

ACCOUNT		ACCOUNT DEFINITIONS (PROVIDED BY GTA)
800000-813999	UNASSIGNED	
814000	[IT EXPENDITURES] IT SUPPLIES AND MATERIALS	
814001	Computer Supplies and Materials	Cost of miscellaneous computer supplies and materials not covered under IT equipment or software definitions. Does not include computers, monitors and printers associated with desktop systems intended for personal use which are by definition IT equipment. Also does not include any server or mainframe hardware or software which are by definition IT equipment and software. Computer supplies and materials would include desktop system peripherals such as keyboards, speakers, external drives, scanners, memory enhancements, other consumables, etc intended for individual use if purchased individually and not included with the purchase of a personal system.
814501	Telecommunications Supplies & Materials	Cost of miscellaneous telecommunications supplies and materials not covered under IT equipment or software definitions. Does not include Fax machines. Fax machines are included in Centrex/Business/Other telephone equipment by definition, regardless of value.
814502-814999	UNASSIGNED	
815000	[IT EXPENDITURES] IT REPAIRS AND MATERIALS	
815001	IT Repairs and Maintenance - Personal Systems	Covers repairs and maintenance costs for all types of IT hardware intended for individual use. This includes personal computers, terminals, workstations, notebook computers, and tablets. This also includes related, directly attached, components, such as mice, keyboards, monitors, scanners, biometric security devices, speakers, desktop video cameras, film scanners, CD and DVD copying equipment, uninterruptible power supplies, docking stations, security cables, and associated power and data cabling.
815010	IT Repairs and Maintenance - Server Systems	Covers repairs and maintenance costs for all types of server hardware intended for shared use or for workgroup or specialized uses. This includes application, database, web, mail, authentication, access control, intrusion detection, media, file and print, broadcast services, among other types of servers. Includes rental costs for attached uninterruptible power supplies, diagnostic tools, racks, cabling, cabinets access and diagnostic equipment. Includes installation, freight in, and documentation charges. Also includes any return freight, restocking fees, or similar charges associated with putting the IT hardware into service. Does not include file and print servers (see Personal Systems). Does not include authentication, access control, or intrusion detection servers (see Network Hardware). Does not include computerized scientific, laboratory, and industrial equipment such as gas chromatography, atomic absorption, or gamma spectroscopy systems, DNA sequencing systems, or automated colorimetric systems, automated weighing systems, or similar equipment (considered non-IT).
815020	IT Repairs and Maintenance - Mainframe Systems	Covers repairs and maintenance costs for all types of mainframe hardware intended for large general purpose, multi-application environments sharing the same computing platforms. Unlike server environments, mainframes utilize high single-thread performance and maximize I/O connectivity and I/O bandwidth for superior reliability.
815030	IT Repairs and Maintenance - Storage Systems, Peripherals, and Specialized Equipment	Covers repairs and maintenance costs for all types of shared storage systems, specialized systems, and other production-scale peripheral systems including interactive voice response units, optical scanners, magnetic scanners, bar code scanners, printers, and computer output microfiche systems. This includes free standing file servers, disk drives, optical arrays, storage arrays, network attached storage, storage area networks, tape libraries and tape robots, and other types of shared storage devices. Includes costs for attached uninterruptible power supplies, diagnostic tools, racks, cabling, cabinets, access and diagnostic equipment. Does not include personal-scale devices of similar function attached to personal systems, such as printers or external disk drives attached to personal systems. These are covered under Personal Systems or IT supplies and materials.
815040	IT Repairs and Maintenance - Network Hardware and Equipment	Covers repairs and maintenance costs for all technology hardware, including all network hardware and related components, including switches, routers, hubs, firewall appliances, VPN appliances, communication controllers, access control servers, authentication servers, intrusion detection servers, and diagnostic equipment. Includes monitoring equipment and personal computers used as network management consoles.
815050	IT Repairs and Maintenance - Key Telephone Systems and Equipment	Covers repairs and maintenance costs for all equipment associated with Key Telephone Systems (not connected centrally to a PBX). This includes handsets, consoles, and other hardware including cabling access to the wall jack. Includes installation, freight in, and documentation charges. Also includes any return freight, restocking fees, or similar charges associated with putting the Key System into service.
815060	IT Repairs and Maintenance - PBX Telephone Systems and Equipment	Covers repairs and maintenance costs for all equipment associated with PBX Telephone Systems. This includes handsets, consoles, and other hardware including cabling access to the wall jack.
