

## Update on Mobius/Luminist/View Direct Reports

**Target Audience:** ALL TEAMWORKS USERS

**Subject:** Important upcoming changes to security access and changes to TeamWorks HCM and FSCM Report Repositories – Mobius/Luminist/View Direct systems

Moving from Mobius/Luminist/View Direct to TeamWorks Report Manager as the report repository will involve changes for FSCM and HCM users. The below information reflects changes regarding security access for users and changes between the current report repository and the future report repository.

**What's changing with security access?**

**IMPORTANT: EACH AGENCY'S INDIVIDUAL USERS' ACCESS WILL NEED TO BE ESTABLISHED IN TEAMWORKS.**

- By October 3, 2019, each Agency Security Officer will have all instructions on establishing security access for users.
- To ensure access at project Go-Live, all security requests need to be sent to SAO via the online security request **between October 1, 2019 and October 31, 2019.**

*NOTE: The location of security requests and the process for submitting online requests has not changed. Follow your normal agency security access process.*

**What's changing with the report repositories?**

The following chart outlines key differences between Mobius/Luminist/View Direct and TeamWorks Report Manager:

### Mobius/Luminist/View Direct vs Report Manager

	Mobius/Luminist/View Direct	Report Manager
Report Groups	Budget, HR, Payroll, Financials	Budget, HR, Payroll, Financials
User Accounts	One Account per Report Group; multiple users share one Recipient ID	Report Group access is assigned to each individual User's ID in TW
Batch Reports	Mobius Only	Report Manager Only
Ad-Hoc Reports	Run Type is optional – users can run and retrieve on-line in TW or send to Mobius	Run Type is restricted to on-line retrieval only – but will work the same as today.
