and calculations are accurate and complete.
- DCH will document accounting policies and procedures for specific year-end accrual journal entries such as Drug Rebates and Benefit Estimates and provide training to staff.
- DCH will create and perform key analytics to help prevent or timely detect financial errors in data used to prepare the CAFR-related financial statements.
- DCH will continue to ensure Financial Reporting staff receive additional hours of training in GASB, GAAP and governmental financial reporting annually.
- DCH will continue to hire staff in the area of Financial Reporting with higher technical accounting skills to help oversee the preparation of financial statements.

Estimated Completion Date: June 30, 2020

Contact Person: Tisha Phillips, Director of Financial Services **Telephone:** (404) 657-7201; **E-mail:** tisha.phillips@dch.ga.gov

2019-006 Continue to Strengthen Application Risk Management Program

State Entity: Department of Community Health

Corrective Action Plans:

DCH has taken steps to obtain the necessary federal and state funds and security resources to address these deficiencies in a timely manner. DCH Management is working to onboard security program resources during the 2nd Quarter of 2020 and procure the necessary third-party security services by the 3rd Quarter of 2020 and fully remediate the audit findings by the end of CY 2020.

Estimated Completion Date: December 31, 2020

Contact Person: Sherman Harris, CISO, Cybersecurity Director **Telephone:** (404) 656-9653; **E-mail:** sheharris@dch.ga.gov

2019-007 Strengthen Logical Access Controls

State Entity: Department of Human Services

Corrective Action Plans:

DHS has corrected all concerns related to this finding. The cited user exceptions have been remediated and DHS implemented procedures whereby administrative database privileges are reviewed/adjusted monthly for appropriateness of access based on current job roles and responsibilities. Supporting evidence for these reviews is retained for at least 18-months.

Estimated Completion Date: February 27, 2020

Contact Person: Ananias Williams, Deputy Chief Information Officer **Telephone:** (470) 463-0929; **E-mail:** ananias.williams@dhs.ga.gov

2019-008 Strengthen Logical Access Controls

State Entity: Department of Human Services

Corrective Action Plans:

DHS has corrected all concerns related to this finding. The cited generic user IDs have been removed and all Data Base Administrators (DBAs) are now required to use their assigned, unique and individual user ID when accessing the database. Other cited developers and users have been removed. Default general security settings have been modified to address the security concerns. DHS implemented procedures for periodic review of database access for appropriateness of access based on current job roles and responsibilities.

Estimated Completion Date: February 27, 2020

Contact Person: Ananias Williams, Deputy Chief Information Officer **Telephone:** (470) 463-0929; **E-mail:** ananias.williams@dhs.ga.gov

2019-009 Strengthen Logical Access Controls

State Entity: Department of Revenue

Corrective Action Plans:

Change Management – Monitoring

The Georgia Department of Revenue (DOR) will submit a request to remove all unauthorized personnel. We will limit access to only those required for job duties and set up a process to review the access granted to the production file share to ensure that no unauthorized access has been granted.

Currently there is a process within the application called Health Check. This process runs daily and compares the Repository to the Database and reports any discrepancies via email to the support team.

Health Check was enabled on 10/1/2017.

Change Management – Windows Developer Access to Production

V12 of the Tax application implements role-based security and would give DOR the opportunity to do a complete review of how application security is administered and update to align more with least privilege standards.

ITS will work to remove all elevated developer production access in ITS. We will replace this access with view only in areas that could or have the potential to impact the financials of DOR and are not critical to the support of the application. The DOR support team will still need access to production support areas required for successful support of the ITS application. If elevated access to production is needed to support the business in areas that are not required for production support, access will only be granted on a temporary basis and that access will be documented through a security case and an end date of elevated access will be required. The case will be documented with why the access is needed and what will be done while the developer has the access. This case must be submitted by the developers' team lead and approved by senior application management.

V12 estimated installation date is July 2022.

Logical Access – Monitoring and Current User

Starting with the upcoming fiscal year, a work item will be systematically created twice a year (first business day of January and first business day of July) which will be auto-assigned to any user with employees in ITS. Work item lists all employees and their access and cannot be closed until all employees have been marked as reviewed and approved. Any access not approved will require supervisor to follow current process of submitting security case to change access.

A manual process for reviewing was implemented on 7/1/2019. An automated version of this was implemented on 2/19/2020.