815070	IT Repairs and Maintenance - VOIP Telephone Systems and Equipment	Covers repairs and maintenance costs for all equipment associated with VOIP and VOIP hybrid PBX Telephone Systems. This includes handsets, consoles, and other hardware including cabling access to the wall jack.
815080	IT Repairs and Maintenance - Centrex/ Business/Other Telephone Equipment	Covers repairs and maintenance costs for all equipment associated with Centrex, Regular Business line service, or other local service not specifically classified in other equipment definitions. Would include Fax machines by definition.
815090	IT Repairs and Maintenance - Mobile Communications Infrastructure Equipment	Covers repairs and maintenance costs of paging or radio transmitters, towers, and any other mobile communications infrastructure equipment > \$5,000.
815100	IT Repairs & Maintenance - Mobile Communication Devices (Cell, PDA, Blackberries, Pagers, Radios)	Covers repairs and maintenance costs for mobile communication devices including Cell Phones, PDA's, Blackberries, Pagers, Radios. Does not include wireless laptops and tablets. These are included under Personal Systems.
815101	UNASSIGNED	
815999		
816000	[IT EXPENDITURES] IT EQUIPMENT NOT CAPITALIZED	
816001	Personal Systems \$0 to \$4,999	Covers purchase and installation costs for all types of IT hardware between \$0 to \$4,999 intended for individual use. This includes personal computers, terminals, workstations, notebook computers, and tablets. This also includes related, directly attached, components, such as mice, keyboards, monitors, scanners, biometric security devices, speakers, desktop video cameras, film scanners, CD and DVD copying equipment, uninterruptible power supplies, docking stations, security cables, and associated power and data cabling- if purchased together as a system. Otherwise, desktop peripherals may be charged to IT supplies and materials.
816010	Server Systems \$0 to \$4,999	Covers purchase and installation costs for all types of server hardware between \$0 to \$4,999 intended for shared use or for workgroup or specialized uses. This includes application, database, web, mail, authentication, access control, intrusion detection, media, and broadcast services, among other types of servers. Includes costs for attached uninterruptible power supplies, diagnostic tools, racks, cabling, cabinets access and diagnostic equipment. Includes installation, freight in, and documentation charges. Also includes any return freight, restocking fees, or similar charges associated with putting the IT hardware into service. Does not include authentication, access control, or intrusion detection servers (see Network Hardware). Does not include computerized scientific, laboratory, and industrial equipment such as gas chromatography, atomic absorption, or gamma spectroscopy systems, DNA sequencing systems, or automated colorimetric systems, automated weighing systems, or similar equipment (considered non-IT equipment).
816020	Mainframe Systems \$0 to \$4,999	Covers purchase and installation costs between \$0 to \$4,999 for all types of mainframe hardware intended for large general purpose, multi-application environments sharing the same computing platforms. Unlike server environments, mainframes utilize high single-thread performance and maximize I/O connectivity and I/O bandwidth for superior reliability. Includes all related costs of putting the mainframe hardware into service.
816030	Storage Systems, Peripherals, and Specialized Equipment \$0 to \$4,999	Covers purchase and installation costs between \$0 to \$4,999 for all types of shared storage systems, specialized systems, and other production-scale peripheral systems including interactive voice response units, optical scanners, magnetic scanners, bar code scanners, printers, and computer output microfiche systems. This includes free-standing file servers, disk drives, optical arrays, storage arrays, network attached storage, storage area networks, tape libraries and tape robots, and other types of shared storage devices. Includes costs for attached uninterruptible power supplies, diagnostic tools, racks, cabling, cabinets, access and diagnostic equipment. Does not include personal-scale devices of similar function attached to personal systems, such as printers or external disk drives attached to personal systems (see Personal Systems or IT supplies and materials). Does include installation, freight in, and documentation charges. Also includes any return freight, restocking fees, or similar charges associated with putting the IT hardware into service.

ACCOUNT		ACCOUNT DEFINITIONS (PROVIDED BY GTA)
816040	Network Hardware and Equipment \$0 to \$4,999	Covers purchase and installation costs between \$0 to \$4,999 for all technology hardware, including all network hardware and related components, including switches, routers, hubs, firewall appliances, VPN appliances, communication controllers, access control servers, authentication servers, intrusion detection servers, file and print servers, and diagnostic equipment. Includes monitoring equipment and personal computers used as network management consoles. Includes installation, freight in, and documentation charges. Also includes any return freight, restocking fees, or similar charges associated with putting the IT hardware into service.
816050	Key Telephone Systems and Equipment \$0 to \$4,999	Covers purchase and installation costs between \$0 to \$4,999 for all equipment associated with Key Telephone Systems (not connected centrally to a PBX). This includes handsets, consoles, and other hardware including cabling access to the wall jack. Includes installation, freight in, and documentation charges. Also includes any return freight, restocking fees, or similar charges associated with putting the Key System into service.
816060	PBX Telephone Systems and Equipment \$0 to \$4,999	Covers purchase and installation costs between \$0 to \$4,999 for all equipment associated with PBX Telephone Systems. This includes handsets, consoles, and other hardware including cabling access to the wall jack. Includes installation, freight in, and documentation charges. Also includes any return freight, restocking fees, or similar charges associated with putting the PBX System into service.
816070	VOIP Telephone Systems and Equipment \$0 to \$4,999	Covers purchase and installation costs between \$0 to \$4,999 for all equipment associated with VOIP and VOIP hybrid PBX Telephone Systems. This includes handsets, consoles, and other hardware including cabling access to the wall jack. Includes installation, freight in, and documentation charges. Also includes any return freight, restocking fees, or similar charges associated with putting the VOIP System into service.
816080	Centrex/Business/Other Telephone Equipment \$0 to \$4,999	Covers purchase and installation costs between \$0 to \$4,999 for all equipment associated with Centrex, Regular Business line service, or other local service not specifically classified in other equipment definitions. Includes Fax machines by definition, regardless of value. Includes installation, freight in, and documentation charges. Also includes any return freight, restocking fees, or similar charges associated with putting the equipment into service.
816090	Mobile Communications Infrastructure Equipment \$0 - \$4,998	Covers purchase of paging or radio transmitters, towers, and any other mobile communications infrastructure equipment between \$0 - \$4,999.
816100	Mobile Communication Devices (Cell, PDA, Blackberries, Pagers, Radios)	Covers purchase and initial activation costs for mobile communication devices including Cell Phones, PDA's, Blackberries, Pagers, Radios. Does not include wireless laptops or tablets which are included under Personal Systems by definition.
816101-818999	UNASSIGNED	
819000	[IT EXPENDITURES] IT RENTS OTHER THAN REAL ESTATE	
819001	Rents - Personal Systems	Covers rental costs for all types of IT hardware intended for individual use. This includes personal computers, terminals, workstations, notebook computers, and tablets. This also includes related, directly attached, components, such as mice, keyboards, monitors, scanners, biometric security devices, speakers, desktop video cameras, film scanners, CD and DVD copying equipment, uninterruptible power supplies, docking stations, security cables, and associated power and data cabling-if leased together as a system.
819002	Rents - Personal Systems - GTA USE	GTA payments for leases on personal systems.
819010	Rents - Server Systems	Covers rental costs for all types of server hardware intended for shared use or for workgroup or specialized uses. This includes application, database, web, mail, authentication, access control, intrusion detection, media, and broadcast services, among other types of servers. Includes rental costs for attached uninterruptible power supplies, diagnostic tools, racks, cabling, cabinets access and diagnostic equipment. Includes installation, freight in, and documentation charges. Also includes any return freight, restocking fees, or similar charges associated with putting the IT hardware into service. Does not include authentication, access control, or intrusion detection servers (see Network Hardware). Does not include computerized scientific, laboratory, and industrial equipment such as gas chromatography, atomic absorption, or gamma spectroscopy systems, DNA sequencing systems, or automated colorimetric systems, automated weighing systems, or similar equipment (considered non-IT).
819020	Rents - Mainframe Systems	Covers rental costs for all types of mainframe hardware intended for large general purpose, multi-application environments sharing the same computing platforms. Unlike server environments, mainframes utilize high single-thread performance and maximize I/O connectivity and I/O bandwidth for superior reliability. Includes all costs associated with placing mainframe systems into service.
819030	Rents - Storage Systems, Peripherals, and Specialized Equipment	Covers rental costs for all types of shared storage systems, specialized systems, and other production- scale peripheral systems including interactive voice response units, optical scanners, magnetic scanners, bar code scanners, printers, and computer output microfiche systems. This includes free-standing file servers, disk drives, optical arrays, storage arrays, network attached storage, storage area networks, tape libraries and tape robots, and other types of shared storage devices. Includes costs for attached uninterruptible power supplies, diagnostic tools, racks, cabling, cabinets, access and diagnostic equipment. Does not include personal-scale devices of similar function attached to personal systems, such as printers or external disk drives attached to personal systems (see Personal Systems or IT supplies and materials).