Logical Access - Database - Privileged User

The DBA privileges granted to specific user(s) was revoked on 4/30/2019 as soon as the issue was identified.

2019-009 Strengthen Logical Access Controls (continued)

Logical Access - Database - General Security Settings

This Audit Trail has always been turned on at DOR. It is believed to have been turned off as part of maintenance. The Audit Trail setting was turned back on 7/10/2019 immediately after being discovered.

Estimated Completion Date: June 30, 2020

Contact Person: Henry Rutherford, Senior Manager App Support Development

Telephone: (404) 417-6497; **E-mail:** henry.rutherfordIII@dor.ga.gov

2019-010 Continue to Strengthen Logical Access Controls

State Entity: Georgia World Congress Center Authority

Corrective Action Plans:

In FY20, GWCCA management and staff will implement the following procedures:

- 1. In January of each year, a report will be generated of all Paycom non-client side, base level user's access. This report will be sent directly to the Directors/Managers of each department to verify the following:
 - a. Confirm users are currently in their department
 - b. Confirm user's level of access is valid and accurate Estimated Completion Date: January 31, 2020.
- 2. An end of month User Change Report will be reviewed by the HR Director & HRIS Analyst. Applicable Directors will receive a User Change Report if users from their department are listed on the report and there's a need for further clarification of a change.
- 3. An annual review of all system privileges and security rights will be conducted for all Supervisor level and above (Managers, Directors, Executives) client side users. Estimated Completion Date: April 30, 2020.
- 4. A quarterly review of the Super User activity report will be conducted by the Director of Internal Audit.
- 5. Permission Profiles will be created for each department, detailing all supervisors, managers and admin roles and their rights within the department. An annual review of the Permission Profiles will be conducted by the Human Resources Department and the Director of each department to ensure all users are accurate and maintain the appropriate level of access.

Estimated Completion Date: April 30, 2020

FEDERAL AWARD FINDINGS

2019-011 Improve Controls over the Return of Title IV Funds Process

Federal Agency: U.S. Department of Education **State Entity:** Clayton State University

Corrective Action Plans:

The Institution concurs with this finding and these are isolated incidents. We will complete dual R2T4 calculations. The R2T4 calculation will be performed by the Financial Aid team member and by the Bursar's Office team member to confirm the R2T4 calculation and return amount.

Estimated Completion Date: December 17, 2019

Contact Person: Lakisha Sanders, Director of Financial Aid **Telephone:** (678) 466-4181; **E-mail:** LakishaSanders@clayton.edu

2019-012 Improve Controls over the Verification Process

Federal Agency: U.S. Department of Education **State Entity:** Fort Valley State University

Corrective Action Plans:

The University has invested in an electronic system to collect and store documents to prevent error in losing paperwork. The Office of Financial (OFA) will ensure proper training of employees on the verification process. Also, as employee's transition out of the department, the Director or Associate Director will ensure the proper review of the financial aid files they were responsible for are properly documented and processed.

Verification was performed on the student in question with the correct documentation and no changes were needed. The student's award amounts stayed the same. No aid needs to be returned to the U.S. Department of Education.

Estimated Completion Date: December 30, 2019

Contact Person: Kimberly Morris, Director, Financial Aid **Telephone:** (478) 825-6605; **E-mail:** morrisk01@fvsu.edu

2019-013 Improve Controls over Cost of Attendance Budgets

Federal Agency: U.S. Department of Education

State Entity: Georgia Southwestern State University

Corrective Action Plans:

Once the Vice President for Student Engagement and Success confirms the COA all students will be re-evaluated. Furthermore, the University will attempt to set the COA before evaluations begin for the aid year.

Estimated Completion Date: February 17, 2020

Contact Person: Sandra Johnson, Assistant Director of Financial Aid **Telephone:** (229) 931-2031; **E-mail:** sandra.johnson@gsw.edu

2019-014 Improve Controls over Unofficial Withdrawals

Federal Agency: U.S. Department of Education

State Entity: Georgia Southwestern State University

Corrective Action Plans:

The Financial Aid Office will run the unofficial withdrawal report and share the original report with the Student Accounts Office, so that no students will be missed in future processes.