819040	Rents - Network Hardware and Equipment	Covers rental costs for all technology hardware, including all network hardware and related components, including switches, routers, hubs, firewall appliances, VPN appliances, communication controllers, access control servers, authentication servers, intrusion detection servers, and diagnostic equipment. Includes monitoring equipment and personal computers used as network management consoles. Includes all costs associated with placed network hardware and equipment into service.
819050	Rents - Key Telephone Systems and Equipment	Covers rental costs for all equipment associated with Key Telephone Systems (not connected centrally to a PBX). This includes handsets, consoles, and other hardware including cabling access to the wall jack. Includes installation, freight in, and documentation charges. Also includes any return freight, restocking fees, or similar charges associated with putting the Key System into service.
819060	Rents - PBX Telephone Systems and Equipment	Covers rental costs for all equipment associated with PBX Telephone Systems. This includes handsets, consoles, and other hardware including cabling access to the wall jack if leased as a single system.
819070	Rents - VOIP Telephone Systems and Equipment	Covers rental costs for all equipment associated with VOIP and VOIP hybrid PBX Telephone Systems. This includes handsets, consoles, and other hardware including cabling access to the wall jack if leased as a single system.
819080	Rents - Centrex/Business/Other Telephone Equipment	Covers rental costs for all equipment associated with Centrex, Regular Business line service, or other local service not specifically classified in other equipment definitions. Would include Fax machines by definition, regardless of value.
819090	Rents - Mobile Communications Infrastructure Equipment	Covers rental of paging or radio transmitters, towers, and any other mobile communications infrastructure equipment > \$5,000.
819100	Rents - Mobile Communication Devices (Cell, PDA, Blackberries, Pagers, Radios)	Covers rental costs for mobile communication devices including Cell Phones, PDA's, Blackberries, Pagers, Radios. Does not include wireless laptops and tablets. These are by definition Personal Systems, regardless of value.
819101-820999	UNASSIGNED	
821000	[IT EXPENDITURES] IT EQUIPMENT	
821001	Personal Systems ≥ \$5,000	Covers purchase and installation costs for all types of IT hardware \$5,000 or more intended for individual use. This includes personal computers, terminals, workstations, notebook computers, and tablets. This also includes related, directly attached, components, such as mice, keyboards, monitors, scanners, biometric security devices, speakers, desktop video cameras, film scanners, CD and DVD copying equipment, uninterruptible power supplies, docking stations, security cables, and associated power and data cabling- if purchased together as a system. Otherwise, desktop peripherals may be charged to IT supplies and materials.
821010	Server Systems ≥ \$5,000	Covers purchase and installation costs for all types of server hardware \$5,000 or more intended for shared use or for workgroup or specialized uses. This includes application, database, web, mail, authentication, access control, intrusion detection, media, and broadcast services, among other types of servers. Includes costs for attached uninterruptible power supplies, diagnostic tools, racks, cabling, cabinets access and diagnostic equipment. Includes installation, freight in, and documentation charges. Also includes any return freight, restocking fees, or similar charges associated with putting the IT hardware into service. Does not include authentication, access control, or intrusion detection servers (see Network Hardware). Does not include computerized scientific, laboratory, and industrial equipment such as gas chromatography, atomic absorption, or gamma spectroscopy systems, DNA sequencing systems, or automated colorimetric systems, automated weighing systems, or similar equipment (considered non-IT equipment).

ACCOUNT		ACCOUNT DEFINITIONS (PROVIDED BY GTA)
821020	Mainframe Systems ≥ \$5,000	Covers purchase and installation costs \$5,000 or more for all types of mainframe hardware intended for large general purpose, multi-application environments sharing the same computing platforms. Unlike server environments, mainframes utilize high single-thread performance and maximize I/O connectivity and I/O bandwidth for superior reliability. Includes all related costs of putting the mainframe hardware into service.
821030	Storage Systems, Peripherals, and Specialized Equipment ≥ \$5,000	Covers purchase and installation costs \$5,000 or more for all types of shared storage systems, specialized systems, and other production-scale peripheral systems including interactive voice response units, optical scanners, magnetic scanners, bar code scanners, printers, and computer output microfiche systems. This includes free-standing file servers, disk drives, optical arrays, storage arrays, network attached storage, storage area networks, tape libraries and tape robots, and other types of shared storage devices. Includes costs for attached uninterruptible power supplies, diagnostic tools, racks, cabling, cabinets, access and diagnostic equipment. Does not include personal-scale devices of similar function attached to personal systems, such as printers or external disk drives attached to personal systems (see Personal Systems or IT supplies and materials). Does include installation, freight in, and documentation charges. Also includes any return freight, restocking fees, or similar charges associated with putting the IT hardware into service.
821040	Network Hardware and Equipment ≥ \$5,000	Covers purchase and installation costs \$5,000 or more for all technology hardware, including all network hardware and related components, including switches, routers, hubs, firewall appliances, VPN appliances, communication controllers, access control servers, authentication servers, intrusion detection servers, file and print servers, and diagnostic equipment. Includes monitoring equipment and personal computers used as network management consoles. Includes installation, freight in, and documentation charges. Also includes any return freight, restocking fees, or similar charges associated with putting the IT hardware into service.
821050	Key Telephone Systems and Equipment ≥ \$5,000	Covers purchase and installation costs \$5,000 or more for all equipment associated with Key Telephone Systems (not connected centrally to a PBX). This includes handsets, consoles, and other hardware including cabling access to the wall jack. Includes installation, freight in, and documentation charges. Also includes any return freight, restocking fees, or similar charges associated with putting the Key System into service.
821060	PBX Telephone Systems and Equipment ≥ \$5,000	Covers purchase and installation costs \$5,000 or more for all equipment associated with PBX Telephone Systems. This includes handsets, consoles, and other hardware including cabling access to the wall jack. Includes installation, freight in, and documentation charges. Also includes any return freight, restocking fees, or similar charges associated with putting the PBX System into service.
821070	VOIP Telephone Systems and Equipment ≥ \$5,000	Covers purchase and installation costs \$5,000 or more for all equipment associated with VOIP and VOIP hybrid PBX Telephone Systems. This includes handsets, consoles, and other hardware including cabling access to the wall jack. Includes installation, freight in, and documentation charges. Also includes any return freight, restocking fees, or similar charges associated with putting the VOIP System into service.
821080	Centrex/Business/Other Telephone Equipment ≥ \$5,000	Covers purchase and installation costs \$5,000 or more for all equipment associated with Centrex, Regular Business line service, or other local service not specifically classified in other equipment definitions. Includes Fax machines by definition, regardless of value. Includes installation, freight in, and documentation charges. Also includes any return freight, restocking fees, or similar charges associated with putting the equipment into service.
821090	Mobile Communications Infrastructure Equipment ≥ \$5,000	Covers purchase of paging or radio transmitters, towers, and any other mobile communications infrastructure equipment \$5,000 or more.
821091-821999	UNASSIGNED	
822000	[IT EXPENDITURES] IT CLOUD	
822001	Software - Cloud Storage	Covers purchase, development, renewal of all types of personal systems software licenses intended for individual use \$1,000,000 or more. This includes software for personal computers, terminals, workstations, notebook computers, and tablets. This also includes software for related peripherals directly attached to personal systems.
822002-822999	UNASSIGNED	
823000	[IT EXPENDITURES] SOFTWARE (CAPITALIZED)	
823001	Software - Personal Systems Software	Covers purchase, development, renewal of all types of personal systems software licenses intended for individual use \$1,000,000 or more. This includes software for personal computers, terminals, workstations, notebook computers, and tablets. This also includes software for related peripherals directly attached to personal systems.
823010	Software - Server Software	Covers purchase, development, renewal and installation/integration costs for all types of server software licenses intended for shared use or for workgroup or specialized uses \$1,000,000 or more. This includes application, database, web, mail, authentication, access control, intrusion detection, media, and broadcast services, among other types of software. Includes costs for diagnostic tools. Does not include authentication, access control, or intrusion detection software. These are included under Network Software.
823020	Software - Mainframe Software	Covers purchase, development, renewal, and installation/integration costs for all types of mainframe software licenses intended for large general purpose, multi-application environments sharing the same computing platforms \$1,000,000 or more. Unlike server software, mainframe software runs on hardware that utilizes high single-thread architecture and maximize I/O connectivity and I/O bandwidth for superior reliability. Would also include software for all types of shared storage systems, specialized systems, and other production-scale peripheral systems including interactive voice response units, optical scanners, magnetic scanners, bar code scanners, printers, etc, in a mainframe environment.
823040	Software - Network Software	Covers purchase, development, and installation/integration costs for all software licenses associated with all network hardware and related components, including switches, routers, hubs, firewall appliances, VPN appliances, communication controllers, access control servers, authentication servers, intrusion detection servers, file and print servers, and diagnostic equipment \$1,000,000 or more. Includes monitoring equipment and personal computers used as network management consoles.
823041-823999	UNASSIGNED	
824000	[IT EXPENDITURES] IT BUILDINGS	
824001	IT Buildings - IT Facility	Purchase of a free standing data center, communications center, monitoring center, repair facility, or similar technology facility. Other costs for running the IT facility would be included in other general expense categories. These would include HVAC, power, distribution equipment, backup generators, building security improvements, and building management systems. Does not include other distributed computing environments that are part of general lease of office space.