Estimated Completion Date: February 17, 2020

Contact Person: Sandra Johnson, Assistant Director of Financial Aid **Telephone:** (229) 931-2031; **E-mail:** sandra.johnson@gsw.edu

2019-015 Strengthen Controls over Enrollment Reporting

Federal Agency: U.S. Department of Education **State Entity:** Albany Technical College

Corrective Action Plans:

Faculty are going to receive more training to insure that they report withdrawals to the Registrar earlier. Also, the Registrar is going to update the course status as well as the overall student status to insure the student's enrollment status is updated and sent to the National Student Clearinghouse and NSLDS.

Estimated Completion Date: January 13, 2020

Contact Person: Barbara Brown, Vice President of Student Affairs Telephone: (229) 430-3504; E-mail: bbrown@albanytech.edu

2019-016 Strengthen Controls over the Awarding Process

Federal Agency: U.S. Department of Education

State Entity: Georgia Piedmont Technical College

Corrective Action Plans:

The Technical College has modified its procedure for SAP to ensure compliance but will also institute an additional review for students whose SAP calculations were performed before the system was reconfigured to ensure accurate calculations. The Technical College will thoroughly review its awarding setup to ensure no student awards are calculated incorrectly.

Estimated Completion Date: April 30, 2020

Contact Person: James Chiara, Director of Financial Aid **Telephone:** (404) 297-9522; **E-mail:** chiaraj@gptc.edu

2019-017 Improve Controls over Federal Work-Study Earmarking Requirements

Federal Agency: U.S. Department of Education

State Entity: Georgia Piedmont Technical College

Corrective Action Plans:

The Technical College has increased the rate of pay for the positions that qualify for the federal earmarking requirement and will do a marketing campaign to students to attract more students to these positions. This will ensure these positions stay filled and that the 7% threshold is met in the future.

Estimated Completion Date: June 30, 2020

Contact Person: James Chiara, Director of Financial Aid **Telephone:** (404) 297-9522; **E-mail:** chiaraj@gptc.edu

2019-018 Improve Controls over Special Reporting

Federal Agency: U.S. Department of Education

State Entity: Georgia Piedmont Technical College

Corrective Action Plans:

The Technical College will ensure all documentation regarding the FISAP is saved and accessible by multiple individuals to ensure turnover will not result in this information not being accessible. The Financial Aid Office will conduct a second review after submission with the Business Office, before the December deadline to process corrections, to ensure both parties are in agreement and have documentation to justify all reported figures.

Estimated Completion Date: December 31, 2019

Contact Person: James Chiara, Director of Financial Aid **Telephone:** (404) 297-9522; **E-mail:** chiaraj@gptc.edu

2019-019 Strengthen Controls over Enrollment Reporting

Federal Agency: U.S. Department of Education

State Entity: Georgia Piedmont Technical College

Corrective Action Plans:

The Technical College has developed a report to identify students who need their enrollment status updated after the term ends when unearned "F" grades are entered. The Registrar's Office will coordinate with the System Office to ensure all withdrawal reports are updated timely.

Estimated Completion Date: December 31, 2019

Contact Person: James Chiara, Director of Financial Aid Telephone: (404) 297-9522; E-mail: chiaraj@gptc.edu

2019-020 Improve Controls over Unofficial Withdrawals

Federal Agency: U.S. Department of Education **State Entity:** Wiregrass Technical College

Corrective Action Plans:

All accounts identified in the review have been corrected and submitted to COD. Effective for the Fall 2019 term, Wiregrass Georgia Technical College (WGTC) has revised its grading policy and procedures. Going forward, WGTC will require that all "F" grades submitted by faculty include a last date of academic related activity (LDA) entered into Banner. The Registrar's Office will review the grades and LDAs to determine if the student earned a final grade for their course(s). Academic Deans will monitor any late and/or missing responses from faculty that require additional validation. Grades that cannot be validated as 'earned' will be considered unearned and processed according to federal guidelines by the Financial Aid Office. Students that are considered withdrawn will have the ability to appeal their status with the Registrar's Office and potentially reinstate their funding and enrollment status.

Estimated Completion Date: December 20, 2019

Contact Person: Angela Hobby, Vice President for Enrollment Management

Telephone: (229) 333-5365; E-mail: angela.hobby@wiregrass.edu

2019-021 Improve Controls over Medicaid Capitation Payments

Federal Agency: U.S. Department of Health and Human Services

State Entity: Department of Community Health

Corrective Action Plans:

The Department ("DCH") will review and update its current policy and process related to the identification and review of members with multiple member identification numbers. Additionally, DCH will review and update its policy and process related to the merger and consolidation of multiple identification numbers associated with the same member. This review will include education and clarification of those instances wherein the merger of multiple identification numbers for the same member is not appropriate and deemed an exception.