824002-824999	UNASSIGNED	
825000	[IT EXPENDITURES] SOFTWARE BASED INFORMATION TECHNOLOGY AGREEMENTS (SBITA) GREATER THAN 12 MONTHS	
825001	SBITA greater than 12 months	Covers costs for a SBITA (greater than 12 mos including renewal options) vendor's IT software, alone or in combination with tangible capital assets (the underlying IT assets), as specified in the contract for a period of time in an exchange or exchange-like transaction. There are multiple types of arrangements available— cloud based software, software as a service, infrastructure as a service and platform as a service.
825002	SBITA greater than 12 months - Initial Implementation	Initial Implementation stage for SBITA - Covers ancillary charges related to designing the chosen path, such as configuration, coding, testing, and installation associated with the government's access to the underlying IT assets. Other ancillary charges necessary to place the subscription asset into service also should be included in this stage. Data conversion activities can be capitalized if deemed necessary to place the asset into service.
825003	SBITA greater than 12 months - Software Maintenance & Support & Additional Implementation Costs	Annual maintenance, troubleshooting, training, and other activities associated with the government's ongoing access to the underlying SBITA IT assets. May include additional implementation activities, such as those related to additional modules, that occur after the subscription asset is placed into service. Data conversion should be considered an activity of the initial implementation stage only to the extent that it is determined to be necessary to place the subscription asset into service—that is, in condition for use.

ACCOUNT		ACCOUNT DEFINITIONS (PROVIDED BY GTA)
825004	SBITA greater than 12 months - Variable Payments - CPI	SBITA Variable payments that depend on an index or a rate, such as variable payments based on future performance of a government, usage of the underlying IT assets, or number of user seats.
825005	SBITA greater than 12 months - Variable Payments - USAGE	SBITA Variable payments other than those that depend on an index or a rate, such as variable payments based on future performance of a government, usage of the underlying IT assets, or number of user seats.
825006	SBITA - Preliminary Stage	Activities in this stage include the conceptual formulation and evaluation of alternatives, the determination of the existence of needed technology, and the final selection of alternatives for the SBITA.
825007-825999	UNASSIGNED	
826000	[IT EXPENDITURES] SUBSCRIPTION BASED INFORMATION TECHNOLOGY AGREEMENT (SBITA) LESS THAN 12	
826001	SBITA less than 12 months	Covers costs for a short term (12 mos or less including renewal options) SBITA vendor's IT software as specified in the contract for a period of time in an exchange or exchange-like transaction. There are multiple types of arrangements available— cloud based software, software as a service, infrastructure as a service and platform as a service.
826002-847999	UNASSIGNED	
848000	[IT EXPENDITURES] IT REAL ESTATE RENTALS	
848001	IT Real Estate Rentals - IT Facility	Lease cost for a free standing data center, communications center, monitoring center, repair facility, or similar technology facility. Other costs for running the IT facility would be included in other general expense categories. These would include HVAC, power, distribution equipment, backup generators, building security improvements, and building management systems. Does not include other distributed computing environments that are part of general lease of office space.
848002-850999	UNASSIGNED	
851000	[IT EXPENDITURES] PROFESSIONAL/TECHNICAL SERVICES COMPUTER/IT	
851001	Personal Computer & Printer Support Services	Contracted personnel support for personal systems and related software that is not included in annual software/hardware maintenance and support contracts.
851010	Server Support Services	Contracted personnel support for server systems and related software that is not included in annual software/hardware maintenance and support contracts.
851020	Mainframe Support Services	Contracted personnel support for mainframe systems and software that is not included in annual software/hardware maintenance and support contracts.
851210	LAN Support Services	Contracted personnel support for LANs.
851220	WAN Support Services	Contracted personnel support for WANs.
851310	Application Development Services	Contracted personnel engaged in application development.
851320	Application Support Services	Contracted personnel engaged in application support.
851321-851999	UNASSIGNED	
852000	[IT EXPENDITURES] PROFESSIONAL/TECHNICAL SERVICES COMPUTER/IT - EXPENSES	
852001	Professional/Technical Services - Expenses - Reimbursable Expenses	Reimbursable costs such as travel, postage, telephone, etc., related to services rendered by IT professionals.
852002	Professional/Technical Services - Expenses - Third Party Expense	Reimbursable costs such as travel, postage, telephone, etc., related to services rendered by third parties on behalf of IT professionals.