2019-021 Improve Controls over Medicaid Capitation Payments (continued)

Estimated Completion Date: September 1, 2020

Contact Person: Lynnette Rhodes, Executive Director, Medical Assistance Plans

Telephone: (404) 656-7513; **E-mail:** lrhodes@dch.ga.gov

2019-022 Improve Controls over Medicaid Payments

Federal Agency: U.S. Department of Health and Human Services

State Entity: Department of Community Health

Corrective Action Plans:

The Department ("DCH") will modify its date of death processes within the Georgia Medicaid Management Information System ("GAMMIS") to apply additional edits to all date of death information sources received in GAMMIS.

Estimated Completion Date: September 1, 2020

Contact Person: Lynnette Rhodes, Executive Director, Medical Assistance Plans

Telephone: (404) 656-7513; **E-mail:** lrhodes@dch.ga.gov

2019-023 Improve Controls over Medicaid Capitation Payments

Federal Agency: U.S. Department of Health and Human Services

State Entity: Department of Community Health

Corrective Action Plans:

The Department ("DCH") will modify its Georgia Medicaid Management Information System ("GAMMIS") to include processes to recoup capitation payments from the Care Management Organizations for Medicare eligible recipients when appropriate.

DCH will review the eligibility criteria with staff to ensure that all guidelines are understood and properly implemented when programming system edits for its managed care programs.

Further, DCH will follow the recommendation of DOAA and consult with CMS regarding overpayments for members who are retroactively enrolled in Medicare.

Estimated Completion Date: September 1, 2020

Contact Person: Lynnette Rhodes, Executive Director, Medical Assistance Plans

Telephone: (404) 656-7513; **E-mail:** lrhodes@dch.ga.gov

2019-024 Continue to Strengthen Application Risk Management Program

Federal Agency: U.S. Department of Health and Human Services

State Entity: Department of Community Health

Corrective Action Plans:

DCH has taken steps to obtain the necessary federal and state funds and security resources to address these deficiencies in a timely manner. DCH Management is working to onboard security program resources during the 2nd Quarter of 2020 and procure the necessary third-party security services by the 3rd Quarter of 2020 and fully remediate the audit findings by the end of CY 2020.

Estimated Completion Date: December 31, 2020

Contact Person: Sherman Harris, CISO, Cybersecurity Director **Telephone:** (404) 656-9653; **E-mail:** sheharris@dch.ga.gov

2019-025 <u>Improve Controls over Inpatient Medicaid Payments</u>

Federal Agency: U.S. Department of Health and Human Services

State Entity: Department of Community Health

Corrective Action Plans:

The Department (DCH) will review the State Plan to evaluate if any changes are needed. Also, DCH will review the third-party vendor contract to determine if it needs to be amended to include language stating all audits must be completed by end of state fiscal year and add language requiring vendor to revise desk review process to ensure expanded audits are conducted annually where necessary.

Estimated Completion Date: June 30, 2020

Contact Person: Kim Morris, Director of Reimbursement **Telephone:** (404) 657-0229; **E-mail:** kim.morris@dch.ga.gov

2019-026 Strengthen Logical Access Controls

Federal Agency: U.S. Department of Health and Human Services

State Entity: Department of Human Services

Corrective Action Plans:

DHS has corrected all concerns related to this finding. The cited generic user IDs have been removed and all Data Base Administrators (DBAs) are now required to use their assigned, unique and individual user ID when accessing the database. Other cited developers and users have been removed. Default general security settings have been modified to address the security concerns. DHS implemented procedures for periodic review of database access for appropriateness of access based on current job roles and responsibilities.

Estimated Completion Date: February 27, 2020

Contact Person: Ananias Williams, Deputy Chief Information Officer **Telephone:** (470) 463-0929; **E-mail:** ananias.williams@dhs.ga.gov

2019-027 <u>Improve Controls over Medicaid Eligibility Determinations</u>

Federal Agency: U.S. Department of Health and Human Services

State Entity: Various State Agencies:

Department of Community Health Department of Human Services

Corrective Action Plans:

DCH will continue to meet with the DFCS Medicaid Unit on a monthly basis to review and monitor the status of the Ex-Parte list and to ensure that Continuing Medicaid Eligibility Determinations are performed. DFCS will continue training identified staff until all training is complete. Ongoing training will be provided to new hires.

DCH, through its fiscal agent, will continue programming the required modifications to the GAMMIS system in order to automate the Ex-Parte Continuing Medicaid Eligibility Determination process. Automating the process will result in an interface between the Integrated Eligibility System ("Gateway") and Georgia Medicaid Management Information System (GAMMIS).

Pending completion of the automated process, daily and monthly reports will be created, reviewed, and distributed to designated staff. Ex-Parte cases will be assigned to staff for completion, monitored, and tracked by the lead supervisor and Director.

Estimated Completion Date:

- The projected completion date for modifications to the GAMMIS system is September 1, 2020.
- Training will be completed by DFCS on or before April 30, 2020.

Estimated Completion Date: September 1, 2020

Contact Person: Lynnette Rhodes, Executive Director, Medical Assistance Plans

Telephone: (404) 656-7513; **E-mail:** lrhodes@dch.ga.gov

2019-028 Follow Established Controls over Real Property and Equipment

Federal Agency: U.S. Department of the Interior **State Entity:** Department of Natural Resources

Corrective Action Plans:

In any future events of inadequate staffing, reconciliations will be reviewed and approved monthly by the asset manager's supervisor.

Estimated Completion Date: March 20, 2020

Contact Person: Tim Wright, Accounting Director

Telephone: (404) 656-7736; E-mail: Tim.Wright@DNR.GA.GOV

2019-029 Strengthen Controls over the Awarding Process

Federal Agency: Various Federal Agencies:

U.S. Department of Education

U.S. Department of Health and Human Services

State Entity: University of West Georgia

Corrective Action Plans:

The population selection process for the enrollment freeze was determined to be incorrect. In August 2019, Financial Aid worked with an ITS member to resolve the problem. The population selection process was corrected, but it was corrected temporarily for Fall 2019. A permanent solution for coding the correct population selected is already in progress.

Estimated Completion Date: January 15, 2020

Contact Person: Leigh Ann Hussey, Director, Financial Aid Telephone: (678) 839-2256; E-mail: lhussey@westga.edu

2019-030 Improve Controls over Cost of Attendance Budgets

Federal Agency: Various Federal Agencies:

U.S. Department of Education

U.S. Department of Health and Human Services

State Entity: University of West Georgia

Corrective Action Plans:

For the 18-19 award year, COA budgets were adjusted by a straight 3% across-the-board from 17-18 award year COA budgets. Documentation from 17-18 COA budgets could not be located. The 19-20 award year COA budgets were correctly documented via a Qualtrics survey and corresponding results. The results are stored on the Financial Aid Shared Drive. In Spring 2019, USG informed institutions during an audit webinar that straight percentage increases across the board were no longer acceptable. UWG Financial Aid has already adjusted the Financial Aid Policy and Procedure Manual to state that "Cost of Attendance research will be performed annually before awarding for the upcoming aid year. Documentation will be placed on the Financial Aid shared drive."

Estimated Completion Date: July 1, 2019

Contact Person: Leigh Ann Hussey, Director, Financial Aid **Telephone:** (678) 839-2256; **E-mail:** lhussey@westga.edu

2019-031 Improve Controls over the Return of Title IV Funds Process

Federal Agency: Various Federal Agencies:

U.S. Department of Education

U.S. Department of Health and Human Services

State Entity: University of West Georgia

Corrective Action Plans:

The UWG Financial Aid Office will implement a temporary corrective action plan immediately followed by a permanent corrective action plan. Until the permanent plan can be implemented, 2 UWG Financial Aid employees will review each R2T4 calculation. This will ensure timeliness and accuracy in the current process. In order to reduce the capacity for human error as much as possible, the permanent solution will be to completely move the R2T4 process into Banner. The UWG Financial Aid Office will work to complete this project with both the Bursar's and Registrar's Offices.

Estimated Completion Date: August 31, 2020

Contact Person: Leigh Ann Hussey, Director, Financial Aid Telephone: (678) 839-2256; E-mail: lhussey@westga.edu