852003-857999	UNASSIGNED	
858000	[IT EXPENDITURES] CENTRALIZED ACCOUNTING SYSTEM FEES	
858001	Centralized Accounting System Fees	To record payments of State Accounting Office invoices for services provided for billings of financials, HCM and printing through TeamWorks.
858002-862999	UNASSIGNED	
863000	[IT EXPENDITURES] SOFTWARE (NOTCAPITALIZED)	
863001	Software Not Capitalized - Personal Systems Software	Covers purchase, development, renewal of all types of personal systems software licenses intended for individual use less than \$1,000,000. This includes software for personal computers, terminals, workstations, notebook computers, and tablets. This also includes software for related peripherals directly attached to personal systems.
863010	Software Not Capitalized - Server Software	Covers purchase, development, renewal and installation/integration costs for all types of server software licenses intended for shared use or for workgroup or specialized uses less than \$1,000,000. This includes application, database, web, mail, authentication, access control, intrusion detection, media, and broadcast services, among other types of software. Includes costs for diagnostic tools. Does not include authentication, access control, or intrusion detection software. These are included under Network Software.
863020	Software Not Capitalized - Mainframe Software	Covers purchase, development, renewal, and installation/integration costs for all types of mainframe software licenses intended for large general purpose, multi-application environments sharing the same computing platforms less than \$1,000,000. Unlike server software, mainframe software runs on hardware that utilizes high single-thread architecture and maximize I/O connectivity and I/O bandwidth for superior reliability. Would also include software for all types of shared storage systems, specialized systems, and other production-scale peripheral systems including interactive voice response units, optical scanners, magnetic scanners, bar code scanners, printers, etc, in a mainframe environment.
863040	Software Not Capitalized - Network Software	Covers purchase, development, and installation/integration costs for all software licenses associated with all network hardware and related components, including switches, routers, hubs, firewall appliances, VPN appliances, communication controllers, access control servers, authentication servers, intrusion detection servers, file and print servers, and diagnostic equipment less than \$1,000,000. Includes monitoring equipment and personal computers used as network management consoles.
863050	Software Not Capitalized - Software as a Service	Covers purchase, development, renewal, licensing, and installation/integration costs for all types of cloud-based software intended for large general purpose, multi application environments sharing the same computing platforms. This software is accessed online via a subscription, rather than bought and installed on individual computers.
863051-863999	UNASSIGNED	
864000	[IT EXPENDITURES] SOFTWARE MAINTENANCE AND SUPPORT	

ACCOUNT		ACCOUNT DEFINITIONS (PROVIDED BY GTA)
864001	Software Maintenance & Support - Personal Systems Software	Annual maintenance and support costs for all types of personal systems software intended for individual use, regardless of value. This includes software for personal computers, terminals, workstations, notebook computers, and tablets. This also includes software for related peripherals directly attached to personal systems.
864010	Software Maintenance & Support - Server Software	Annual maintenance and support costs for all types of server software intended for shared use or for workgroup or specialized uses. This includes application, database, web, mail, authentication, access control, intrusion detection, media, and broadcast services, among other types of software. Includes costs for diagnostic tools. Does not include authentication, access control, or intrusion detection software maintenance and support. These are included under Network Software Maintenance and Support.
864020	Software Maintenance & Support - Mainframe Software	Annual maintenance and support for all types of mainframe software intended for large general purpose, multi-application environments sharing the same computing platforms. Unlike server software, mainframe software runs on hardware that utilizes high single-thread architecture and maximize I/O connectivity and I/O bandwidth for superior reliability. Would also include software for all types of shared storage systems, specialized systems, and other production-scale peripheral systems including interactive voice response units, optical scanners, magnetic scanners, bar code scanners, printers, etc. in a mainframe environment.
864040	Software Maintenance & Support - Network Software	Annual maintenance and support for all software associated with all network hardware and related components, including switches, routers, hubs, firewall appliances, VPN appliances, communication controllers, access control servers, authentication servers, intrusion detection servers, file and print servers, and diagnostic equipment. Includes software for monitoring equipment and personal computers used as network management consoles.
864041-864999	UNASSIGNED	
865000	[IT EXPENDITURES] INFRASTRUCTURE AND TELECOMMUNICATIONS (TO PAY GTA INVOICES)	
865001	Infrastructure	GTA (GAIT 2010) bill for costs related to infrastructure. Note that the infrastructure portion of the GTA bill also includes billings for SAO PeopleSoft and for GTA IV&V services.
865002	Managed Network Services	GTA (GAIT 2010) bill for costs related to managed network services.
865003	Infrastructure - GTA USE ONLY	For use by GTA to pay GTA portion of infrastructure bill.
865004	Managed Network Services - GTA USE ONLY	For use by GTA to pay GTA portion of managed network services bill.
865005-870999	UNASSIGNED	
871000	[IT EXPENDITURES] VOICE/DATA COMMUNICATION SERVICES (TO PAY GTA INVOICES) DO NOT USE	
871001	Voice/Data Communication Services - GTA Computer Bill	DO NOT USE
871002	Voice/Data Communication Services - GTA Data Network Bill	DO NOT USE
871003	Voice/Data Communication Services - GTA Telecommunications Bill	DO NOT USE
871004-871999	UNASSIGNED	
872000	[IT EXPENDITURES] VOICE/DATA COMMUNICATION SERVICES (VENDORS OTHER THAN GTA)	
872001	Voice/Data Communication Services - Wire/Cable	Includes services for minor wiring and cabling to augment existing cable plant and facilities. Would include adding wall jacks to a previously wired facility. Also includes services for design and installation of new wire and cable plants and facilities. Would include wiring of a new building.
872002	Voice/Data Communication Services - Wire/Cable 2	DO NOT USE
872003	Voice/Data Communication Services - MPLS	Monthly recurring costs for MPLS circuits from the inside customer edge of the router to the MPLS cloud (End to End).
872004	Voice/Data Communication Services - Video	Monthly recurring access costs for Video services, equipment, and usage.
872005	Voice/Data Communication Services - Local Service	Monthly recurring access costs for local telephone services including Centrex, business lines, and other land wired voice services.
872006	Voice/Data Communication Services - Long Distance	Monthly Long Distance charges including usage for calling cards, directory assistance, and other similar services usage.
872007	Voice/Data Communication Services - Voice Mail and Other Voice	Monthly recurring costs for Voice Mail and Other Voice Processing services including unified messaging, and automated call distributions systems.
872008	Voice/Data Communication Services - PBX	PBX monthly recurring access charges and trunking to the public switch telephone network including PRI services.
872009	Voice/Data Communication Services - VOIP	VOIP and VOIP hybrid PBX monthly recurring access charges and trunking to the public switch telephone network including PRI services.
872010	Voice/Data Communication Services - Key System	Monthly recurring access charges for Key Telephone Systems.
872011	Voice/Data Communication Services - Mobile/Wireless	Service establishment, monthly recurring, and usage charges for mobile communication devices and wireless networks (cell, PDA, Blackberries, pagers, radios, etc.).
872012	Voice/Data Communication Services - Other	Monthly recurring charges that do not fit any other category.
872013-872999	UNASSIGNED	
873000	[IT EXPENDITURES] VOICE/DATA COMMUNICATION SERVICES (GTA USE ONLY)	
873001	Voice/Data Communication Services - Wire/Cable	Includes services for minor wiring and cabling to augment existing cable plant and facilities. Would include adding wall jacks to a previously wired facility. Also includes services for design and installation of new wire and cable plants and facilities. Would include wiring of a new building.
873002	Voice/Data Communication Services - Wire/Cable 2	DO NOT USE
873003	Voice/Data Communication Services - MPLS	Monthly recurring costs for MPLS circuits from the inside customer edge of the router to the MPLS cloud (End to End).
873004	Voice/Data Communication Services - Video	Monthly recurring access costs for Video services, equipment, and usage.
873005	Voice/Data Communication Services - Local Service	Monthly recurring access costs for local telephone services including Centrex, business lines, and other land wired voice services.
873006	Voice/Data Communication Services - Long Distance	Monthly Long Distance charges including usage for calling cards, directory assistance, and other similar services usage.
873007	Voice/Data Communication Services - Voice Mail and Other Voice Processing	Monthly recurring costs for Voice Mail and Other Voice Processing services including unified messaging, and automated call distributions systems.
873008	Voice/Data Communication Services - PBX	PBX monthly recurring access charges and trunking to the public switch telephone network including PRI services.
873009	Voice/Data Communication Services - VOIP	VOIP and VOIP hybrid PBX monthly recurring access charges and trunking to the public switch telephone network including PRI services.
873010	Voice/Data Communication Services - Key System	Monthly recurring access charges for Key Telephone Systems.
873011	Voice/Data Communication Services - Mobile/Wireless	Service establishment, monthly recurring, and usage charges for mobile communication devices and wireless networks (cell, PDA, Blackberries, pagers, radios, etc.).
873012	Voice/Data Communication Services - Other	Monthly recurring charges that do not fit any other category.
